DRAFT COUNCIL POLICY

2/6/74

SUBJECT: Street Names

600-12 (Revised)

BACKGROUND

Selection of street names must be done carefully in order to avoid duplication and confusing similarity not only within the City of San Diego but also with other cities and the unincorporated areas within the metropolitan region. Towards this end the County of San Diego maintains a Coordinator of Street Names. Also, the San Diego Post Office has a policy of delivering mail only to addresses (both house number and street name) assigned by the City with jurisdiction over the area.

PURPOSE

To establish policy regarding the naming of streets..

POLICY

1. That the City will cooperate with the County and with all other cities in the metropolitan area in selecting names for streets, roads, highways and public thoroughfares so that duplication, similarity, and confusion in names will be avoided. No new streets will be named or existing street names changed until the proposed name has been approved by the County Coordinator of Street Names.

2. The City Engineer shall designate a City Street Name Coordinator who shall be responsible for maintaining records of City street names and for insuring review of proposed street names by affected City departments and insuring that proposed street names are cleared by the County Coordinator of Street Names.

FORM OF

Policy (Continued)

3. The area of all streets, public or private, assigned names by the City shall be shown on subdivision maps or separately approved drawings on file in the City's Engineering Records Center. Proposed names shall not be shown on any such tentative drawing until they have been approved by the Street Name Coordinator.

4. All private street names must bear an identifying secondary designation in the title. "Row", "Caminito", or "Ruelle" are examples of suitable designators but others may be approved by the City Engineer. Public streets shall not bear such designators.

5. Private streets will be assigned names only if they are, or are to be, constructed to the standards prescribed in Council Policy 600-4.

6. Petitions to convert private streets to public streets will be accepted only if the streets are constructed to the standards prescribed in Council Policy 600-4 or there is a finding that unusual circumstances warrant such dedications. Such proposals must be accompanied by related petitions for street name changes which will eliminate the private street designators. Final Council action to dedicate such streets to public use shall be conditioned upon the applicant's paying all costs for new signing that may be required.

7. A Petition to change the name of a street shall be submitted to the City Engineer and the new name proposed shall be reviewed and approved by the Street Name Coordinator before any further action is taken on the application.

8. A proposal to change the name of a street shall be referred to the Planning Commission for a recommendation prior to the matter being scheduled for Council action.
