BE IT RESOLVED, by the Council of the City of San Diego, as follows:

1. The City Council hereby finds and determines that creation of the above described Districts is in the general public interest because: such undergrounding will avoid or eliminate an unusually heavy concentration of overhead facilities; the street or road or right of way is extensively used by the general public and carries a heavy volume of pedestrian or vehicular traffic; the street or road or right of way adjoins or passes through a civic area or public recreation area or an area of unusual scenic interest to the general public; or the street, road, or right of way is considered an arterial street or major collector.

2. The City Council hereby finds and determines that the public health, safety, or general welfare requires the removal of poles, overhead wires, and associated overhead structures and the underground installation of wires and facilities for supplying electric, communication, community antenna television or similar or associated service within the Districts set forth above and that pursuant to Chapter VI, Article One, Division Five of the San Diego Municipal Code, the above Districts are hereby declared to be underground utility districts in the City of San Diego, and any maps and document referred to above are hereby incorporated as a part of this resolution.

3. The Mayor or his designee is hereby authorized to establish schedules (District Schedules) for the underground conversion of all poles, overhead wires, and associated structures in the Districts.

4. The Mayor or his designee is hereby instructed to notify, within fifteen calendar days of the effective date of adoption of the District Schedule, all affected Utility Companies and all Affected Persons as defined in Chapter VI, Article 1, Division 5 of the San Diego Municipal Code, of the provisions of the District Schedule, of the date by which all poles and related overhead structures shall be removed, and of the applicable date by which all work required to convert the facilities shall be accomplished. The Mayor or his designee shall further notify said affected persons as defined in Chapter VI, Article 1, Division 5 of the San Diego Municipal Code that if they desire to continue to receive electric, communication, community antenna television or similar or associated service they shall permit installation of all necessary facility changes on their premises, or provide such changes at their own expense, so as to receive underground service from the supplying utility company's relocated underground lines, subject to applicable rules, regulations and tariffs of the respective utility company on file with the Public Utilities Commission of the State of California (as of the date of adoption of this resolution) and subject to all other applicable requirements of State law and City ordinances.
