3. That it hereby further certifies that the Secondary Study (as with the MEIR/SEIR for the Centre City Redevelopment Project) represents the Council's independent judgement and analysis.

4. That it finds and determines that:

a. No substantial changes are proposed in the Centre City Redevelopment Project, or with respect to the circumstances under which the Project is to be undertaken as a result of the sale and development of the real property pursuant to the Disposition and Development Agreement and the Centre City Development Permit No. 2002-51, which will require major revisions to the MEIR/SEIR for the Project due to the involvement of new significant environmental effects, or a substantial increase in the severity of previously identified significant effects, not covered in the MEIR/SEIR; and

b. No new information of substantial importance to the Project has become

available which was not known or could have not been known with the exercise of reasonable diligence at the time the MEIR/SEIR for the Project was certified as complete, and which shows that the Project will have any significant effects not discussed previously in the MEIR/SEIR, or that any significant effects previously examined will be substantially more severe than shown in the MEIR/SEIR, or that any mitigation measures or alternatives previously found not to be feasible or not previously considered would substantially reduce or lessen any significant effects of the Project on the environment; and

c. The sale and development of the real property pursuant to the Disposition and Development Agreement and the Centre City Development Permit No. 2002-51 will have no significant effect on the environment, except as identified and considered in the MEIR/SEIR for the Project; and

d. No negative declaration, or subsequent environmental impact report, or supplement or addendum to the MEIR/SEIR is necessary or required.
