

RESOLUTION NO. 204789

Adopted on JAN 25 1972

WHEREAS, the Suggestion Awards Committee has heretofore made certain recommendations to this Council; and

WHEREAS, the Council has reviewed said recommendations as well as the suggestions as presented; NOW THEREFORE,

BE IT RESOLVED, by the Council of the City of San Diego, as follows:

That the following suggestion awards are hereby approved and the Auditor and Comptroller is hereby directed to issue warrants out of the General Fund for the following suggestions:

<u>NAME</u>	<u>DEPARTMENT</u>	<u>AMOUNT</u>	<u>SUGGESTION</u>
Thomas J. Olson John D. McNamara	PUBLIC WORKS DEPARTMENT Equipment Division	\$90	These Equipment Servicemen noted that many heavy truck tires go flat because the heat of operation caused the valve cores to melt. They suggested replacement cores that resist heat. This will save over \$900 per year in tire changing time, and tires will be kept in better condition.
Thomas L. Miller	PUBLIC WORKS DEPARTMENT Equipment Division	\$65	Miller, an Apprentice Welder, suggested a method of building up worn gutter broom segments by welding so they can be used 3 times as long. This will save \$630 a year in the cost of segments.
Mary M. Barta	WATER UTILITIES DEPT. Customer Service Division	\$60	It was suggested that New Service Orders be changed to show "turn-on" information. Saved is key punching and data processing machine time amounting to nearly \$600 per year.
Gunnar R. Swanson	PUBLIC WORKS DEPARTMENT Equipment Division	\$20	A replacement brand of radiator hose was found that costs much less and is probably better. \$190 per year is saved in the cost of hose alone.
Bernice F. Webber	AUDITOR & COMPTROLLER	\$20	This suggester discovered that the City was being wrongly taxed on some telephone bills. This has been stopped and \$217 refunded.
Charles B. Simon	FIRE DEPARTMENT	\$20	A special accessory was designed by this fireman that can be placed on hydraulic jacks to permit lifting heavy objects too close to the ground to use the jacks otherwise. This may prevent injuries and will improve operations at fires and accidents.
