ATTACHMENT NO. 1
FINDINGS

SUBJECT IMPROVEMENTS:

REQUEST TO BID DEMOLITION OF ON-SITE AND OFF-SITE IMPROVEMENTS AND CONSTRUCTION OF THREE PARKING LOTS - EAST VILLAGE REDEVELOPMENT DISTRICT OF THE CENTRE CITY REDEVELOPMENT PROJECT

I. FINDINGS OF BENEFIT

The subject improvements for which the Redevelopment Agency of the City of San Diego (Agency) proposes to pay will benefit the East Village Redevelopment District or the immediate neighborhood in which the Project area is located in that:

- A. These improvements are within the East Village Redevelopment District of the Centre City Redevelopment Project, adjacent to undeveloped properties.
- B. Improvements are planned at 3 sites: 14th & Island, 13th and Market and 7th and 8th Streets, Market and Island. The improvements will enhance the area for the benefit of nearby users as well as residents.
- C. The installation of public surface improvements will correct adverse health and safety conditions.
- D. The public surface improvements will act as a catalyst providing an incentive for private investment in the rehabilitation of the areas.

II. NO OTHER REASONABLE MEANS OF FINANCING

There are no other reasonable means available to the community for financing the subject improvements for which the Agency proposes to pay in that:

City of San Diego

- A. The Fiscal Year 2000 Budget for the City of San Diego (City) increased 27%. The overall increase is largely attributable to an increase in the General Fund, Enterprise Fund, Special Revenue Fund, and in the Capital Improvement Program (CIP). Even with an increase in the Capital Improvement Program Budget, a number of capital projects remain unfunded due to limited funds. Unfunded capital needs total \$114.6 million.
- B. The City's capital improvement budget is funded primarily with water and sewer fees, developer impact fees, grant funds, enterprise fund revenues, Facility Benefit Assessment funds, and Transnet funds. The Fiscal Year 2000 Capital Improvement Program Budget increased 60% from the Fiscal

Year 1999 Budget. The Fiscal Year 2000 CIP Budget provides for the continued sewer upgrade of the City's metropolitan and municipal wastewater system, and water projects.

- C. After three years of economic growth, the San Diego's regional economy is slowing. Most major tax revenue categories continue to show signs of growth. Moderate growth is anticipated for most Fiscal Year 2000 major revenues. The economic growth rate for major revenue categories are property tax (11.0%), sales tax (6%), Transient Occupancy Tax (8%) and Motor Vehicle License fees (4%).
- D. The City's Fiscal Year 2000 Capital Improvements Budget (CIP) is embodied in Volume's IV and V of the City's Budget. The Agency's Fiscal Year 1999-2000 Program Budget was adopted on June 29, 1999. The CIP and the Agency's Budget were developed in accordance with City and Council Policy, and each project activity was evaluated and incorporated in the respective budgets. Projects are funded based on need and the availability of appropriate funding sources. The City's CIP Budget totals \$729.7 million, a increase of \$274.3 million over Fiscal Year 1999.
- E. Although sustained revenue growth is anticipated in Fiscal Year 2000, the City relied on some onetime revenue sources to provide higher levels of services than would otherwise be possible. Local Property Tax apportionments have been permanently diminished as a result of the Fiscal Year 1993 and 1994 state budget actions. Despite the state's ongoing economic recovery, the magnitude of the Property Tax loss - in excess of \$24 million each fiscal year - has had its impact on City's major General Fund Revenue source.

III. ELIMINATION OF BLIGHTING CONDITIONS

The payment of funds toward the cost of the construction and installation of the subject improvements will assist in the elimination of one or more blighting conditions inside the East Village Redevelopment District area and the proposed improvements are consistent with the Implementation Plan adopted for the Project pursuant to Health and Safety Code 33490, in that:

- A. The improvements will enhance the public right of way and replace inadequate public improvements. The proposed improvements will remove and replace these adverse conditions, upgrading to match the improvements on nearby streets.
- B. The location of streetlight standards will be adjusted and added so as to increase the level of lighting along the public sidewalks and streets.

R- 292184

- C. The improvements will act as a catalyst providing an incentive for private investment, thereby contributing to the removal of economic blight.
- D. The improvements provide improved pedestrian access to public and private properties.
- E. "Completion of off-site improvements in this area is a means to contribute to blight removal by replacing inadequate public improvements" is included in the work program of the Implementation Plan adopted June 21, 1994 pursuant to Health and Safety Code 33490.
