

(R-85-1244)

RESOLUTION NUMBER R- 262334

ADOPTED ON JAN 14 1985

WHEREAS, the Corps of Engineers is prepared to publish a report which could have a deleterious effect on the proposal for a second entrance to San Diego Harbor, and

WHEREAS, the Corps' report is based upon figures which need to be updated in order to give a fair evaluation of this project, and

WHEREAS, it is our belief that the second harbor entrance could have military, commercial and recreational benefits which could outweigh the costs involved; NOW, THEREFORE,

BE IT RESOLVED, that the City Council of the City of San Diego does hereby resolve as follows:

1. That the Corps of Engineers withhold its report until figures can be updated describing the cost benefit ratios with regard to military, commercial and recreational uses of the proposed second harbor entrance.

2. That the San Diego Unified Port District do a study of the benefits to the District and to its member cities of both a second entrance of sufficient size to accommodate large naval and trade vessels, or a second entrance which would be of a size to serve recreational craft only, so that this project can be fairly evaluated.

3. That the Navy reanalyze its study of the savings that a second entrance would result in with regard to fuel costs,

maintenance of equipment and personnel costs and that the national security implications of a second entrance be fully considered as part of the benefits associated with this project.

4. That any further analysis or study of this proposal should specifically give consideration to the following issues:

- a. Provision of free vehicular access on the Silver Strand over or under the proposed entrance.
- b. Protection of the water quality of San Diego Bay from any deterioration as a result of the second entrance.
- c. Insuring the continued replenishment of sand to the coastal areas north of the proposed second harbor entrance.
