* ITEM-100: (R-85-687) ADOPTED AS RESOLUTION R-261890

Awarding a contract to ABC Construction, Inc., for
Friars Road Bikeway Modifications, at 52 percent over
the construction cost estimate of \$16,500; authorizing
the expenditure of funds not to exceed \$8,400 from Fund
39005, CIP-58-022, Friars Road Bikeway, to supplement
funds previously authorized by Resolutions R-261461 and
R-261462 adopted on September 10, 1984. (BID-5874)
(Linda Vista Community Area. District 6.)

CITY MANAGER REPORT: This project will provide 5-foot
bicycle lanes on both sides of Friars Road from Napa Street
to Ulric Street. The work involved includes the
repositioning of existing traffic striping, island
modifications, and removal of the existing bicycle berm on
the north side. At the present time, west bound bicyclists
are forced to cross to the south side of Friars Road at
Fashion Valley Road to utilize the existing two-way bicycle
path. This project will provide a more accessible bicycle
facility for a roadway which carries over 50 bicycles per
hour on a daily basis. Bids were opened October 3, 1984, and
the single bid received was 52 percent above the estimate of
\$16,500 (11 Bid Packages were issued). Bids were over the
estimate because of the high volume of traffic in the work
site. In addition, this project involves removal of an
existing bicycle berm and restoring the underlying AC
pavement. The difficulty of both operations are
unpredictable. Approval to award is requested as
re-advertising will probably not result in a lower bid.

* ITEM-103: (R-85-686) ADOPTED AS RESOLUTION R-261896

Inviting bids for the construction of Market Street Storm
Drain - Phase II on Work Order No. 118050; authorizing the
execution of a contract with the lowest responsible and
reliable bidder; authorizing the City Manager
to execute Pipeline License No. 11000277-25
with the Atchison, Topeka, and Santa Fe Railway Company for
the construction of Market Street Storm Drain - Phase II
and the railroad crossing; authorizing the expenditure of
funds not to exceed \$250 from CIP-11-206, Market Street
Outfall, solely and exclusively for license fees payable to
the Atchison, Topeka, and Santa Fe Railway Company;
authorizing the expenditure of funds not to exceed \$20,000
from CIP-11-206, Market Street Outfall, solely and
exclusively for reimbursement of actual cost to the
Atchison, Topeka, and Santa Fe Railway for the railroad's
work involvement in this project; authorizing the total
expenditure of not to exceed \$1,264,500 from CIP-11-206,
Market Street Outfall, solely and exclusively for providing
funds for said project and related costs; authorizing the
Auditor and Comptroller, upon advice from the administering
department, to transfer excess budgeted funds, if any, to
the appropriate reserves. (BID-5999)

(Centre City Community Area. District-8.)

CITY MANAGER REPORT: The Market Street Storm Drain Phase II
project is an extension of Phase I which ended at India Street.
Phase II will continue from India Street to Fourth Avenue. It
will provide an adequate drainage system for much of the Centre
City area. Since a portion of the work consists of installing a
culvert under the railroad tracks between India and State
Streets, it is necessary to obtain a permit and execute a
"Pipeline License" agreement with the Atchison, Topeka and Santa
Fe Railway. The agreement stipulates that railroad forces do

the actual removal and replacement of their tracks. To cover this cost, \$20,000 has been designated for this purpose, which includes a \$250 permit fee.

* ITEM-104:

Two actions relative to modification of Upper Otay Dam:
(Otay Mesa Community Area. District-8.)

Subitem-A: (R-85-680) ADOPTED AS RESOLUTION R-261897

Inviting bids for the Upper Otay Dam Modification on Work Order No. 148131; authorizing the execution of a contract with the lowest responsible and reliable bidder; authorizing the City Auditor and Comptroller to transfer \$118,950 from Water Revenue Fund 41502, Unallocated Reserve (70679) to the Water Operating Fund 41500, Dams and Reservoirs Program (70322); authorizing the expenditure of funds not to exceed \$118,950 from Water Operating Fund 41500, Dams and Reservoirs Program (70322), for said project and related costs; authorizing the Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves. (BID-5995)

Subitem-B: (R-85-681) ADOPTED AS RESOLUTION R-261898

Certifying that the information contained in Environmental Negative Declaration END-84-0569 has been completed in compliance with the California Environmental Quality Act of 1970 and the State guidelines pursuant thereto, and that said Declaration has been reviewed and considered by this Council.

CITY MANAGER REPORT: Upper Otay Dam is a single arch concrete gravity dam located on Proctor Valley Creek, about 20 miles southeast of San Diego. It was built by the Southern California Mountain Water Company between 1898 and 1901, and acquired by the City in 1913. The reservoir has a storage capacity of 3,609.0 acre feet, which is approximately 0.8 percent of the total available storage within the system. Its principal function has been providing habitat for wildlife, primarily breeding of fish. This proposed modification will not

significantly alter its use. Any spill from this dam will be captured in Lower Otay Reservoir, located just downstream of the Upper Otay Dam. Studies and inspections conducted by State Department of Water Resources, Division of Safety of Dams (DSOD), indicate that the dam is structurally inadequate to resist earthquake and hydrostatic forces to which it can be subjected. They have requested the City to modify the dam. This proposed project consists of: 1) Cutting a trapezoidal notch in the middle of the dam, according to the plans and specification, to reduce the spillway elevation; 2) Repairing of the existing cracks by epoxy injection method to increase the stability of the structure. The project's plans and specifications have been reviewed and approved by the DSOD. WU-P-84-177.

Authorizing the execution of an agreement with the Boy's Club of South Bay, Inc., a non-profit corporation, to provide for Phases I and II of the room additions to the Boys' Club building; authorizing the expenditure in the amount not to exceed \$75,000 from CDBG Fund 18519, Dept. 5713, Org. 1314, and \$255,708 from CDBG Fund 18520, Dept. 5813, Org. 1313, solely and exclusively for the purpose of providing funds for the construction of the above project; authorizing the expenditure in the amount not to exceed \$15,000 from the Revenue Sharing Fund 18013, Dept. 7495, Org. 110, solely and exclusively for the purpose of providing funds to administer the agreement and monitor the construction contract.

(San Ysidro Community Area. District-8.)

CITY MANAGER REPORT: The Boys' Club of South Bay, Inc., better known as San Ysidro Boys' Club, has been serving the surrounding San Ysidro/Otay Mesa Community since 1972. Over the past twelve years, the area has experienced rapid population growth, but very few facilities have been added to accommodate this growth. This proposed project will assist in providing additional facilities for the needed services. The project will combine the total grants for 1983 and 1984, which were made for the express purpose of phased construction of additional restrooms, a fully-equipped kitchen and multipurpose community room addition to the building, in accordance with current Fire and Building Codes and handicap requirements. Under the terms of the agreement, the Agency will provide the services of a licensed architect to plan, prepare plans and specifications, take bids and administer the construction contract for all work required by the agreement.

* ITEM-124: (R-85-786) ADOPTED AS RESOLUTION R-261926

Authorizing the execution of an agreement with James R. (North City West Community Area. District-1.)

CITY MANAGER REPORT: Reconstruction of the Del Mar Heights Road Bridge over I-5 is a cooperative project between the City of San Diego and the State of California Department of Transportation (CalTrans). The City requires a wider bridge to mitigate the impact of increased traffic volumes generated by the development of North City West. CalTrans desires to construct additional freeway lanes on I-5 to accommodate projected traffic demands. These future CalTrans improvements on I-5 require a new bridge at Del Mar Heights Road of greater length than the existing structure. Facilities Benefit Assessment (FBA) funds are available to finance the City's portion of the project. This agreement with James R. Libby and Associates provides for the preparation of construction documents for the project. CalTrans is responsible for preparing and processing the project environmental documents. The consultant was chosen in accordance with Council Policy 300-7.

Authorizing the execution of an agreement with Linda Vista Health Care Center, Inc., a non-profit corporation, to

provide equipment and renovation work for the existing facility; authorizing the expenditure in the amount not to exceed \$139,931 from CDBG Fund 18520, Department 5812, Organization 1204, solely and exclusively for the purpose of providing funds for the above project; authorizing the expenditure in the amount not to exceed \$6,000 from Fund 100, Department 540, Organization 207, solely and exclusively for the purpose of providing funds to administer the agency agreement and monitor construction of the above project.

(Linda Vista Community Area. District-5.)

CITY MANAGER REPORT: The Linda Vista Health Care Center, Inc., has been providing primary health care services to the low income population in the Linda Vista area since 1972. It has been licensed as a Community Clinic since that time and has been in compliance with all applicable laws and regulations. In the past few years there has been a substantial influx of Indo-Chinese people in poor health and in need of primary health care services. With this added load on the Health Care Center, there is a definite need for renovation, expansion and improvement of the existing facility. The plans for improvement include expansion from four inadequate exam rooms to six modern, up-to-date exam rooms with new equipment, expanded and renovated pharmacy and laboratory, refurbished patient and staff restrooms, modernized patient and staff lunch rooms, fire exits and handicap ramps. Under the terms of the agreement, the agency will provide the services of a licensed architect to plan, prepare plans and specifications, take bids, and administer the construction contract.

(Southeast San Diego Community Area. District-3.)

CITY MANAGER REPORT: The agreement with William E. Peach and Associates, approved by Council in November of 1983, provides for professional services for the improvement of Encanto Community Park - Additional Improvements, CIP-29-442. This project is one of several approved by Council and funded in part by CDBG Jobs Bill funds. Subsequent to the Council's approval, additional 1983 CDBG Funds approved by Council are now available to allow a complete single development rather than phased construction projects. This proposed first amendment provides the additional funds to allow our consultant to provide the entire design and professional services throughout the construction period. The project, as now defined, includes the construction of new multi-use fields on the north side of Broadway, the turfing and new automatic irrigation system for the one existing dirt ballfield on the south side of Broadway, and the addition of a comfort station on the proposed new multi-use field.

* ITEM-127: (R-85-769) ADOPTED AS RESOLUTION R-261929

Authorizing the execution of an agreement with San Diego Youth and Community Services, Inc. to conduct and manage the victim/witness assistance program under the direction of the Chief of Police or his representative; authorizing the expenditure in the amount not to exceed \$19,000 from the Human Care Services Fund 19626 for victim assistance services for the purpose of providing funds for the above program.

CITY MANAGER REPORT: The purpose of this proposed victim/witness assistance program is to: (a) educate older persons in the areas of crime prevention to lessen the likelihood that they may become crime victims; (b) initiate prompt contact with those who become victims and provide to them timely counseling and referral services. In October 1979, the City Council approved a one-time-only allocation of \$25,000 in Community Development Funds for a two-phase program of crime prevention and victim assistance for the elderly, later to become known as ADAM 65. This program continued without interruption until June 30, 1982, using contributed funds after the original City funding was exhausted. With the onset of the

recession, this funding fell off sharply and ADAM 65 was forced to shut down on June 30, 1982. Since that date, San Diego's steadily growing population of older residents has not had a program to meet their particular needs for crime prevention information, specialized assistance when they become crime victims, or counseling and referral services. Prompt contact, counseling and referral to appropriate agencies limits the trauma and helps elderly victims to recover. The need for these services has been demonstrated. It is recommended that the ADAM 65 program be re-established by contracting with San Diego Youth and Community Services, Inc., for the service.

* ITEM-128: (R-85-740) ADOPTED AS RESOLUTION R-261930

Approving Change Order No. 1, issued in connection with the contract between the City of San Diego and Fritz A.

Nachant, Inc., for the construction of Canyonside Community Park; approving the changes amounting to a net increase in the contract price of \$63,935, and an extension of time of 13 working days.

(Penasquitos East Community Area. District-1.)

CITY MANAGER REPORT: City Council authorized the City Manager to award a construction contract for Canyonside Community Park on May 29, 1984 by Resolution R-260779.

Construction by Fritz A. Nachant, Inc., began on August 13, 1984. Change Order No. 1 will remove four inches of on-site soil from the 9.3 acres of turf area and replace it with imported topsoil. 5,000 cubic yards of topsoil are required.

The soil removed from the turf areas will be used elsewhere on site. This change order will also increase the thickness of the concrete pads behind six backstops from 3 1/2 inches to 5 inches and will add steel reinforcement. It will remove the existing soil under the comfort station to a depth of five feet and replace it with non-expansive soil. The change order will add thirteen working days to the contract.

The original park design did not consider the extremely expansive nature of the on-site soil. Upon advice from a soils engineer, grades at the westerly end of the park have been raised to insure drainage away from the area around the park's comfort station. This change has created a need to import soil

in order to complete the park grading. Topsoil for the turf areas is being imported to solve the soil imbalance problem and to minimize the problems related to growing and maintaining the turf sportsfield on expansive soil. The thicker, reinforced concrete pads will resist stresses imposed by the expansive soil better than the unreinforced pads will. The replacement of the soil under the comfort station will minimize the chances of the building being damaged by soil movement. The thirteen day time extension provides the additional time required to perform the work.

Approving Change Order No. 3, dated August 29, 1984, issued in connection with the contract between the City of San Diego and Metro-Young Construction Co./Lopez Construction Co., a joint venture, for the construction of Jackson Drive; approving changes amounting to a net increase in the contract price of \$34,490.05, and an extension of time of 4 working days.

(Navajo Community Area. District-7.)

CITY MANAGER REPORT: On May 16, 1984, a contract was awarded to Metro-Young Construction/Lopez Sewer Contractors, a joint venture, for construction of Jackson Drive, a four-lane road, from Winding Creek Drive to Park Ridge Boulevard. The project is now approximately 30 percent complete. Prior to constructing the roadway, a buttress fill is required in order to stabilize two ancient landslides and prevent future failures of the road and utilities in the roadway. Construction of the buttress requires excavation of a cut slope up to 80 feet in height. The cut slope is in close proximity to a large water main and telephone conduits in the roadway. The City's engineering geologist has recommended a stockpile be maintained near the cut slope to be used as an emergency fill in case of a failure of the slope. This change order is to pay for the extra work necessary to stockpile 10,000 cubic yards of earthen material. The stockpile will be used as fill during later portions of the buttress work.

City and Holodnak v. City ("FBA Litigation") through the Fourth District Court of Appeal; authorizing the payment of \$12,993.82 to Freilich, Leitner and Carlisle and \$4,378.30, to Hahn and Kazier to cover actual legal fees and costs incurred in the FBA Litigation through the California Supreme Court; authorizing the payment of \$5,784.55 to Freilich, Leitner and Carlisle to cover actual legal fees and costs incurred in the preparation of an amicus brief on behalf of the City of San Diego in the Building Industry v. the City of Oxnard case; declaring that the fees and costs authorized shall be shared equally and paid from the North University City FBA Fund (779001-4141) and North City West FBA Fund (79002-4141).

CITY ATTORNEY REPORT: On August 23, 1984, the California Supreme Court denied hearing in the two cases challenging the City's Facilities Benefit Assessment District Ordinance and the implementation of the FBA Program. The payment of legal fees incurred by the City to defend this litigation is being requested from the FBA funds currently held in trust. The FBA ordinance recognizes legal fees as a valid expenditure. The amounts requested are unbudgeted and are to be shared equally between the North University City and North City West FBA District.

* ITEM-S400:

Four actions relative to the improvement of Pomerado Road from Avenida Magnifica to Semillon Boulevard: (BID-6013) (Scripps Ranch Community Area. District-5.)

Subitem-A: (R-85-824) ADOPTED AS RESOLUTION R-261935

Certifying that the information contained in Environmental Negative Declaration END-84-0585 has been completed in compliance with the California Environmental Quality Act of 1970 and State guidelines, and that said declaration has been reviewed and considered by the Council.

Subitem-B: (R-85-823) ADOPTED AS RESOLUTION R-261936

Inviting bids for the improvement of Pomerado Road from Avenida Magnifica to Semillon Boulevard on Work Order No. 118467; authorizing the execution of a contract with the lowest responsible and reliable bidder; authorizing the City Auditor and Comptroller to transfer \$3,757 from the Pomerado Road Trust Fund 60203 to CIP-52-103.2, Pomerado Road- Phase II; authorizing the City Auditor and Comptroller to transfer within Capital Outlay Fund 30245 \$90,000 from CIP-52-103.1, Pomerado Road - Phase I to CIP-52-103.2, Pomerado Road - Phase II; authorizing the City Auditor and Comptroller to transfer within Capital Outlay Fund 30245 \$150,000 from CIP-61-001.0, Annual Allocation - Signal Installations to Accommodate Sudden Traffic Changes to CIP-52-103.2, Pomerado Road - Phase II; authorizing the expenditure of not to exceed \$1,027,385 from Capital Outlay Fund 30245, CIP-52-103.2, Pomerado Road - Phase II (\$3,757 from Pomerado Road Trust Fund 60203; \$90,000 from Capital Outlay Fund 30245, CIP-52-103.1, Pomerado Road - Phase I; \$150,000 from Capital Outlay Fund 30245, CIP-61-001.0, Annual Allocation - Signal Installations to Accommodate Sudden Traffic Changes) for providing funds for said project and related costs; authorizing the Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves.

Subitem-C: (R-85-825) ADOPTED AS RESOLUTION R-261937

Declaring that Pomerado Road between Avenida Magnifica and

a point east of Semillon Boulevard shall be closed to all traffic for the duration specified in the above-cited contract for improvements to Pomerado Road, pursuant to California Vehicle Code Section 21101(e); authorizing the City Manager to close to all traffic, except emergency vehicles as necessary, that portion of Pomerado Road between Avenida Magnifica and the easterly City limits, to a point approximately 1500 feet east of Semillon Boulevard, for the duration of the above-cited contract for improvements to Pomerado Road; authorizing the City Manager to post or cause to be posted appropriate signs for giving notice of the temporary road closure of Pomerado Road; authorizing the City Manager to continue the Pomerado Road construction area temporary truck route established by Resolution R-261529 during the construction of Pomerado Road (CIP-52-103.2, Phase B).

Subitem-D: (R-85-826) ADOPTED AS RESOLUTION R-261938

Prohibiting the use, at all times, of Avenida Magnifica between Semillon Boulevard and Pomerado Road to commercial vehicles at the rated capacity of one ton or more, pursuant to authority conferred by and in accordance with the provisions of Section 85.04 of the San Diego Municipal Code; authorizing the installation of the necessary signs and markings on said street; declaring that the regulations herein above imposed shall become effective upon the installation of such signs.

CITY MANAGER REPORT: This project will widen and realign Pomerado Road from 800 feet east of Avenida Magnifica to 900 feet east of Semillon Boulevard which is an easterly continuation of the improvements presently under construction between Scripps Ranch Boulevard and Avenida Magnifica, CIP-52-103.2, Phase A. The improvements will upgrade the existing substandard two-lane roadway and construct traffic signals at Fairbrook Road and Semillon Boulevard. Roadway shoulders for bicycles and emergency parking will be constructed, inadequate drainage facilities will be reconstructed to present standards, and the existing intersections of Pomerado Road at Fairbrook Road and Semillon Boulevard will be widened to provide for channelization. All manufactured slopes will be restored with drought-resistant plants supplemented on a one-for-one basis with one gallon Eucalyptus and Acacias as mitigation for the trees removed as a result of the roadway construction.

Construction of the project incorporates and obliterates all of the existing roadway. It is not possible to maintain traffic

through the construction area during portions of this contract without additional landscape removal, grading and additional right-of-way, which would significantly add to the contract time and cost. Therefore, Pomerado Road will be intermittently closed to traffic between Avenida Magnifica and Semillon Boulevard. The temporary closure at the easterly City limits and the truck detour route established for Phase A will be continued for this contract (Phase B). The project design and detours have been reviewed with the Scripps Ranch Planning Group and Scripps Ranch Civic Association at several public meetings with their basic concerns incorporated.
