EXECUTIVE SUMMARY:

In September 2004, under the Proposition 50 Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002, CDPH solicited projects for drinking water source protection, water security, reduced demand on Colorado River water, small community water systems, community water systems, disinfection byproduct treatment facilities, and demonstration projects/studies for contaminant treatment/removal. On September 26, 2006, based upon favorable ranking by CDPH, the City's Water Department submitted a full project application for Alvarado Water Treatment Plant (AWTP) Upgrade and Expansion. This project will aid in meeting the State's commitment to reduce the amount of Colorado River Water (CRW) used by upgrading the AWTP to allow a greater amount of State Water Project (SWP) to be treated, thereby reducing the amount of CRW used.

000588

On November 30, 2007 a Letter of Commitment (LOC) for P50-3710020-032 was issued by CDPH for the City's Alvarado Water Treatment Plant Expansion/Upgrade Project. The LOC outlines the terms and conditions the City must meet prior to issuance of a funding agreement, including the authorizations contained within this Resolution.

FISCAL CONSIDERATIONS:

This project will fulfill a critical need in meeting the current and future California and Federal water quality regulations, as well as reducing the demand on the Colorado River. The total project costs for the AWTP Upgrade & Expansion, Phase IV project, CIP No. 73-261.3 is estimated to be \$63,271,363.

Of the total project costs, \$20,000,000 is the initial funding offered by the Proposition 50 grant. If awarded, grant reimbursements would occur over multiple fiscal years. In addition, the Water Department applied for a low interest loan through the State Revolving Fund in the amount of \$12,000,000. The application is under review and pending approval. The remaining project costs will be funded by the Water Operating Fund or Water Department financing proceeds. The Water Department has sufficient capacity to issue additional debt following the rate increases approved by the City Council on February 26, 2007.

PREVIOUS COUNCIL and/or COMMITTEE ACTION:

A request to authorize advertising for bid/award for the AWTP Upgrade and Expansion – Ozone Project was heard at NR&C on July 18, 2007 and forwarded to the City Council without a recommendation. At the October 29, 2007 City Council meeting, the request was passed by City Council with the direction to add architectural enhancements and color to the building and provide Council an annual project update.

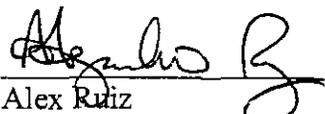

In addition, a similar request to Council to apply for, secure, and expend Proposition 50 grant funding for the Otay Water Treatment Plant Upgrade & Expansion Project (R-303156) and the Miramar Water Treatment Plant Upgrade & Expansion Project (R-303157) was approved at City Council on November 20, 2007.

COMMUNITY PARTICIPATION AND PUBLIC OUTREACH EFFORTS:

Community meetings were conducted to inform members of the public, including the Friends of Lake Murray, Mission Trails Regional Park Citizen's Advisory Committee and Task Force, and local residents of the scope and schedule of the AWTP Upgrade & Expansion project. Other outreach efforts included fact-sheets, newsletters and updates on the City of San Diego website.

KEY STAKEHOLDERS AND PROJECTED IMPACTS:

The key stakeholders are the City of San Diego, Water Department Customers, Mission Trails Regional Park Citizen's Advisory Committee and Task Force, San Diego County Water Authority and the California Department of Public Health.
