**REPORT TO THE CITY COUNCIL
EXECUTIVE SUMMARY SHEET**

property, including necessary conduits for telephone and cable facilities, at no cost to the property owner(s). In order to take advantage of San Diego Gas & Electric's offer to perform this work, property owners are required to sign a Permit to Enter Form (PTE) and ensure their properties meet minimum conformance as outlined in the SDMC. Namely, that their electrical panels: (1) are deadfront operated, (2) have a grounding rod; and (3) have appropriate operating clearances.

Any necessary agreements between the City and utility companies associated with this work are subject to all applicable California Public Utility Commission (CPUC) Equal Opportunity Contracting guidelines and mandates. Any work that does not fall under the CPUC authority shall be subject to the City's Equal Opportunity Contracting (San Diego Ordinance No. 1873, Section 22.2701 through 22.2702) and Non-Discrimination in Contracting Ordinance (San Diego Municipal Code Sections 22.3501 through 22.3517).

FISCAL CONSIDERATIONS:

The construction cost and other indirect costs such as administration, street light replacement, street improvement, minor City forces, and other related work is estimated at \$34,657,544. Funds will be available in Fund 30100, Undergrounding Surcharge Fund, contingent upon receipt of funds from San Diego Gas & Electric.

PREVIOUS COUNCIL COMMITTEE ACTION:

City Council Resolution R-300572, FY2006 Annual Allocation of Undergrounding Projects, and associated Manager's Report 05-149.

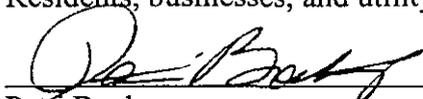

COMMUNITY PARTICIPATION AND PUBLIC OUTREACH EFFORTS:

With notification of the Public Hearing, property owners and residents will be mailed an informational brochure about the City's Undergrounding Program including information as to how to contact and get more information via the Underground Program Information Line and the Underground Program via the internet, where they can access a monthly project status and sign up for email updates from the Underground Program Staff. Prior to the start of construction affected property owner(s) and/or tenant(s) are invited to a two hour community forum regarding the project and the construction process, get project maps and schedules, and speak to utility company representatives about individual questions.

During construction, e-mails will be periodically sent to those signed up, information regarding the status of their project, where the contractor is working and where he will be working next. Residents are provided door hangers with the contractors name and contact number and the City's contact name, number and internet address prior to work occurring on private property. Community Planning groups are added to all customer contact mailings and are notified of pre-construction meetings to discuss community issues directly with the contractor. Customer satisfaction surveys are used throughout the process and at project completion to identify systemic issues and improve customer service.

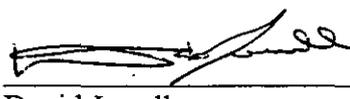

KEY STAKEHOLDERS:

Residents, businesses, and utility companies.
