

ORDINANCE NUMBER O- 17197 (NEW SERIES)

ADOPTED ON DEC 12 1988

AN ORDINANCE AMENDING CHAPTER IX, ARTICLE 2, DIVISIONS 1, 2, 3, 4, 5 and 6, OF THE SAN DIEGO MUNICIPAL CODE BY AMENDING SECTIONS 92.0100, 92.0101, 92.0102, 92.0103, 92.0104, 92.0105, 92.0106, 92.0107, 92.0202, 92.0203, 92.0204, 92.0206, 92.0207, 92.0301, 92.0401, 92.0501, 92.0502, 92.0506, 92.0507, 92.0508, 92.0509, 92.0606, 92.0607, 92.0626, 92.0627, 92.0628 and 92.0629; BY REPEALING SECTION 92.0503; AND AMENDING CHAPTER IX, ARTICLE 3, DIVISION 3, OF THE SAN DIEGO MUNICIPAL CODE BY AMENDING SECTION 93.0305 RELATING TO THE ELECTRICAL CODE.

BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. That Chapter IX, Article 2, Divisions 1, 2, 3, 4, 5 and 6, of the San Diego Municipal Code be and the same is hereby amended by amending Sections 92.0100, 92.0101, 92.0102, 92.0103, 92.0104, 92.0105, 92.0106, 92.0107, 92.0202, 92.0203, 92.0204, 92.0206, 92.0207, 92.0301, 92.0401, 92.0501, 92.0502, 92.0506, 92.0507, 92.0508, 92.0509, 92.0606, 92.0607, 92.0626, 92.0627, 92.0628 and 92.0629 to read as follows:

**SEC. 92.0101 SCOPE**

The requirements of this Article shall apply to all privately owned electrical installations with the following exceptions:

- A. [No change.]
- B. Installations listed in Article 90-2(b) of the 1987 National Electrical Code (1987 NEC).

C. [No change.]

**SEC. 92.0102 STANDARDS FOR INSTALLATIONS**

The National Electrical Code, 1987 Edition, published by the National Fire Protection Association, one printed copy of which is filed in the office of the City Clerk as Document No. 769513, be, and the same is hereby adopted as part of the Municipal Code of the City of San Diego, and by reference thereto is made a part hereof as though fully set out herein, except as hereinafter adopted as modified.

**SEC. 92.0103 INTERPRETATION**

The language used in this Article and in the 1987 NEC, which is made a part of this Article by reference, is intended to convey the common and accepted meaning familiar to the electrical industry. The Building Official is hereby authorized to determine the intent and meaning of any provision of this Article. Such determination shall be made in writing and a record kept which shall be open to the public.

**SEC. 92.0104 RESPONSIBILITY**

A. and B. [No change.]

**SEC. 92.0105 BOARD OF APPEALS AND ADVISORS**

When a question involving the interpretation of the intent and purpose of any provisions of this Article or the suitability of alternate materials and types of construction is presented to the Building Official, he may request the Board of Appeals and Advisors to

investigate such matters under the procedure established in Section 91.02.0204 of this Code.

**SEC. 92.0106 AUTHORITY OF BUILDING OFFICIAL**

A. The Building Official shall have the right during reasonable hours or at any time extreme danger exists to enter any building in the discharge of his official duties or for the purpose of making an inspection, reinspection, or test of the installation of electrical wiring, devices, appliances, and equipment contained therein. The Building Official shall have the authority to cut or disconnect any wire in cases of emergencies where necessary to safety of life or property or where such wire may interfere with the work of the Fire Department. The Building Official is hereby authorized to disconnect or order discontinuance of electrical service to any electrical wiring, device, appliance, or equipment found to be dangerous to life or property because they are defective or defectively installed. The Building Official shall have the authority to withhold permission to connect electrical service to any building until such building is approved for occupancy.

B. The Building Official may delegate any of his powers or duties to any of his assistants.

**SEC. 92.0107 DUTIES OF BUILDING OFFICIAL**

It shall be the duty of the Building Official to enforce the provisions of this Article. He shall, upon

application, grant permits for the installation or alteration of electrical wiring, devices, appliances, and equipment and shall make inspections of electrical installations, as provided in this Article. He shall keep complete records of all permits issued, inspections, and reinspections made and other official work performed in accordance with the provisions of this Article. He shall also keep on file an Electrical Equipment List issued by or for Underwriter's Laboratories, Inc., which list shall be available for public information during regular office hours.

**SEC. 92.0108 PROHIBITIONS**

A. [No change.]

B. It is unlawful to maintain an electrical system which was not legally installed pursuant to this Article, or which is, notwithstanding compliance with this Article, in an unsafe condition as determined by the Building Official.

C. [No change.]

**SEC. 92.0202 PERMITS - EXCEPTIONS**

A. through C. [No change.]

D. No permit shall be required for installation made by a public service corporation acting as permitted in SEC. 92.0101A.

**SEC. 92.0203 TEMPORARY PERMITS**

If the Building Official finds that the safety of life and property will not be jeopardized, he may issue

permits for temporary electrical installations. All such temporary installations shall be made in a manner as nearly as practicable in conformance with the requirements of this Article for permanent work. The Building Official may permit deviations which will not cause hazard to life and property, provided that whenever such hazards are deemed to exist, he may at once rescind or cancel the permit covering such installations and disconnect or order disconnection of all energy to such equipment. Upon the expiration of the time designated therein, the Building Official may disconnect or order disconnection of all electrical energy authorized by temporary permit. Temporary permits may be issued for the following purposes:

A. through C. [No change.]

**SEC. 92.0204 EXPIRATION OF PERMIT**

Every permit issued by the Building Official under the provisions of this code shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within one hundred eighty (180) days from the date of permit issuance, or if the building or work authorized by such permit is suspended or abandoned for a period of one hundred eighty (180) days at any time after the work is commenced.

Any permittee holding an unexpired permit may apply for an extension of the permit provided the requirements of subsection A or B are satisfied.

A. Where work has not commenced, the permit has not expired and the permittee requests a permit extension, the following provisions shall apply.

1. The Building Official may grant an extension of the permit upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented the permitted work from commencing.

2. The permit extension shall provide an additional time period of one hundred eighty (180) days starting from the permit expiration date.

3. The permittee must request the extension prior to the permit expiration date.

4. The permittee shall revise the plans, specifications, and other data which define the work permitted, as necessary to show compliance with this code and all applicable ordinances, statutes, or regulations in effect at the time the extension is granted.

5. No additional permit fees are required for either extension. Supplemental plan check fees shall be paid when required.

6. No more than two (2) such extensions may be granted for any permit. The requirements listed in 1 through 5 above also apply to the second extension.

B. Where work has commenced, the permit has not expired and the permittee requests a permit extension, the following provisions shall apply.

1. The Building Official may grant an extension of the permit upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented the permitted work from continuing.

2. The permit extension shall provide an additional time period of one hundred eighty (180) days starting from the permit expiration date.

3. The permittee must request the extension prior to the permit expiration date.

4. Only one such extension may be granted.

5. The extension shall not be granted if two (2) extensions were granted pursuant to subsection A.

6. The permittee need not revise the plans, specifications, or other data which define the work permitted to show compliance with any revisions to this code or any other ordinance, statute, or regulation which become effective subsequent to the date of permit issuance.

7. No additional permit fees are required for an extension.

Any permittee holding an expired permit may apply for a new permit provided the requirements of subsection C or D are satisfied.

C. Where work has not commenced and the permit has expired, no extension shall be granted. If the permittee desires to proceed with the project, the following provisions shall apply.

1. The permittee shall obtain a new permit.
2. The permittee shall pay a full permit fee for the new permit and all other applicable fees.
3. The permittee must revise the plans, specifications, and other data which define the work permitted, as necessary to show compliance with all applicable codes, ordinances, statutes, or regulations.

D. Where work has commenced and the permit has expired, no extension shall be granted. If the permittee desires to continue with the project, the following provisions shall apply.

1. The permittee shall obtain a new permit.
2. The permittee must pay a permit fee for the new permit based upon a valuation of the work remaining to complete the project.
3. The permittee must obtain the new permit within five hundred forty (540) days from the date of issuance of the original permit for the project.
4. The permittee need not revise the plans, specifications, or other data which define the work permitted to show compliance with any revisions to this code or any other ordinance, statute, or regulation which became effective subsequent to the date of original permit issuance.

**SEC. 92.0206 SCOPE OF PERMIT**

The permit when issued shall be for such installation as described in the application and no

deviation shall be made from the installation so described without the written approval of the Building Official.

**SEC. 92.0207 APPLICATION FOR PERMIT**

A. Application for a permit, describing the work to be done, shall be made in writing to the Building Official. The application shall be accompanied by such plans, specifications, and schedules as may be necessary to determine whether the installations as described will be in conformity with the requirements of this Article. If it shall be found that the installation as described will conform with the requirements of this Article, and if the applicant has complied with all the provisions of this Article, a permit for such installation shall be issued provided, however, that the issuance of the permit shall not be taken as permission to violate any of the requirements of this Article.

B. through D. [No change.]

**SEC. 92.0301 FEE SCHEDULE**

A. [No change.]

B. A portion of the fees provided for in this section, established by resolution of the City Council and filed in the office of the City Clerk, may be refunded in the event that no portion of any work authorized by permit has been performed and provided that no inspections have been made. Such refund may be authorized by the Building Official upon application by

the permittee within one year from the date of permit issuance. Prior to authorization of any refund under the provisions of this section, the Building Official shall require that the permittee's copy of the issued permit be returned to the Building Inspection Department.

C. [No change.]

**SEC. 92.0401 INSPECTION OF INSTALLATIONS**

A. Approvals Required: No work shall be done on any part of the electrical system beyond the point indicated in each successive inspection without first obtaining the written approval of the Building Official. Such written approval shall be given only after inspection shall have been made of each successive step in the installation.

B. Required Inspections: The Building Official, upon notification from the permit holder, shall make the following inspections, and shall either approve that portion of the electrical system, or notify the permit holder wherein the same fails to comply with this Article. These inspections shall be made prior to covering or concealing any portion of the electrical system, and shall be made within forty-eight (48) hours excluding nonworking days, or as soon as practical.

1. through 4. [No change.]

5. On large installations where the concealment of parts of the wiring proceeds

continuously, the person installing the wiring shall give the Building Official due notice and inspections shall be made periodically during the progress of the work.

C. Disapproved Installations: All defects shall be corrected within ten (10) days after notification, or within other reasonable time as permitted by the Building Official.

D. Service Connections:

1. [No change.]

2. An electrical system, device, or appliance which has been disconnected, or ordered disconnected by the Building Official, shall not be connected to the source of electrical energy until approved.

E. The Building Official shall have the power to remove or require the removal of any obstruction that prevents the proper inspection of any electrical equipment.

**92.0501 ALTERATIONS, ADDITIONS, RELOCATIONS AND  
CONVERSIONS**

A. Alterations and additions. Additions, extensions, alterations or removal of existing wiring installations shall be made in compliance with the provisions of this Article.

1. Where additions, alterations or extensions of a wiring installation are proposed in cases where this Article requires a metallic wiring method, and the

existing installation was lawfully installed according to any other applicable ordinance, code or order and is not unsafe in the opinion of the Building Official, the existing installation need not be replaced.

2. and 3. [No change.]

B. and C. [No change.]

**SEC. 92.0502 MATERIALS**

A. and B. [No change.]

C. Previously used materials shall not be reused in any work without the written approval obtained in advance from the Building Official.

**SEC. 92.0506 LABELING**

A. Meter bases shall be labeled by address to identify the occupancy served.

B. Meter rooms shall be identified with lettering not less than two inches (2") high, or other approved means.

**SEC. 92.0507 BRANCH CIRCUIT OVERCURRENT PROTECTION**

A. [No change.]

B. Whenever there exists evidence of overfusing or fuse tampering, the Building Official shall require the installation of Type "S" fuses or automatic breakers.

**SEC. 92.0508 Transformers**

A. Location:

1. Transformers installed for the operation of doorbells, chimes, annunciators and similar devices, when placed in clothes closets or similar locations, shall be placed immediately over the door on the wall or ceiling. They shall be so located that contact with combustible materials cannot be made.

2. Transformers installed for the operation of doorbells, chimes, annunciators and similar devices, when placed in an attic or beneath a building or structure, shall be located within two feet (2') of the opening leading into the attic or beneath a building or structure.

**SEC. 92.0509 SPECIAL TEST FOR CONDUITS**

When deemed necessary, the Building Official may require a test plug to be drawn through each run of conduit, in the presence of an inspector.

**SEC. 92.0606 OUTSIDE BRANCH CIRCUITS AND FEEDERS**

The following sections of Article 225 (1987 NEC) are adopted as modified as follows: Section 225-19 Clearances From Buildings for Conductors of six hundred (600) Volts or less: over roofs.

All conductors passing over or attaching to roofs shall conform to the clearances required in Article 230-24(a) adopted as modified herein.

**SEC. 92.0607 SERVICES**

The following sections of Article 230 (1987 NEC) are adopted as modified as follows:

Section 230-24(a) Over Roofs

Where conductors are required to pass over buildings or structures, they shall maintain a vertical clearance of eight feet (8').

Exception No. 1: Where the voltage between conductors does not exceed three hundred (300) volts and the roof is constructed of such lightweight material that it is considered to be unwalkable, the vertical clearances may be reduced to twenty-four inches (24").

Exception No. 2: Where the voltage between conductors does not exceed three hundred (300) volts and the conductors do not pass over more than four feet (4') of the overhang portion of the roof and they are terminated at an approved support that is within eighteen inches (18") of the wall facing the pole line, the vertical clearance may be reduced to twelve inches (12").

Section 230-43, items (1) open wiring on insulators and (5) service-entrance cables are deleted.

Sections 230-50, 230-51 and 230-52 relating to protection and mounting of open wiring on insulators and service-entrance conductors are deleted.

Section 230-71 Maximum Number of Disconnects

(a) A single fusible switch or circuit breaker shall be provided to disconnect all ungrounded conductors supplied by each utility company metered circuit.

Exception No. 1: The disconnecting means for an existing utility company metered circuit with no main switch shall not exceed six (6) fused switches or six (6) circuit breakers.

Exception No. 2: The disconnecting means for a new utility company metered circuit shall not exceed six (6) fused switches or six (6) circuit breakers provided that not more than one (1) switch or breaker is rated less than:

a. Two hundred (200) amperes for residential occupancies, or

b. One thousand (1,000) amperes for commercial occupancies.

(b) The total number of disconnects required to disconnect all utility company circuits supplying a single building area shall never exceed six (6).

#### Section 230-72 Grouping of Disconnects

(a) All disconnects relating to a service or services supplying a single building or building area shall be grouped.

(b) All such disconnects shall be permanently marked to indicate the load or area served.

(c) All service disconnects shall be installed in a readily accessible location on the ground floor level of the building either in or on the building.

Exception No. 1: By special permission, disconnects may be located on a level other than the ground floor level.

Exception No. 2: By special permission, disconnects may be located adjacent to the building. Adjacent is defined to be within fifty feet (50') and in sight from the ground level of the building.

(d) Every service disconnect location shall be such that the service entrance conductors are limited to a maximum of twenty-five feet (25') from the point that these conductors enter the building to the first overcurrent device.

**SEC. 92.0626 WIRING METHODS**

The following sections of Article 300 (1987 NEC) are adopted as modified as follows:

Section 300-5(a) Minimum Cover Requirements, Exception No. 4 is deleted.

Table 300-5

Minimum Cover Requirements, 0 to 600 Volts

Wiring Method	Minimum Burial (Inches)
Direct Buried Cables	24
Rigid Metal Conduit	6
Intermediate Metal Conduit	6
Schedule 80 Nonmetallic Conduit	6
Schedule 40 Nonmetallic Conduit	12
Other Approved Raceways*	18

\*Note: Raceways approved for burial only when concrete encased shall require a concrete envelope not less than two inches (2") thick.

**SEC. 92.0627 CONDUCTORS FOR GENERAL WIRING**

The following sections of Article 310 (1987 NEC) are adopted as modified as follows:

Notes to Tables 310-16 through 310-19.

2. Application of Tables. Tables 310-16 through 310-31 provide ampacities for conductors under specified conditions. For conductors installed in other than the specified conditions, the ampacities in Table 310-16 shall be permitted.

3. Limitations on Conductor Ampacity. No conductor shall be installed on the basis of the allowable ampacity of these tables unless it also conforms to the listing of the equipment to be used. Except where specifically marked otherwise, the termination provisions on equipment are based on the allowable ampacities in Table 310-16 for 60°C conductors

in circuits rated one hundred (100) amperes or less and the allowable ampacities for 75°C conductors in circuits rated over one hundred (100) amperes.

**SEC. 92.0628 PERMITTED USES OF WIRING METHODS**

The following sections of the 1987 NEC relating to permitted uses of nonmetallic wiring methods are adopted as modified to require compliance with the general rule for nonmetallic wiring methods located in Municipal Code SEC. 92.0510:

Section 320-3

Section 324-3

Section 336-3

Section 338-3

Section 339-3

**SEC. 92.0629 SWITCHBOARDS AND PANELBOARDS**

The following sections of Article 384 (1987 NEC) are adopted as modified as follows:

Section 384-3(f) Phase Arrangement. The phase arrangement on three phase buses shall be A, B, C, from front to back, top to bottom, or left to right as viewed from the front of the switchboard or panelboard. The C phase shall be that phase having the higher voltage to ground on three-phase (3-phase), four-wire (4-wire) delta connected systems. Other busbar arrangements may be permitted for additions to existing installations.

Section 2. That Chapter IX, Article 2, Division 5, of the San Diego Municipal Code be and the same is hereby amended by repealing Section 92.0503, entitled Power Distribution Panels.

**SEC. 92.0503 POWER DISTRIBUTION PANELS**

Section 3. That Chapter IX, Article 3, Division 3, of the San Diego Municipal Code be and the same is hereby amended by amending Section 93.0305, to read as follows:

**SEC. 93.0305 EXPIRATION OF PERMIT**

Every permit issued by the Building Official under the provisions of this code shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within one hundred eighty (180) days from the date of permit issuance, or if the building or work authorized by such permit is suspended or abandoned for a period of one hundred eighty (180) days at any time after the work is commenced.

Any permittee holding an unexpired permit may apply for an extension of the permit provided the requirements of subsection A or B are satisfied.

A. Where work has not commenced, the permit has not expired and the permittee requests a permit extension, the following provisions shall apply:

1. The Building Official may grant an extension of the permit upon written request by the

permittee showing that circumstances beyond the control of the permittee have prevented the permitted work from commencing.

2. The permit extension shall provide an additional time period of one hundred eighty (180) days starting from the permit expiration date.

3. The permittee must request the extension prior to the permit expiration date.

4. The permittee shall revise the plans, specifications, and other data which define the work permitted, as necessary to show compliance with this code and all applicable ordinances, statutes, or regulations in effect at the time the extension is granted.

5. No additional permit fees are required for either extension. Supplemental plan check fees shall be paid when required.

6. No more than two (2) such extensions may be granted for any permit. The requirements listed in 1 through 5 above also apply to the second extension.

B. Where work has commenced, the permit has not expired and the permittee requests a permit extension, the following provisions shall apply:

1. The Building Official may grant an extension of the permit upon written request by the

permittee showing that circumstances beyond the control of the permittee have prevented the permitted work from continuing.

2. The permit extension shall provide an additional time period of one hundred eighty (180) days starting from the permit expiration date.

3. The permittee must request the extension prior to the permit expiration date.

4. Only one (1) such extension may be granted.

5. The extension shall not be granted if two extensions were granted pursuant to subsection A.

6. The permittee need not revise the plans, specifications, or other data which define the work permitted to show compliance with any revisions to this code or any other ordinance, statute, or regulation which became effective subsequent to the date of permit issuance.

7. No additional permit fees are required for an extension.

Any permittee holding an expired permit may apply for a new permit provided the requirements of subsection C or D are satisfied.

C. Where work has not commenced and the permit has expired, no extension shall be granted. If the permittee desires to proceed with the project, the following provisions shall apply:

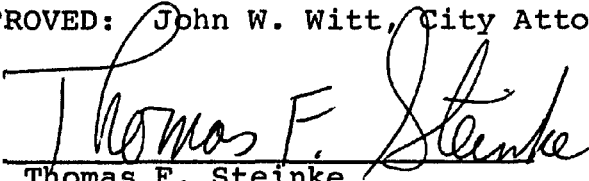

1. The permittee shall obtain a new permit.
2. The permittee shall pay a full permit fee for the new permit and all other applicable fees.
3. The permittee must revise the plans, specifications, and other data which define the work permitted, as necessary to show compliance with all applicable codes, ordinances, statutes, or regulations.

D. Where work has commenced and the permit has expired, no extension shall be granted. If the permittee desires to continue with the project, the following provisions shall apply:

1. The permittee shall obtain a new permit.
2. The permittee must pay a permit fee for the new permit based upon a valuation of the work remaining to complete the project.
3. The permittee must obtain the new permit within five hundred forty (540) days from the date of issuance of the original permit for the project.
4. The permittee need not revise the plans, specifications, or other data which define the work permitted to show compliance with any revisions to this code or any other ordinance, statute, or regulation which became effective subsequent to the date of original permit issuance.

Section 4. This ordinance shall take effect and be in force on the thirtieth day from and after its passage, and no building permits for development inconsistent with the provisions of this ordinance shall be issued unless application therefor was made prior to the effective date of this ordinance.

APPROVED: John W. Witt, City Attorney

I am the principal clerk of the San Diego Daily Transcript, a newspaper of general circulation, printed and published daily, except Saturdays and Sundays, in the City of San Diego, County of San Diego, and which newspaper has been adjudged a newspaper of general circulation by the Superior Court of the County of San Diego, State of California, under the date of January 23, 1909, Decree No. 14894; and the

ORDINANCE NUMBER 0-17197 (NEW SERIES)

is a true and correct copy of which the annexed is a printed copy and was published in said newspaper on the following date(s), to wit:

DEC. 26

I certify under penalty of perjury that the foregoing is true and correct.

Dated at San Diego, California this 26 day of DEC., 19 88.

Thomas D. Kelleher
