A RESOLUTION OF THE COUNCIL OF THE CITY OF

AND DEVELOPMENT IMPACT FEE SCHEDULE.

WHEREAS, the Council has reviewed and considered the methodology set forth in the Fiscal Year 2014 College Area Public Facilities Financing Plan and Development Impact Fee Schedule (FY 2014 College Area Financing Plan), on file in the Office of the City Clerk as Document No. RR- 308778 ; NOW, THEREFORE,

BE IT RESOLVED, by the Council of the City of San Diego, as follows:

1. The FY 2014 College Area Financing Plan is approved.
2. That the Chief Financial Officer is authorized to establish and modify individual Capital Improvement Program project budgets to reflect the FY 2014 College Area Financing Plan Financing Plan provided funding is available for such action.
3. Effective sixty days from the date of final passage of this resolution, that all development impact fees due under the FY 2014 College Area Financing Plan, shall be those fees in effect at the time building permits are issued, plus automatic annual increases in accordance with San Diego Municipal Code section 142.0640(b).
4. That the FY 2014 College Area Financing Plan, is incorporated by reference into this Resolution as support and justification for satisfaction of findings required pursuant to the Mitigation Fee Act, as set forth in California Government Code section 66000 et seq., for imposition of development impact fees. Specifically, it is determined and found that this documentation:

- a. Identifies the purpose of the development impact fee, which is to ensure that new development projects pay a share of the funding needed for community serving infrastructure necessary to serve new development;
- b. Identifies the use to which the development impact fee is to be put. The development impact fees will be used to finance transportation, park and recreation, library, and fire-rescue facilities as set forth in the FY 2014 College Area Financing Plan;
- c. Demonstrates how there is a reasonable relationship between the development impact fee use and the type of development project on which the development impact fee is imposed. The development impact fees will be used to provide for a contribution for community serving infrastructure needed to serve both residential and non-residential development.
- d. Demonstrates how there is a reasonable relationship between the need for the public facility and the type of development project on which the development impact fee is imposed.
 - (i) Transportation Projects: Both residential development and non-residential development utilize the community's transportation system. Various street projects, traffic signal interconnect systems, landscaping, and median improvements are necessary to adequately serve the community.
 - (ii) Park and Recreation Projects: Residential development utilizes the community's park and recreation facilities, and improvements are necessary based on the projected population at full community development to maintain existing levels of service, and to achieve General Plan standards.

(iii) Library Projects: Residential development utilizes the community's libraries, and improvements are necessary based on the projected population at full community development to maintain existing levels of service, and to achieve General Plan standards.

(iv) Fire-Rescue Projects: Residential and non-residential development will be served by community fire facilities, and additional facilities are necessary based on the projected population at full community development, General Plan standards, and established emergency response times.
