BACKGROUND

Regulation of taxicab service is in the interest of providing the citizens and visitors to the City of San Diego with a good quality local transportation service. Towards this end, the City finds it desirable to regulate the issuance of taxicab permits.

PURPOSE

To establish a policy with guidelines for the issuance of taxicab permits.

POLICY

The City Council will periodically establish the maximum number of taxicab permits to be issued by the City. Several factors will be reviewed in establishing this number, including existing level and quality of service, demand for service and the availability of other modes of transportation.

New permits will be issued on a full cost recovery basis to eligible applicants selected through a lottery process. No ongoing waiting list of applicants for permits will be maintained.

The process through which permits are issued will limit the concentration of permits. No permits will be issued or transferred to any person, company, business, corporation, or other entity if such issuance or transfer would result in any permit holder having an interest in more than 40% of the existing permits. No permits will be issued or transferred to any person if such issuance or transfer would result in single permit holders in aggregate having interest in more than 16% of the existing permits.

IMPLEMENTATION

The following guidelines and procedures should be observed with respect to the issuance of taxicab permits.

1. The City Manager will submit a report to the Transportation and Land Use Committee containing recommendations for issuance of new permits whenever there is a significant change in the following industry indicators:
