What We Need

city data in user-friendly formats.

- Cuts across city departments
- Facilitates crowdsourcing of ideas and voting
- Facilitates submittal of community recommendations
- Crosses digital divide and/or languages

Simple Publication

Simple Formats Simple Publication

- Excel
- GIS Shapefile
- Link on website
- Data repository

Data users

- Planning groups
- Elected official
- Nonprofits
- Other government departments
- Residents

Citizen Questions

- Why is my street torn up & for how long?
- When will you get to the project I care about?
- Is my area getting its fair share?

DATA FORMATS: Well data is available in Microsoft Excel files and shapefile formats. Microsoft Excel can be saved to your computer and brought into other database software applications. Shapefiles are specific to ESRI's ArcGIS software; however, many other mapping programs have the ability to import shapefiles.

NOTE: For information not found in these tables, please contact the district office directly. If you would like to receive notification of future updates, please email jennie.catalano@conservation.ca.gov with "ADD ME" in the subject line. Updates will be sent to the email address being used in the request only.
