WHEREAS, the construction of the proposed development thereon pursuant to the provisions of the Centre City Planned District is a redevelopment implementation activity whose environmental impacts are assessed in the MEIR; and

WHEREAS, the Centre City Development Corporation, Inc. ("CCDC"), acting on behalf of the Agency and the City Council, has prepared a Secondary Study in accordance with and pursuant to the California Environmental Quality Act of 1970 ("CEQA"), as amended, and State and local regulations and guidelines adopted pursuant thereto, and such Secondary Study assesses the environmental impacts of the development of the real property; and

3. That it finds and determines that:

a. No substantial changes are proposed in the Centre City Redevelopment Project, or with respect to the circumstances under which the Project is to be undertaken, as a result of the development of real property, which will require important revisions in the MEIR for the Project, due to the involvement of new significant environmental impacts not covered in the MEIR; and

b. No new information of substantial importance to the Project has become available which was not known or could not have been known at the time the MEIR for the Project was certified as complete, and which shows that the Project will have any significant effects not discussed previously in the MEIR, or that any significant effects previously examined will be substantially more severe than shown in the MEIR, or that any mitigation measures or alternatives previously found not to be feasible or not previously considered would substantially reduce

or lessen any significant effects of the Project on the environment; and

c.The development of the real property will have no significant effect on the environment, except as identified and considered in the MEIR for the Project; and

d.No negative declaration, or subsequent environmental impact report, or supplement or addendum to the MEIR is necessary or required.
