E. Eliminate environmental deficiencies, including among others, small and irregular lot and block subdivision, excessive streets and parking areas, economic and social deficiencies and inadequate utilization of land and public facilities.

F. Insure, to the greatest extent possible, that the causes of such blighting influences and conditions and such environmental deficiencies will be either eliminated or protected against.

G. Provide opportunities for participation for owners and tenants and a reasonable preference for persons engaged in business in the Project area.

H. Encourage the rehabilitation, rebuilding, and development of the Project area.

I. Encourage and foster the economic revitalization of the Project area.

J. Relocate the owners and occupants from properties within the Project area as needed.

K. Redevelop and rebuild the public facilities in the Project area to provide safer and more efficient services for

the people in the area and the general public as a whole:

L. Preserve artistically and architecturally worthwhile structures and sites.

M. Minimize the conflict of pedestrian and automobile traffic, increase transportation efficiency and encourage new concepts of transportation.

N. Provide for the orderly development of a portion of the Centre City in accordance with the General Plan for the City of San Diego and the Centre City Community Plan.

O. Assemble adequate sites, and provide for and (as necessary) assist in the development and construction of residential dwellings and commercial uses in the Project area.

P. Upgrade the quality of life in downtown San Diego.

Q. Establish and implement design standards which assure development of outstanding architectural and environmental quality with special regard to the spatial relationship of open areas to building structures (private and public), variety of building size, bulk and siting, activity areas, pedestrian spaces and other design elements which provide unity, integrity and quality to the entire Project.

Section 2. That the Redevelopment Plan for the Project having been duly reviewed and considered, is hereby adopted and approved, and the City Clerk is hereby directed to file said copy of the Redevelopment Plan with the minutes of this

meeting. Said Redevelopment Plan, a copy of which is on file in the office of the City Clerk as Document No. 757738 is incorporated herein by reference and made a part hereof as if fully set out herein. The approved Plan is the official Redevelopment Plan of the Project and all written and oral objections to the Plan are hereby overruled.

Section 3. The City Council hereby certifies that it has reviewed and considered the information contained in the Final Supplement to the Environmental Impact Report pertaining to the Project and the Redevelopment Plan, concurrent with its actions as provided in this Ordinance; hereby finds that redevelopment activities to be conducted within the Project area pursuant to said Redevelopment Plan will not have a significant effect nor a substantial adverse impact on the environment; and hereby approves and adopts said Final Supplement to said Environmental Impact Report as the report of the City Council.

Section 4. The Council hereby finds and determines that:

A. Upon the record of the joint public hearing on the Redevelopment Plan, the Report of the Agency thereon (copies of which are on file in the office of the City Clerk and which Report is hereby incorporated herein by reference and made a part hereof as if fully set out at length herein) and supporting data thereto, the Final Supplement to the Environmental Impact Report, and the testimony received at the joint public hearing, the Project area is a blighted area, the redevelopment of which is necessary to effectuate the public purposes declared in the Community Redevelopment Law of the State of California, to wit:

1. The area contains blight, as the same is defined in the California Community Redevelopment Law, which constitutes social and economic liabilities

requiring redevelopment in the interest of the health, safety, and general welfare of the people of The City of San Diego.

2. Many buildings and structures in the Project area are vacant, blighted, or deteriorated.

3. Lot sizes in the Project area are rather small and land parcels are owned in fee by many different persons and/or corporations, therefore making it difficult to assemble land for redevelopment.

4. The area is characterized by economic dislocation, deterioration, and disuse resulting in depreciated land values, impaired investments, and social and economic maladjustment, all contributing to the reduced capacity to pay taxes.

5. The growing or total lack of proper utilization of the area has resulted in a stagnant and unproductive condition of land potentially useful and valuable for contributing to the public health, safety, and welfare.

B. The Redevelopment Plan for the Marina Redevelopment Project will redevelop the Project in conformity with the Community Redevelopment Law of the State of California and in the interest of public peace, health, safety, and welfare.

C. The adoption and carrying out of the Redevelopment Plan for the Project are economically sound and feasible.

D. The Redevelopment Plan for the Project conforms to the General Plan of the City of San Diego and the Centre City Community Plan.

E. The carrying out of the Redevelopment Plan for the Project will promote the public peace, health, safety and welfare of The City of San Diego and will effectuate the purposes and policies of the Community Redevelopment Law of the State of California.

F. The condemnation of real property, as provided for in the Redevelopment Plan for the Project, is necessary to the execution of the Redevelopment Plan and adequate provisions have been made for payment for property to be acquired as provided by law.

G. There are families and persons to be displaced from housing facilities in the Project, and when any such families and persons are displaced by redevelopment activities:

1. The Agency has a feasible method and plan for the relocation of families and persons to be temporarily or permanently displaced from housing facilities in the area.

2. There will be provided in the entire Project area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and persons displaced from the Project, decent, safe, and sanitary dwellings equal in number to the number of and available to such displaced families and persons and reasonably accessible to their places of employment.

H. The Redevelopment Plan for the Project area will afford a maximum opportunity (consistent with the sound needs of the locality as a whole) for the redevelopment of such area by private enterprise, which could not be reasonably expected to be accomplished without the aid and assistance of the Agency.

Section 5. In the event any occupants are displaced from housing facilities in the Project, the Council is satisfied permanent housing facilities will be available within three years from the time occupants of the Project area are displaced and that pending the development of such facilities there will be available to such displaced occupants adequate temporary housing facilities at rents comparable to those in The City of San Diego at the time of their displacement.

Section 6. That, in order to implement and facilitate the effectuation of the Redevelopment Plan hereby approved, it will be necessary for the Council to take action with reference, among other things, to the vacating and removal of streets, alleys and other public ways, the establishment of street patterns, the location and relocation of sewer and water mains and other public facilities, and other public actions; and, accordingly, this body hereby: (a) pledges its cooperation in helping to carry out the Redevelopment Plan, including the expenditures of money in accordance with the provisions of the Plan to effectuate the Plan; (b) requests the various officials, departments, boards and agencies in the locality having administrative responsibilities in the Project area likewise to cooperate to such end and to exercise their respective functions and powers in a manner consistent with the Redevelopment Plan, and (c) stands ready to consider and take appropriate action upon proposals and

measures designed to effectuate the Redevelopment Plan, and hereby declares its intention to undertake and complete any proceedings necessary to be carried out by the community under the provisions of the Redevelopment Plan.

Section 7. That all written and oral objections to the Redevelopment Plan are hereby overruled.

Section 8. That the City Clerk is hereby directed to send a certified copy of this ordinance to Agency and Agency is hereby vested with the responsibility for carrying out the Redevelopment Plan for the Marina Redevelopment Project.

Section 9. That the City Clerk is hereby directed to record with the County Recorder of San Diego County a description of the land within the Project and a statement that proceedings for the redevelopment of the Project have been instituted under the California Community Redevelopment Law. The Agency is hereby directed to effectuate recordation in compliance with the provisions of Section 27295 of the Government Code to the extent applicable.

Section 10. That the Building Inspection Department of The City of San Diego is hereby directed, for a period of two years after the effective date of this Ordinance, to advise all applicants for building permits within the Project that the site for which a building permit is sought for the construction of buildings or for other improvements is within a redevelopment project area.
