BE IT RESOLVED, by the Redevelopment Agency of The City of San

Diego, as follows:

1. That the Agency hereby certifies that the Secondary Study of environmental impacts with respect to the proposed Crosby Street Improvement Project has been prepared pursuant to the California Environmental Quality Act of 1970 (CEQA) and State and local regulations and guidelines adopted pursuant thereto.

2. That the Agency hereby further certifies that the information contained in the Secondary Study and the EIR for the Project has been reviewed and considered by the members of the Agency.

3. That the Agency hereby finds and determines that:

(a) No substantial changes are proposed in the Project, or with respect to the circumstances under which the Project is to be undertaken, as a result of the street widening and ancillary public improvements, which will require major or important revisions in the Secondary Study certified for the Project, due to the involvement of new significant environmental impacts not covered in the Secondary Study; and

(b) No new information of substantial importance to the Project has become available which was not known or could not have been known at the time the Secondary Study for the Project was certified as complete, and which shows that the Project will have any significant effects not discussed previously in the Secondary Study, or that any significant effects previously examined will be substantially more severe than shown in the Secondary Study or that any mitigation measures or alternatives previously found not to be feasible or not previously considered would substantially reduce or lessen any significant effects of the Project on the environment; and

(c) No subsequent or supplemental environmental impact report is necessary or required; and

(d) The proposed public improvements will have no significant effect on the environment except as identified and considered in the Secondary Study.

4. That the Agency hereby finds and determines that the certifications, findings and determinations with respect to environmental impacts in the Project as set forth in Resolution No. R-277877 of the Council and Resolution No. 1965 of the Agency include as an implementation activity the construction of certain improvements and such certifications, findings and determinations are hereby ratified in their entirety.
