\* ITEM-50: (O-85-29) INTRODUCED, TO BE ADOPTED OCTOBER 1, 1984

Introduction of an Ordinance amending Chapter VI, Article 3  
of the San Diego Municipal Code by adding Section 63.05,  
relating to vehicle access and parking in any public park.

CITY MANAGER REPORT: Municipal Code Sections 63.02.19 and  
63.02.21 address the regulation of vehicles in public parks.  
However, there is a problem of enforcement due to lack of  
specificity in the existing ordinances. The proposed omnibus  
ordinance specifically authorizes the City Manager to regulate  
vehicular access and parking in public parks and beach parking  
lots, subject to any covenants or legally binding conditions  
upon such lands.

COUNCIL ACTION: (Tape location: CD264-272.)  
CONSENT MOTION BY MARTINEZ TO INTRODUCE THE ORDINANCE. Second  
by Gotch. Passed by the following vote: Mitchell-yea,  
Cleator-yea, McColl-yea, Jones-yea, Struiksmá-yea, Gotch-yea,  
Murphy-yea, Martínez-yea, Mayor Hedgecock-yea.

\* ITEM-51: (O-85-37) INTRODUCED, TO BE ADOPTED OCTOBER 1, 1984

Introduction of an Ordinance amending Chapter X, Article 2, Division 3 of the San Diego Municipal Code by amending Section 101.0310 relating to expiration of Tentative Maps.

CITY MANAGER REPORT: The Municipal Code currently allows the life of a Tentative Map to be a period not to exceed three years from the date of approval. Extensions of time can prolong the map life to a maximum of five years from the date of initial approval. This amendment, which implements a recent change to the State Map Act, will add an additional year thereby prolonging the allowable maximum map life to six years. Since it is the City's practice to grant Tentative Maps an initial life of three years, this revision will have the affect of adding a year to the maximum allowable extension of time. The longer period for extensions of Tentative Maps will provide better continuity for planning and processing development proposals and will allow developers more time in which to consummate their proposals. The Planning Department concurs with this proposed amendment.

\* ITEM-103: (R-85-374) ADOPTED AS RESOLUTION R-261555

Inviting bids for the Dana Basin Boat Launching Ramp on Work Order No. 118184; authorizing the execution of a contract with the lowest responsible and reliable bidder; authorizing the total expenditure of \$323,000, not to exceed \$23,000 from Capital Outlay Fund 30245 and \$300,000 from Revenue Sharing Fund 18013, CIP-22-064, Mission Bay Launching Ramps, for said project and related costs; authorizing the Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves. (BID-5879)  
(Mission Bay Community Area. District-6.)

CITY MANAGER REPORT: The State of California, Department of Boating and Waterways has approved a \$320,000 grant for the purpose of replacing two deteriorated boat launching ramps at Dana Basin in Mission Bay Park. A 119-foot-wide ramp will be constructed to a depth of minus 5 feet. The new ramp, unlike the existing ramps, will be useable at low tides. The project is exempt from CEQA and has been granted a waiver by the

California Coastal Commission. A U.S. Army Corps of Engineers permit is required and should be received by September 1984.

The project is being processed subject to permit approval, so that construction may begin by February 1985 and cause the least impact on the public.

\* ITEM-104: (R-85-412) ADOPTED AS RESOLUTION R-261556

Inviting bids for the construction of Central Library Window Area Reconstruction on Work Order No. 118371; authorizing the execution of a contract with the lowest responsible and reliable bidder; authorizing the City Auditor and Comptroller to add CIP-35-065, Central Library Window Area Reconstruction, to the Fiscal Year 1985 Capital Improvements Program; authorizing the City Auditor and Comptroller to transfer \$23,600 from CIP-37-000.1, Annual Allocation-Minor Public Works Improvements and \$4,000 from Department 532, Job Order 002501, Organization No. 010, Program Element 53220 to CIP-35-065, Central Library Window Area; authorizing the expenditure of funds not to exceed \$27,600 from CIP-35-065, Central Library Window Area, for said project and related costs; authorizing the Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves. (BID-5893)  
(Centre City Community Area. District-8.)

CITY MANAGER REPORT: The City Council authorized an agreement with Bradshaw/Bundy and Associates on August 1, 1983, (Resolution R-258992) to study the cause of the failures of the anchoring system that secures heavy terra cotta tiles to the perimeter of each window at the Central Library. Earlier failures caused several heavy tiles to crash onto the sidewalk below. As a result of the architect's report, which contained seven alternative solutions for remedying the problem, Council authorized an amendment to the agreement (Resolution R-260734), which provided for proceeding with detailed reconstruction drawings and specifications. The alternative chosen is based upon the least costly method to remove the remaining heavy tiles and reconstruct the window perimeters and damaged sub-structure underlying the heavy tiles. The work recommended to be done

involves removal of remaining tiles from the sides and tops of the windows, and replacement of the tiles with stucco which will be color matched to the existing tile. The benefits of the work include resolving a potential long-term safety hazard, sealing the building against water intrusion which would eventually cause severe structural damage, and improving the present appearance of the Library which, of necessity, was defaced by removal of all precariously loose tiles.

Resolution of Intention for the improvement of Alley Block 30, Del Mar Heights, under the provisions of the San Diego Municipal Code and the Improvement Act of 1911.

(Del Mar Heights Community Area. District-1.)

CITY MANAGER REPORT: The project was initiated by owners of 66.78 percent of the property frontage involved. In addition to the petition there were two signed waivers representing 6.78 percent of the frontage for a total of 73.56 percent. The petition was accepted by Council on July 21, 1980 per Resolution R-252295. The alley to be improved is located between Pine Needles Drive and Del Mar Heights Road and Cordero Road. The proposed improvements consist of grading, preparation of subgrade, paving and storm drain system.

\* ITEM-111: (R-85-430) ADOPTED AS RESOLUTION R-261564

Authorizing the execution of a deed conveying to San Diego Gas & Electric Company an easement for underground electrical facilities and appurtenances thereto affecting City-owned portion of Lots "E" and "F" of Partition of a portion of Lot 70 of Rancho Mission of San Diego - Margerum Neighborhood Park.  
(Located on Larchwood Avenue near Hillendale Drive. Del Cerro Community Area. District-7.)

CITY MANAGER REPORT: The City is currently developing Margerum Neighborhood Park in the Del Cerro area. To provide underground electrical service to the security lighting and automatic sprinkler system being installed in the park, SDG&E requires an easement grant from the City. The easement will be situated near the park's northerly boundary and will comprise a small strip of land, about 130 square feet in size, in which underground ducting and a pad-mounted transformer will be placed. The cost of the electrical

installation will be paid by the City as part of the construction contract previously approved by Council. The proposed easement, which has been cleared with the Park and Recreation Department, provides for termination should the easement be unused or abandoned for a period of one year. This termination provision is necessary due to the fact that the subject property has been formally dedicated for park use.

Establishing a parking time limit of two hours between the hours of 8:00 a.m. and 6:00 p.m., Saturdays, Sundays and certain holidays excepted, on both sides of Upas Street between Sixth Avenue and Seventh Avenue; authorizing the installation of the necessary signs and markings; declaring that the hereinabove imposed regulations shall become effective upon the installation of such signs.

(Centre City Community Area. District-8.)

CITY MANAGER REPORT: The proposed zones were requested by the owners of 70 percent of the property frontage on the north side and 100 percent of the property frontage on the south side of Upas Street between Sixth Avenue and Seventh Avenue. Recent parking surveys determined the average occupancy to be 92.5 percent of the north side and 86.7 percent on the south side, along with an average stay per vehicle of 5.29 hours on the north side and 4.10 hours on the south side. The results of this parking study meet the Council-approved requirements for average occupancy and average stay for establishing two-hour parking time limit zones.

agreement between the City, the State of California, the County of San Diego, and the San Diego Association of Governments, for the purpose of instituting the San Diego Regional Ridesharing Project, for the period of September 1, 1984 through September 30, 1985.

CITY MANAGER REPORT: The San Diego Regional Ridesharing Project (Commuter Computer) was initiated in 1975 with a cooperative agreement among the City of San Diego, CALTRANS, the County of San Diego and SANDAG. This project was subsequently extended, with Council approval, through several supplemental agreements. CALTRANS has requested that the project now be extended for an additional period. The overall purpose of the Regional Ridesharing Project is to reduce air pollution, fuel consumption, traffic congestion and parking requirements by encouraging and assisting ridesharing. Although a wide range of services are provided to encourage all ridesharing activities, the project's major emphasis is on establishing and maintaining ridesharing programs at major employment sites. More than 600 major employers throughout San Diego County receive on-going assistance from Commuter Computer. As a result of this agreement, the City will continue to support the goals of the Regional Ridesharing Program, which is identified as an element of the Regional Air Quality Strategy.

Authorizing the execution of an agreement with Leighton and Associates, Inc., for professional services in connection with a subsurface geotechnical investigation of Rancho Mission Canyon.

(See City Manager Report CMR-84-318. Navajo Community Area. District-7.)

CITY MANAGER REPORT: On August 20, 1984, Council authorized the City Manager to negotiate an agreement with the firm of Leighton and Associates, Inc., to perform a subsurface geotechnical investigation of the Rancho Mission Canyon and also authorized the expenditure of not to exceed \$90,000 from Open Space Bond Fund No. 79103 for such professional services and related costs. This action

requests that Council execute the proposed agreement. The proposed agreement will provide the professional services required to perform the subsurface geotechnical investigation necessary and preliminary to establishing the appraised value of the Rancho Mission Canyon property which is in a Geologic Hazard Overlay Category previously established by Council. The appraisal of this property for purpose of acquisition as open space was authorized by Council on November 21, 1983. Total fees payable under the proposed agreement are not to exceed \$90,000.

Authorizing the execution of an agreement with Otay International Center for the delivery of fire suppression responses to the Otay International Center. (Otay Mesa Community Area. District-8.)

CITY MANAGER REPORT: The Otay International Center (OIC) is proposing to develop a 400-acre industrial/commercial complex near the second border crossing on Otay Mesa. As a condition of their subdivision map being processed through the County of San Diego, OIC is required to get fire protection assurances from the City of San Diego. Presently, primary fire protection services are provided by the County pursuant to an agreement between the County and the California Division of Forestry. Additionally, the City's Fire Department can respond to structural fires in this area through an existing automatic aid agreement with CDF. Pursuant to their subdivision map requirements, OIC proposes to supplement this level of fire protection by directly entering into an agreement with the City for the City to provide first response to any fire within OIC. In consideration for this service OIC proposes to pay the City annually, .0008797 (8.797 percent of 1 percent) of the market value of the property. The agreement would terminate upon the City annexation of OIC or until alternative means of fire protection has been approved by the County.

\* ITEM-119: (R-85-433) ADOPTED AS RESOLUTION R-261571

Authorizing the execution of a third amendment to the City's contractual agreement with Socioenvironmental Consultants, to extend the Downtown Transient Center Pilot Project for three months, from October 1, 1984 to December 31, 1984; authorizing the Auditor and Comptroller to transfer CDBG funds in the amount not to exceed \$22,655 from Fund 18502 (Program Income) to Fund 18519, Department 5717, Organization 1702 (Socioenvironmental Consultants); authorizing the expenditure in the amount not to exceed \$22,655 from Fund 18519, Department 5717, Organization 1702, (Socioenvironmental Consultants) for the above purpose. (Centre City Community Area. District-8.)

CITY MANAGER REPORT: On July 3, 1984 the City Council authorized the City Manager to extend the City's contractual agreement with Socioenvironmental Consultants to operate the Downtown Transient Center Pilot Project for three additional months, from July 1, 1984 to September 30, 1984. The purpose of the extension was to allow the Mayor's Special Task Force on the Downtown Homeless, the Downtown Social Problems Task Force, City staff, and other interested groups sufficient time to review the consultant's final report, coordinate their efforts, and arrive at consensus recommendations in regard to long-term solutions to the downtown transient/homeless problem. The Mayor's Special Task Force, the lead group in addressing the problem, is currently formulating their final report and recommendations to the City Council; however, the report will not be ready for submission prior to the expiration of the consultant's contract on September 30. Due to the interrelationships between the Downtown Transient Center Pilot Project and other agencies and efforts that are addressing the downtown transient problem, it is anticipated that the Mayor's Task Force may recommend that one or more components of the pilot project be continued until a more comprehensive and permanent solution has been adopted by the City Council. If this were to be the case, a break in the transient center's linkages with other agencies at this time would be inadvisable. The City Manager is therefore recommending that the Downtown Transient Center Pilot Project be continued for three

additional months, from October 1, 1984 to December 31, 1984, pending a recommendation from the Mayor's Special Task Force on its future status.

CITY MANAGER REPORT: By the adoption of Resolution R-261440 on August 21, 1984, the Council authorized and empowered the City Manager to execute an agreement with the consulting firms of Wallace, Roberts and Todd, and Mooney Lettieri and Associates for review of the City's Residential Growth Management Strategy. In a letter dated August 27, 1984, the prime contractors, Wallace, Roberts and Todd, requested six clarifications and/or minor revisions to the agreement. These clarifications and changes would in no way appear likely to adversely affect the quality of the anticipated work product; nor would they cause the approved maximum contract sum of \$50,000 to be exceeded. (BID-5284)  
(Mission Bay Park - East Shore Community Area. District-6.)

CITY MANAGER REPORT: On September 26, 1983, Council authorized staff to advertise for bids and execute a contract for the construction of the East Mission Bay Storm Drain Interceptor System, Phase I. On January 23, 1984, the contract was awarded to El Cajon Grading and Engineering Company. After award of the contract, it was decided that more efficient flap gates were needed on the six storm drains to prevent sea water at high tide from leaking into the interceptor system and thence into the sanitary sewer. The originally specified cast iron gates will be replaced by cast bronze gates with neoprene seals which will effect a completely water tight seal. Since this design change will deplete most of the contingency fund for this project, funds should be allocated to reestablish the fund to provide for possible increased costs encountered during construction.

Authorizing the execution of an agreement with Baldwin Building Company for the maintenance of a retention basin.

Subitem-E: (R-85-450) ADOPTED AS RESOLUTION R-261579

Approving the acceptance by the City Manager of that street easement deed of Village Properties, granting to City an easement for public street purposes in a portion of Parcel 23 of Parcel Map PM-12871; dedicating said land as and for a public street, and naming the same Carmel Valley Road.

CITY MANAGER REPORT: In addition to the routine items associated with the approval of the map is the acceptance of a street easement deed and entering into an agreement for the maintenance of retention basins. Development of Carmel Valley Neighborhood 5 Unit No. 4 requires the construction of a retention basin to control erosion. The basin will capture the eroded material during the construction phase and will thereafter serve to regulate the rate of runoff from the development as necessary to control erosion offsite. The agreement with Baldwin Builders requires that the developer provide for the maintenance of the retention basin until such time as an alternative arrangement, acceptable to the City, can be implemented such as maintenance by an assessment district or through a homeowners association. The developer has posted a specific performance bond in the amount of \$15,000 to secure performance by the developer for maintenance in the interim period. The street dedication is a condition of map approval. The portion of Carmel Valley Road will be improved by the developer as part of the subdivision work.

CITY MANAGER REPORT: Since July, 1981, the City has contracted with an outside agency for the collection of delinquent parking citations issued to vehicles registered out-of-state. The current contract expires on August 1, 1984. On May 31, 1984, a notice was published in the Daily Transcript inviting bids from qualified collection agencies. Seven bid packages were mailed to interested companies. Three bids were submitted for consideration. The low bid of a 32 percent commission was submitted by Vertical Management Systems. Acceptance of this bid is recommended. Vertical Management Systems specializes in the collection of parking

fees from in-state and out-of-state drivers. They have a computerized systems for locating violators through the violators' state Department of Motor Vehicles. Because of their experience, established contacts, and proposed operational plan, Vertical Management Systems was selected as the successful bidder by the screening committee.

Authorizing the execution of a deed conveying to San Diego Gas & Electric Company an easement for overhead and underground electrical facilities and appurtenances affecting a portion of City-owned Tract 38, Township 17 South, Range 4 West, S.B.B.M. - Point Loma Sewage Treatment Plant.

(Point Loma Community Area. District-2.)

CITY MANAGER REPORT: The City is improving the Point Loma Sewage Treatment Plant by constructing several generators that will burn methane gas from the Plant's digesters to produce electricity. The electricity will be for on-site use with the surplus sold to SDG&E or the Navy under a co-generation arrangement. Utilization of the electricity generated at the plant requires the on-site reconstruction of an electric substation and a system of electric distribution lines, mostly underground. A gas main, which furnishes natural gas from SDG&E to the plant's generators when the methane is insufficient, has also been installed under an easement approved earlier by Council.

SDG&E is now requesting an easement for the new system of overhead and underground electrical lines and appurtenance structures, such as manholes, handholes, and anchors. The electrical installations covered by this easement are at City expense previously authorized by Council as part of the construction contract. The proposed easement, which contains about 13,363 square feet, has been cleared with the Water Utilities Department.
