(b) No new information of substantial importance to the Project has become available which was not known or could not have been known at the time the Environmental Impact Report for the Project was certified as complete, and which shows that the Project will have any significant effects not discussed previously in the Environmental Impact Report, or that any significant effects previously examined will be substantially more severe than shown in the Environmental Impact Report, or that any mitigation measures or alternatives previously found not to be feasible or not previously considered would substantially reduce or lessen any significant

effects of the Project on the environment; and
