- b. No new information of substantial importance to the Project has become available which was not known or could not have been known with the exercise of reasonable diligence at the time the EIR for the Project was certified as completed, and which shows that the development contemplated by the 777 Beech and related activities will have any significant effects not discussed previously in the EIR, or that any significant effects previously examined will be substantially more severe than shown in the EIR, or that any mitigation measures or alternatives previously found not to be feasible or not previously considered would substantially reduce or lessen any significant effects on the environment of the development.
- c. No negative declaration, or subsequent environmental impact report, or supplement or addendum to the EIR is necessary or required.
- d. The development of the 777 Beech project will have no significant effect on the environment, except as identified and considered in the EIR previously certified; and
