(a) No substantial changes are proposed in the Project, or with respect to the circumstances under which the Project is to be undertaken, as a result of the sale of real property and construction of the facilities pursuant to the Disposition and Development Agreement, which will require major or important revisions in the Negative Declaration certified for the Project, due to the involvement of new significant environmental impacts not covered in the Negative Declaration; and

(b) No new information of substantial importance to the Project has become available which was not known or could not have been known at the time the Negative Declaration for the Project was certified as complete, and which shows that the Project will have any significant effects not discussed previously in the Negative Declaration or that any significant effects previously examined will be substantially more

severe than shown in the Negative Declaration,
or that any mitigation measures or alternatives
previously found not to be feasible or not
previously considered would substantially
reduce or lessen any significant effects of the
Project on the environment; and

(c) No environmental impact report is necessary or
required; and

(d) The sale of real property and construction of
the facilities pursuant to the Disposition and
Development Agreement will have no significant

respect to environmental impacts in the Project as
set forth in Resolution No. R-216896 of the Council
include as an implementation activity the sale of

to the Disposition and Development Agreement and
such certifications, findings and determinations are
hereby ratified in their entirety.
