

RESOLUTION NUMBER R- 266611

ADOPTED ON SEP 16 1986

WHEREAS, the TRANSPORTATION ELEMENT OF THE CENTRE CITY SAN DIEGO COMMUNITY PLAN adopted in 1976 is outdated and no longer adequate to serve current and future development patterns and intensity; and

WHEREAS, the consultant prepared Centre City Transportation Action Program has been completed, including recommendations for improving the transportation system in downtown; and

WHEREAS, in order to prepare a revised TRANSPORTATION ELEMENT OF THE CENTRE CITY SAN DIEGO COMMUNITY PLAN, guidance from the City Council in the form of policy direction is necessary; NOW, THEREFORE,

BE IT RESOLVED, by the Council of The City of San Diego, as follows:

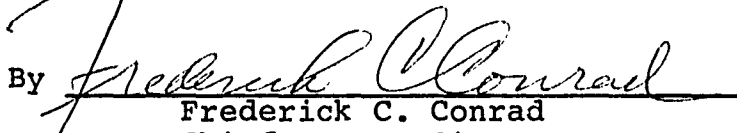

1. That this Council affirms that the Centre City transportation system should support development intensity not restrict it.
2. That this Council recognizes that in order to facilitate access to Centre City, traffic should be accommodated within the existing right-of-way by means of management techniques.
3. That this Council establishes public transit as a high priority in the development of a comprehensive transportation system and acknowledges that support for public transit should be by new or existing discretionary funds.

4. That this Council accepts the premise that capital and operating costs for transportation should be supported by new sources of public and private funding.

5. That this Council initiates the preparation of a comprehensive parking study and program for Centre City in conjunction with the TRANSPORTATION ELEMENT OF THE CENTRE CITY SAN DIEGO COMMUNITY PLAN.

6. That this Council continues to use the Transportation Action Program as a major source document in the preparation of the TRANSPORTATION ELEMENT OF THE CENTRE CITY SAN DIEGO COMMUNITY PLAN.
