

**RESOLUTION No. 217930**

(R-77 2211)

Adopted on MAR 16 1977

BE IT RESOLVED, by the Council of The City of San Diego as follows:

The following finding is made with respect to the adverse environmental impact of traffic identified in Environmental Impact Report No. 76-09-41P:

The adverse traffic problems will be partially mitigated by redesigning the intersection to facilitate traffic movements. Due to the costs involved, it would be economically infeasible for the present applicant to totally mitigate the traffic problem because the cost of such measures would be reflected in the cost of housing units. Such additional costs would be socially infeasible and contrary to the efforts to provide housing at the lowest possible cost.
