SUPPORTING INFORMATION:

MWWD is required by EPA to perform annual inspections of the Point Loma Wastewater Treatment Plant Ocean Outfall. Data collected during these inspections must then be analyzed to determine the physical condition of the outfall. The Ocean Outfall extension was designed by Parsons Water and Infrastructure, Inc. (formerly Parsons Engineering-Science, Inc.). Consequently, the company possesses the extensive knowledge and comprehensive understanding of the outfall that is required to perform analysis of the technical data. The company has been providing professional services to the City for nine years. Their current contract will expire on October 29, 2003. It is in the City's best interest to retain Parsons Water and Infrastructure, Inc. as the contractor in order to maintain the high level of technical expertise that has been developed over time and which will be needed for the analysis of future Point Loma Ocean Outfall inspections. Parsons Water and Infrastructure, Inc. certifies the inspections results for submission to the Regional Water Quality Control Board and the State Lands Commission. No other firm has the combination of ocean outfall design capability as well as the specific knowledge of this particular ocean outfall.

NATURAL RESOURCES AND CULTURE COMMITTEE'S RECOMMENDATION:

On 11/19/2003, NR&C voted 4 to 0 to approve. (Councilmembers Zucchet, Lewis, Frye, and Madaffer voted yea. Councilmember Inzunza not present.)

SUPPORTING INFORMATION:

In December 2000, the City approved the Updated Water Reclamation Plan (Beneficial Reuse Study) which provides a strategic approach for constructing key reclaimed water facilities in the North City Future Urbanizing Area (NCFUA). Installation of these facilities will expand the

ADOPTION AGENDA, CONSENT ITEMS (Continued)

RESOLUTIONS: (Continued)

existing system and enable the City to obtain its beneficial reuse goals established as part of the North City Reclaimed Water Plant Environmental Protection Agency (EPA) construction grant.

ADOPTION AGENDA, CONSENT ITEMS (Continued)

RESOLUTIONS: (Continued)

* ITEM-105: (Continued)

SUPPORTING INFORMATION: (Continued)

The Beneficial Reuse Study recommends reclaimed water facilities be constructed concurrent with road construction to decrease costs and reduce impacts to the community.

The Santaluz Reclaimed Water Facilities are key components of the expansion effort. The reclaimed facilities are being constructed in two phases. Phase I was completed under the Black Mountain Reservoir Participation Agreement (RR-294344, dated December 5, 2000) and includes installation of 9,261 lineal feet of reclaimed pipe. Phase II is being constructed under the Santaluz Reclaimed Water Pipelines Participation Agreement (RR-295065, dated June 19, 2001. Phase II construction includes approximately 24,893 lineal feet (4.7 miles) of 10-inch to 30-inch reclaimed water pipelines and three (3) pressure reducing stations. Projected water demands include 1.1 million gallons per day (mgd) for the Santaluz development (i.e. schools, golf course, and parks), 1.0 mgd for the North Villages development, and .76 mgd to Olivenhain.

The First Amendment to the Santaluz Reclaimed Water Pipelines Participation Agreement authorizes additional funds needed to cover the actual cost of construction for Phase II. Increased construction costs are attributed to an increase in the cost of materials at the time of bidding (January 2003), unforeseen hard rock conditions, enhanced cathodic protection, additional soils and environmental work, and the new trench-cut ordinance. Phase II construction will be completed in January 2004.

ENVIRONMENTAL IMPACT:

No environmental impacts are associated with this action. Funding only.

FISCAL IMPACT:

The total cost of the Santaluz Reclaimed Water Facilities is \$5,931,882 of which \$5,177,000 has been previously authorized. The additional funding of \$754,882 includes \$699,531 for First Amendment and \$55,351 in related in-house engineering costs will be transferred from CIP-73-216.0, Black Mountain Reservoir.

- * ITEM-106: Approving an Agreement with the California Coastal Commission and Installation of Angle Parking.

(Pacific Beach Community Area. District-2.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2004-566)

Authorizing the installation of angled parking spaces, pursuant to San Diego Municipal Code Section 86.03, on the following streets: (1) the south side of Garnet Avenue, west of Mission Boulevard, (2) both sides of Bayard Street, from the alley north of Felspar Street to the alley, (3) the north side of Felspar Street, between Dawes Avenue and Cass Avenue;

Authorizing the City Manager to execute the assumption of risk, waiver of liability and indemnity agreement between the City of San Diego and the California Coastal Commission.

CITY MANAGER SUPPORTING INFORMATION:

The existing lifeguard tower and comfort station is located at the western end of Grand Avenue. Currently it doesn't properly serve the needs of the lifeguards and the beach going public. The building was constructed 40 years ago, and houses two primary functions, a lifeguard station that serves as a base operation for approximately two miles of public beach and public restroom facilities located on upper floors.

This project will demolish the existing 2,082 square foot tower, and construct a new three story 4,303 square foot lifeguard tower to be located on the public beach, and a separate 1,122 square foot public comfort station to be located at the foot of Grand Avenue. An open plaza area with, landscape and public art will tie the two buildings together. Access for the disabled will be provided to both buildings.

This project is located within the Pacific Beach Community area. It has been presented to and approved by all of the required Planning Association and community groups, including the California Coastal Commission. This project was presented and approved by City Council on July 22, 2003.

ADOPTION AGENDA, CONSENT ITEMS (Continued)

RESOLUTIONS: (Continued)

* ITEM-106: (Continued)

CITY MANAGER SUPPORTING INFORMATION: (Continued)

As a condition of the Coastal Commission permit, this action will authorize the installation of angle parking on south side of Garnet Avenue; Bayard Street and Felspar Street. Letters notifying affected property owners and occupants of the proposed angle parking on these streets were sent. Currently parallel parking exists on both sides of this section of the street. The installation of angle parking will provide approximately 22 additional parking spaces to make up for the loss of 17 parking spaces at the location where the new comfort station will be built. There is sufficient street width to safely accommodate angle parking. Furthermore, the Pacific Beach Community Planning Committee supports this action.

Council action is also required to approve an agreement with the Coastal Commission. The agreement incorporates the conditions necessary to obtain a Coastal Commission permit for this project, as set forth in the attached agreement.

FISCAL IMPACT:

None with this action.

* ITEM-108: Port Reimbursement Agreement for Police and Fire and Life Safety Services to Unleased Tidelands.

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2004-581)

Authorizing and directing the City Manager to enter into an Agreement with the San Diego Unified Port District.

CITY MANAGER SUPPORTING INFORMATION:

The City currently provides Police and Fire & Life services to San Diego Unified Port District (the "District") properties which do not generate ad valorem taxes, or other local taxes. These properties include, but are not limited to parks and open space, certain port facilities, other developed properties and vacant land. Under this Agreement, the District would reimburse the City for the costs of providing these services during Fiscal Years 2004 through 2006. The City also provides services to the leased tidelands (i.e., developed properties on tidelands, including hotels, retail, and other commercial and industrial activities) which do generate ad valorem taxes and other local taxes, and as such, are not eligible for any reimbursement by the District.

This Agreement is similar in form and content to the Agreement between the City and District adopted on July 8, 2002, which expired as of June 30, 2003, and which was similar in form and content to the Agreement that was originally adopted in Fiscal Year 1995 and amended once in Fiscal Year 1998. The geographic areas covered by this Agreement require a relatively minor level of direct services, therefore no special staffing, or added capacity is required to provide the services required under this Agreement. The Agreement incorporates various formulas for estimating direct service levels to these properties and the appropriate reimbursement level.

FISCAL IMPACT:

Under the agreement, the City would receive approximately \$753,760 annually during fiscal years 2004, 2005 and 2006. The annual base reimbursement amount of \$753,760 is below the \$837,569 amount of the prior agreement, due primarily to a reduction in the amount of unleased tidelands under the jurisdiction of the District following the creation of the San Diego Regional Airport Authority.

The terms and conditions of the proposed agreement are similar to the previous agreement with the exception that the minimum rental payment increases from \$5,000 to \$20,000. The Association has agreed to: pay the City \$20,000 or ½% of game generated revenues, whichever is greater; pay for all Police and Fire Department costs, including traffic controllers; pay for Stadium field lights and sound system; and provide game staffing and expenses. In addition, the Association at no cost to the City, will provide the City with accessible seats to meet the City's obligations under the ADA Lawsuit Settlement Agreement. The Stadium will receive all parking and food concession revenues. Parking fee for the 2003 game will be \$10 per vehicle.

The Qualcomm Stadium Advisory Board at their October 2, 2003 meeting, unanimously recommended approval of the agreement.
