CITY MANAGER REPORT: The proposed district will underground the overhead utility facilities on 47th Street between Imperial Avenue and Highway 94. This project is scheduled in CIP for Public Hearing in Fiscal Year 1984. It is estimated that construction for the project will begin in Calendar Year 1985. The formation of this district will require the affected property owners to underground the portion of their utility on their parcel prior to removal of the overhead utilities. A typical cost range for a private contractor to perform this conversion work on private property is \$500 - \$1,000. A future resolution will establish the date for removal of overhead utilities as the undergrounding work approaches completion.
