B. Following City staff's recommendation, Council adopted Resolution **R316013** (Jan. **28**, 2025) setting a public hearing to determine whether the public health, safety or general welfare requires the removal of poles, overhead wires and associated structures and the underground installation of wires and facilities for supplying electric, communication, community antenna television or similar or associated service within those certain areas of the City of San Diego more particularly described as follows (the Districts):

ACTION ITEMS

Be it resolved by the Council of the City of San Diego as follows:

1. The Council finds and determines that creation of the above described Districts is in the general public interest because: such undergrounding will avoid or eliminate an unusually heavy concentration of overhead facilities; the street or road or right of way is extensively used by the general public and carries a heavy volume of pedestrian or vehicular traffic; the street or road or right of way adjoins or passes through a civic area or public recreation area or an area of unusual scenic interest to the general public; or the street, road, or right of way is considered an arterial street or major collector.

2. The Council finds and determines that the public health, safety or general welfare require the removal of poles, overhead wires and associated overhead structures and the underground installation of wires and facilities for supplying electric, communication, community antenna television or similar or associated service within the areas set forth above pursuant to Underground Ordinance; the above described areas are hereby declared to be

Underground Utility Districts in the City of San Diego; the removal of poles, overhead wires and associated structures is ordered according to the schedule to be established and adopted by the Mayor; and the maps and documents referred to above are hereby incorporated as a part of this resolution.

3. The Mayor is authorized to establish a schedule (District Schedule) for the underground conversion of all poles, overhead wires, and associated structures.

4. The Mayor is authorized to notify, within fifteen calendar days of the effective date of adoption of the District Schedule, all affected Utility Companies and all Affected Persons as defined Undergrounding Ordinance, of the provisions of the District Schedule, of the date by which all poles and related overhead structures shall be removed, and of the applicable date set by the Mayor by which all work required to convert the facilities shall be accomplished. The Mayor shall further notify said Affected Persons as defined in Chapter 6, Article 1, Division 5 of the San Diego Municipal Code that if they desire to continue to receive electric, communication, community antenna television or similar or associated service they shall permit installation of all necessary facility changes on their premises, or provide such changes at their own expense, so as to receive underground service from the supplying Utility Company's relocated underground lines, subject to applicable rules, regulations and tariffs of the respective utility company on file

with the Public Utilities Commission of the State of California (as of the date of adoption of this resolution) and subject to all other applicable requirements of State law and City ordinances.
