WHEREAS, the Agency has considered the environmental effects of the proposed development as shown in the MEIR, the Secondary Study and Negative Declaration and other previous environmental documents; NOW, THEREFORE,

BE IT RESOLVED, by the Redevelopment Agency of The City of San Diego as follows:

1. The Agency hereby certifies that the Environmental Impact Secondary Study and Negative Declaration pertaining to the Disposition and Development has been prepared and completed in compliance with the California Environmental Quality Act of 1970 and state and local regulations and guidelines adopted pursuant thereto.

2. The Agency hereby further certifies that the information contained in said Secondary Study and Negative Declaration and the environmental assessment documents referenced therein have been reviewed and considered by the Agency members.

3. The Agency hereby finds and determines that:

a. New information specific to the development under the proposed Disposition and Development Agreement, as described in the Secondary Study, and Negative Declaration shows that the development may cause potentially significant effects with respect to contaminated soil and water but (a) revisions to the proposed Disposition and Development Agreement as set forth in Exhibit A (attached hereto and incorporated herein by this reference) will avoid the effects or mitigate the effects to a point where no significant effects would occur; and (b) there is no substantial evidence that the development under the proposed Disposition and

Development Agreement as revised may have a significant effect on the environment;

b. The Final Mitigated Negative Declaration with respect to the proposed Disposition and Development Agreement is hereby approved and adopted;

c. Except as set forth in paragraph a. above, no substantial changes are proposed in the Redevelopment Project, or with respect to the circumstances under which the Project is to be undertaken, as a result of the proposed Disposition and Development Agreement which will require important revisions in the previous EIR for the Project and, no new information of substantial importance to the Project has become available, due to the involvement of new significant environmental impacts not covered in said previous EIR for the Project; and

d. The proposed Disposition and Development Agreement will have no significant effect on the environment, except as identified and considered in the previous EIR for the Project.

4. Based upon the Secondary Study and Negative Declaration and other documents and information in the record, the Agency hereby approves and adopts the Secondary Study and Negative Declaration and the environmental assessment documents referenced therein for the proposed Disposition and Development Agreement for the Marina Redevelopment Project.
