3. The Council hereby finds and determines that:

(a) No substantial changes are proposed in the Project, or with respect to the circumstances under which the Project is to be undertaken, as a result of the sale of real property and construction of the facilities pursuant to the Disposition and Development Agreement, which will require important revisions in the Negative Declaration certified for the Project, due to the involvement of new significant environmental impacts not covered in the Negative Declaration; and

(b) No new information of substantial importance to the Project has become available which was not known or could not have been known at the time the Negative Declaration for the Project were certified as complete, and which shows that the Project will have any significant effects not discussed previously in the Negative Declaration, or that any significant effects previously examined will be substantially more severe than shown in the Negative Declaration, or that any mitigation measures or alternatives previously found not

to be feasible or not previously considered would substantially reduce or lessen any significant effects of the Project on the environment; and

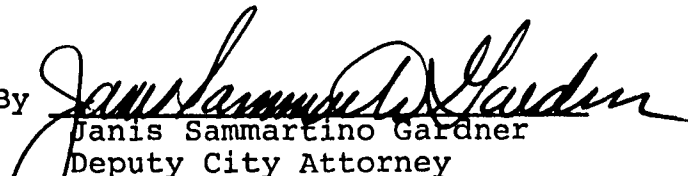

(c) No environmental impact report is necessary or required; and

(d) The sale of real property and construction of facilities pursuant to the Disposition and Development Agreement will have no significant effect on the environment except as identified and considered in the Negative Declaration.
