- a. That the proposed structure at the particular location and under the proposed conditions of development with regard to good planning practice, including provisions for height, building bulk, yards, open spaces, lot coverage, grading and related matters, will provide equally as well for light and air, for public health, safety and convenience and the preservation of the general welfare of the community as if developed to the limits imposed by the 50-foot height limitation and the other zoning regulations applicable to the property in question.
