

(R-92-1923)

RESOLUTION NUMBER R-279949

ADOPTED ON MAY 12, 1992

WHEREAS, Michel Anderson for Community Services Corporation appealed the decision of the Planning Commission in denying Coastal Development Permit No. 91-0711 submitted by H&M Investment Partnership, Owners, and Community Services Corporation, Permittee, to convert two existing industrial buildings for the use of a private work furlough facility (Sorrento Valley Counseling Complex, located 11339 and 11353 Sorrento Valley Road and described as Lots 13 and 14 of Via Sorrento Valley Industrial Park, Unit No. 3, Map No. 5693, in the Torrey Pines Community Plan area, in the M-1A/FPF zone; and

WHEREAS, the matter was set for public hearing on May 12, 1992, testimony having been heard, evidence having been submitted, and the City Council having fully considered the matter and being fully advised concerning the same; NOW, THEREFORE,

BE IT RESOLVED, by the Council of The City of San Diego, that this Council adopts the following findings with respect to Coastal Development Permit No. 91-0711:

1. The proposed development will not encroach upon any existing physical accessway legally utilized by the public or any proposed public accessway identified in an adopted Local Coastal Program ("LCP") Land Use Plan; nor will it obstruct views to and along the ocean and other scenic coastal areas from public vantage points.

There are no known or mapped physical accessways crossing the site nor do the existing buildings obstruct views from any public vantage points.

2. The proposed development will not adversely affect marine resources, environmentally sensitive areas, or archaeological or paleontological resources.

There will be no building additions with this request, however interior remodeling is proposed. The project site is fully improved. The only exterior modifications proposed will be additional landscape and a recreation area.

3. The proposed development will comply with the requirements related to biologically sensitive lands and significant prehistoric and historic resources as set forth in the Resource Protection Ordinance, Chapter X, Section 101.0462 of the San Diego Municipal Code, unless by the terms of the Resource Protection Ordinance, it is exempted therefrom.

As stated previously, the buildings and site improvements exist, only interior modifications are proposed at this time.

4. The proposed development will not adversely affect recreational or visitor-serving facilities or coastal scenic resources.

The site is improved with two, two-story buildings. No recreational facilities, visitor-serving facilities or coastal resources are currently located on or adjacent to the proposed site.

5. The proposed development will be sited and designed to prevent adverse impacts to environmentally sensitive habitats and

scenic resources located in adjacent parks and recreation areas, and will provide adequate buffer areas to protect such resources.

There are no environmentally sensitive habitats and scenic resources located in or around the site, thus there should not be any adverse affect on these resources.

6. The proposed development will minimize the alterations of natural landforms and will not result in undue risks from geologic and erosional forces and/or flood and fire hazards.

There will be no on-site grading with this permit. The site is fully improved. Some landscaping is proposed, as well as a recreation area for the residents.

7. The proposed development will be visually compatible with the character of surrounding areas, and where feasible, will restore and enhance visual quality in visually degraded areas.

The site is fully improved with two-story buildings which are compatible with surrounding development. The proposed use will be self-contained with residents not allowed to leave the facility or grounds other than to go to or come from work or school.

8. The proposed development will conform with the General Plan, the Local Coastal Program, and any other applicable adopted plans and programs.

The existing development conforms with the General Plan, the Local Coastal Program, and any other applicable adopted plans and programs as well as the Torrey Pines Community Plan. Once Ordinance No. O-17748 adopted March 16, 1992 regarding correctional placement centers and standards for conditional use

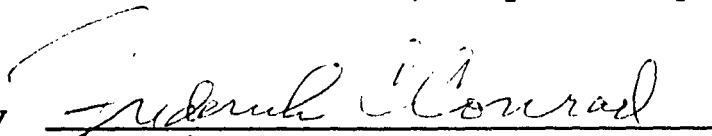

permits is certified by the California Coastal Commission as a local coastal program amendment within the Coastal Overlay Zone, this facility will comply with all aspects of it. Until that ordinance is certified by the Coastal Commission, a condition will be included within the permit precluding obtaining building permits or using the property for a private work furlough facility.

The above findings are supported by the minutes, maps and exhibits, all of which are herein incorporated by reference.

BE IT FURTHER RESOLVED, that the appeal of Michel Anderson for Community Services Corporation is granted; the decision of the Planning Commission is overruled, and Coastal Development Permit No. 91-0711 is hereby granted to H&M Investment Partnership and Community Services Corporation, under the terms and conditions set forth in the permit attached hereto and made a part hereof.
