

SEP 24 1975

RESOLUTION NO. 214322

WHEREAS, the City of San Diego owns certain real properties known as "MISSION BAY HARBOR" and said harbor was developed jointly with the Federal Government; and

WHEREAS, said harbor entrance including Mariner's Cove and Quivira Basin has been developed as a navigable small boat harbor; and

WHEREAS, a hazardous condition presently exists at the harbor entrance as set forth in the September 1975 Report to Council of the City of San Diego; and

WHEREAS, a surge condition exists as set forth in the June, 1969 Corps of Engineers Technical Report H-69-8, Wave Action in Mission Bay Harbor, California; and

WHEREAS, the above stated conditions present a hazard to boating operations in the harbor, limit recreational and commercial activities, result in loss of revenue, and reduce public use and employment of the harbor; and

WHEREAS, because of these conditions, development of Mission Bay Harbor to its ultimate design capacity has been hindered;
NOW, THEREFORE,

BE IT RESOLVED, that the City of San Diego requests the United States Army Corps of Engineers, under the outstanding authority for the San Diego River-Mission Bay Project (House Document 760, 79th Congress, 2nd Session, July 30, 1946), conduct a study of alternatives, including an offshore detached breakwater, for modification of the Mission Bay Harbor entrance.
