

RESOLUTION NUMBER R- 295841

ADOPTED ON DEC 10 2001

WHEREAS, the Sewer Pump Station 30A Alternative, located near La Jolla Village Drive and the Interstate 5 corridor, involves the installation of a new, gravity-fed sewer main and the demolition and removal of the existing Pump Station 30A. Replacement of the existing sewer pump station is necessary due to the fact that the existing system is aged and deteriorated; there is no backup power source to the facility in the event of power outages or disturbance; and access to the pump station facility for maintenance purposes is inadequate; and

WHEREAS, the new sewer main will be installed using tunneling methods, with conventional trenching used at areas where the shallow depth of the new line precludes tunneling; and

WHEREAS, the property rights necessary for the project include: one tunnel easement of approximately 763,188 cubic feet; seven general utility easements totaling approximately 49,261 square feet; and ten temporary construction areas totaling approximately 40,979 square feet (said necessary property rights are detailed on City Engineer Drawing Nos. 19030-B, 19033-B, 19024-B, 19056-B, 19044-B and 19061-B); and

WHEREAS, successful completion of the project will provide the surrounding community with a safe and reliable sewer infrastructure and will greatly minimize the threat of sewer overflows or spills; NOW THEREFORE;

BE IT RESOLVED, by the Council of the City of San Diego, as follows:

1. That the City Manager, or his designee, is hereby authorized to acquire said property rights for Sewer Pump Station 30A Alternative purposes.

2. That the expenditure of not to exceed \$700,000 from Fund 41506, CIP No. 46-200.0 (Sewer Pump Station 30A Alternative), for the acquisition of said property rights, appraisal, title, escrow, and miscellaneous costs, is authorized and approved.

APPROVED: CASEY GWINN, City Attorney
