

NEW TOOLS FOR A NEW ECONOMY

An informational briefing from
The Governor's Office of Business and Economic Development

NEW CALIFORNIA INCENTIVES:

AB93 proposes to reshape and strengthen the state's economic development tax programs to bolster California's business environment and put Californians back to work. Building upon the framework of existing targeted programs, AB93 would redirect roughly \$750 million annually from the current geographically limited Enterprise Zone program to three new business incentive programs.

**A LOOK AT THE NEW
PROGRAM COMPONENTS...**

SALES TAX EXEMPTION

The existing sales tax credit for businesses located in Enterprise Zones will be expanded to a statewide sales tax exemption on manufacturing equipment or research and development equipment purchases by companies engaged in manufacturing or biotechnology research and development. A business will be allowed to exclude the first \$200 million equipment purchases from the state share of sales tax (4.19%) beginning in July 2014. The sales tax exemption will be available statewide until 1/1/19 and until 7/1/21 for businesses located in Enterprise Zones or high poverty and high unemployment census tracts.

HIRING CREDIT

The hiring credit is for businesses located in census tracts with the 25 percent highest share of both unemployment and poverty in the state. The hiring credit also applies to current enterprise zone boundaries excluding wealthy areas. The hiring credit also reinstates the boundaries for two recently expired Enterprise Zones in Palmdale and Watsonville. The hiring credit will be available for the hiring of long-term unemployed workers, unemployed veterans at discharge, people receiving the Federal earned income tax credit and ex-offenders. The hiring credit will only be allowed to taxpayers who have a net increase in jobs. The hiring credit will be 35 percent of wages between 1.5 and 3.5 times the minimum wage for a period of five years. The hiring credit is available for employees hired between 1/1/14 and 1/1/21.

INVESTMENT INCENTIVE

The California Competes Credit will be created and administered by GO-Biz. Businesses will have the opportunity to compete for available tax credits. Criteria for competition includes the number of jobs to be created or retained, the extent of poverty in business development area, a minimum compensation limitation and a set job retention period. Approval of any proposed incentive will be made by a five member committee composed of a representative from the Treasurer's office, Department of Finance, GO-Biz, the CA Senate and CA Assembly. Approved credits may be recaptured if a business fails to fulfill the terms and conditions of the contract. 25% of these credits will be designated for small businesses.

CURRENT ENTERPRISE ZONE PROGRAM

Taxpayers will be allowed to continue using Enterprise Zone carryover credits for 10 years and will be able to continue to earn hiring credits for employees hired prior to January 1, 2014.
