COUNCIL POLICY

SUBJECT <i>Proposed Amendment</i> ANNEXATIONS BY CITY	POLICY NUMBER	EFFECTIVE DATE	PAGE
	600-1	6/11/70	1 OF 1

BACKGROUND

During the 1950's and 1960's, The City of San Diego experienced a tremendous amount of growth in all areas of the City through annexations. The recent development of these new lands has stretched the resources of the City to a point where it is recognized that annexation for its own sake is not always in the best interest of the City. However, the present City boundaries are ill defined from the standpoint of logic concerning what could be ultimately the final boundaries. Such items as area drainage patterns, physical interrelationships between lands within present City boundaries and those outside and other similar things should be weighed and some preliminary planning done toward achieving the optimum City boundary.

PURPOSE

It is the purpose of this policy to facilitate the elimination of county islands, and to work toward the above-mentioned ultimate logical boundaries for the City by instructing the City staff to actively pursue annexation activity whenever these objectives will be achieved.

POLICY

It is the policy of the City Council that except as noted below, the annexation of any unincorporated territory to the City shall primarily be the responsibility of the citizens and/or property owners involved in the area proposed for annexation. However, in response to questions asked by any citizen or property owner interested in annexation, the City will furnish factual information regarding requirements of annexation and comparative costs insofar as possible.

In order to close in islands, round out the City boundaries, eliminate duplication of service areas, finalize drainage areas, and generally work toward the logical ultimate boundaries of the City, the City will take the initiative in facilitating annexations.

Other annexations shall be of such size and configuration as to provide a viable planning and municipal services operating area. The outer limits of new annexations shall generally coincide with the limits of a drainage basin, or with the limits of the City's "sphere of influence" as indicated in Council Policy 400-8.
