ITEM-50: (O-88-43) INTRODUCED, TO BE ADOPTED ADOPTED SEPTEMBER
28, 1987

Introduction of an Ordinance setting aside and dedicating
the Marston House, for public park purposes and
incorporating the same into Balboa Park.
(Uptown Community Area. District-8.)

CITY MANAGER REPORT: In October 1974, Mary G. Marston
donated the 4.6-acre historic George W. Marston estate,
including house and grounds, to the City of San Diego for public
park purposes. Miss Marston retained a life estate in the
property until her death on July 23, 1987. A condition of the
agreement between Miss Marston and the City states: "City
agrees that the conveyance of said property is conditioned upon
the formal dedication of said property in perpetuity for public
park purposes by ordinance of the City Council within six months

of the death of Mary Marston, and in the event that the City shall fail to so dedicate the property, the property shall revert to Mary Marston, her heirs, assigns or devisees." With the recent death of Mary Marston, it is now appropriate that we proceed with the dedication of the Marston property for park purposes. The property will become a portion of Balboa Park and is located along the western side of the park.

NOTE: See Item 30 on today's docket for a companion item.

* ITEM-102: (R-88-313) ADOPTED AS RESOLUTION R-269229
19870914

Inviting bids for the Construction of Nestor Creek Flood Control Project 1C on Work Order No. 118613; authorizing the execution of a contract with the lowest responsible and reliable bidder; authorizing the City Auditor and Comptroller to transfer \$120,000 from Fund 30245, CIP-52-301, Nautilus Street - Avenida La Reina to Avenida De Las Pescas; \$60,000 from Fund 30245, CIP-52-363, Front Street - Extension to Harbor Drive; \$20,000 from Fund 30245, CIP-58-004, Annual Allocation - Miscellaneous Improvements on City Streets; and from construction contingencies an amount not to exceed \$22,000 from Fund 18014, CIP-12-036.1, Nestor Creek Flood Control Project 1A, to CIP-12-036.3, Nestor Creek Flood Control Project 1C; authorizing the expenditure of an amount not to exceed \$399,362 (\$199,362 from Federal Revenue Sharing Fund 18014, CIP-12-036.3, Nestor Creek Flood Control Project 1C and \$200,000 from Capital Outlay Fund 30245, CIP-12-036.3 Nestor Creek Flood Control Project 1C) for providing funds for said project and related costs; authorizing the City Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves. (BID-9247)
(Otay Mesa-Nestor Community Area. District-8.)

CITY MANAGER REPORT: Within the limits of this project, Nestor Creek is an unimproved earth channel with narrow bottom width. This project proposes replacement of the earth channel with a wider concrete lined rectangular channel. The proposed new channel will provide adjacent properties with protection against storm flows in Nestor Creek up to and including the 100-year frequency flood.

* ITEM-103: (R-88-312) ADOPTED AS RESOLUTION R-269230
19870914

Inviting bids for the Installation of Portable Process Laboratory - Point Loma Treatment Plant on Work Order No. 170531; authorizing the execution of a contract with the lowest responsible and reliable bidder; authorizing the expenditure of an amount not to exceed \$241,793 from Sewer Revenue Fund 41506, CIP-46-119, Annual Allocation - Point Loma Treatment Plant, for providing funds for said project and related costs; authorizing the City Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves. (BID-9246)
(District-2.)

CITY MANAGER REPORT: Continuing expansion of the Point Loma Wastewater Treatment Plant has created a need to provide additional biology and chemistry laboratory space for monitoring and controlling plant processes. Because on-site expansion area is limited - the entire Point Loma laboratory facility will be displaced by the remodeling of the Administration Building and relocated to a new and larger joint facility at the Alvarado Filtration Plant - a portable process laboratory trailer can provide the needed laboratory space both now and during the relocation. After the relocation, the trailer will remain permanently at the Point Loma site to allow operations personnel quick and easy access to the laboratory testing facilities to insure that the Plant processes are monitored and controlled. This action will authorize the installation of a manufactured, self contained, portable process laboratory trailer and

appurtenant equipment.

* ITEM-104: (R-88-305) ADOPTED AS RESOLUTION R-269231
19870914

Inviting bids for the construction of traffic signal and street lighting systems on El Cajon Boulevard at Illinois Street and at Highland Avenue and at Euclid Avenue and Wightman Street on Work Order No. 118878; authorizing the execution of a contract with the lowest responsible and reliable bidder; authorizing the expenditure of funds not to exceed \$228,100 from Capital Outlay Fund 30245, CIP-61-002, Annual Allocation - New Traffic Signals for said project and related costs; authorizing the Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves. (BID-9237)
(Mid-City and Park North-East Community Areas.
District-3.)

CITY MANAGER REPORT: The FY 1987 Capital Improvements Program identifies these three locations to receive new traffic signal systems. Installation of traffic signals at these locations will properly coordinate the safe passage of pedestrians and vehicles through the intersections. Emergency vehicle preemption equipment is included in the design to provide for priority movement of emergency vehicles through the intersections.

* ITEM-105: (R-88-306) ADOPTED AS RESOLUTION R-269232

Inviting bids for the construction of traffic signal and street lighting systems at Antigua Boulevard and Clairemont Mesa Boulevard on Work Order No. 118887; authorizing the execution of a contract with the lowest responsible and reliable bidder; authorizing the expenditure of funds not to exceed \$102,100 from Capital Outlay Fund 30245, CIP-61-002, Annual Allocation - New Traffic Signals, for providing funds for said project and related costs; authorizing the Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves. (BID-9238) (Tierrasanta Community Area. District-7.)

CITY MANAGER REPORT: This Capital Improvements Project provides for the safe passage of pedestrians, vehicles and emergency vehicles through the intersection of Clairemont Mesa Boulevard, a major street carrying in excess of 20,000 vehicles a day, and Antigua Boulevard, a collector street which provides access to residential neighborhoods north and south of Clairemont Mesa Boulevard. A special feature of the project is the inclusion of audible signals for the visually impaired pedestrians.

* ITEM-106: (R-88-393) ADOPTED AS RESOLUTION R-269233

Approving the acceptance by the City Manager of an easement deed of Coronado Terrace Unit No. 2 Homeowners Association, granting to the City an easement for drainage purposes and future maintenance responsibility for an existing flood control channel on Nestor Creek within the Coronado Terraces development between 25th and 27th Streets, being a portion of Lot E-1 of Coronado Terrace Unit No. 2, Map-6904, providing that the flood control channel is restored to its original condition and flood conveyance capability by the Coronado Terraces Homeowners Association, to the satisfaction of the City Engineer. (Otay Mesa-Nestor Community Area. District-8.)

CITY MANAGER REPORT: The Coronado Terraces development was completed in 1975. Included in the public improvements constructed with the development was a flood control channel to convey Nestor Creek through the project between 25th and 27th Streets adjacent to Grove Avenue. The channel was built as a private drain in private open space, an easement was not dedicated to the City and thus no maintenance responsibility was assumed by City Forces. The channel has not been maintained for over a decade and a large accumulation of sediment has built up therein. The City has asked the Coronado Terrace Homeowners Association to clean the channel. The Association has asked that the City accept a drainage easement for the channel and future maintenance responsibility once they restore the channel to its original condition. Nestor Creek drains a watershed of over 1,500 acres above the Coronado Terraces development. Normally a drainage facility of this capacity would be accepted by the City for maintenance after construction by a developer. To be consistent with other similar facilities throughout the City, it is recommended that the easement and maintenance be accepted with the provision that the channel be restored by the Homeowners Association.

Two actions relative to Carmel Valley Neighborhood 5 Unit No. 8:
(North City West Community Area. District-1.)

Subitem-A: (R-88-410) ADOPTED AS RESOLUTION R-269243
Authorizing the City Manager to release a portion of the sureties issued by Developers Insurance Company in the form of Performance Bond Nos. 910476S, 910477S and 910478S, so that the same is reduced as follows:

1. For faithful performance, to the sum of \$338,460.

2. For the benefit of the contractor, subcontractor and to persons renting equipment or furnishing labor or materials, to the sum of \$169,230.

Subitem-B: (R-88-411) ADOPTED AS RESOLUTION R-269244

Granting an extension of time to December 31, 1988 to complete the improvements required in Baldwin Building Company, subdivider of Carmel Valley Neighborhood 5 Unit No. 8.

CITY MANAGER REPORT: On June 17, 1985, the City entered into an agreement with Baldwin Building Company for the construction of public improvements for Carmel Valley Neighborhood 5 Unit No. 8. Performance Bond Nos. 910476S, 910477S, and 910478S, in the amount of \$376,819, \$420,006 and \$513,512, totalling \$1,310,337, were provided by the subdivider. The agreement expired on June 17, 1987. The subdivider has requested a partial release of surety and an extension of time to December 31, 1988, in which to complete the required improvements. Ninety-eight percent of the work has been completed to the satisfaction of the City Engineer. The job order account has sufficient funds to cover anticipated future costs to the City. There are no mechanic's liens filed against the surety and there has not been a previous partial release. In accordance with Council Policy 800-11 and 600-21, respectively, it is recommended that the surety be reduced, approximately 74.17 percent, to \$338,460, and since the improvements to be delayed are not necessary to serve the adjacent development or the general public, that the time extension be granted.

Two actions relative to the University Avenue (Florida Street to Idaho Street) Underground Utility District:
(Park Northeast Community Area. District-3.)

Subitem-A: (R-88-408) ADOPTED AS RESOLUTION R-269245

Designating October 5, 1987 as the date upon which all property in the University Avenue (Florida Street to Idaho Street) Underground Utility District must be ready to

receive underground service and February 19, 1988 as the date for the removal of all overhead utility facilities.

Subitem-B: (R-88-414) ADOPTED AS RESOLUTION R-269246

Authorizing the City Auditor and Comptroller to open Fund 78021 for the purpose of depositing Public Utilities Commission Case 8209 Utility Undergrounding Allocation Funds for the University Avenue (Florida Street to Idaho Street) Underground Utility District; authorizing the City Treasurer to receive these funds from the San Diego Gas and Electric Company; authorizing payment to all property owners in the University Avenue (Florida Street to Idaho Street) Underground Utility District as reimbursement for electrical service underground conversion work done on private property from Case 8209 funds deposited by San Diego Gas and Electric Company with the City Treasurer for this purpose; authorizing the City Auditor and Comptroller to return to San Diego Gas and Electric Company any undisbursed funds upon written notice from SDG&E to the City that all electric service conversions within a particular district have been completed.

CITY MANAGER REPORT: The University Avenue (Florida Street to Idaho Street) Underground Utility District was created by the City Council on August 20, 1985. The Resolution creating the district left the matter of the actual dates for converting services and removing overhead facilities to be established later. This action will set October 5, 1987 as the Customer Ready Date, which will require that, upon this date, all affected customers within the underground utility district must have their services prepared to receive service from the new underground system. This action will also establish February 19, 1988 as the Pole Removal Date, which will require that, upon this date, all overhead facilities within the underground utility district must be removed. The utility companies concur with these proposed dates. Council Policy 800-2 provides for the use of California Public Utilities Commission Case 8209 Funds to assist in financing the conversion of private electric service laterals in all underground utility districts. Funding consist of a lump-sum reimbursement based upon the length of the electrical service trench. The property owner remains responsible for all remaining conversion costs.

Resolution of Intention to acquire approximately 24.9 acres
of Los Penasquitos Canyon Preserve - North of Genstar
Tradeland for the San Diego Open Space Park Facilities
District No. 1.
(District-1.)

CITY MANAGER REPORT: Los Penasquitos Canyon Preserve is
priority number 1, in Category A, on the Council's adopted open
space retention list. This 24.9 acre parcel is a portion of the
large finger canyon north of and adjacent to the Genstar
tradeland property. On September 15, 1986, Council approved an
acquisition plan for this land, along with funds to have it
appraised for purposes of acquisition for open space. Further,
on June 1, 1987, Council established priorities for the
acquisition plan which identified this land as the number eight
priority. Since available funds are not adequate to proceed
with all approximately 230 acres included in this priority, we
are returning to Council for approval of funds in order of the
established priorities. Funding is now available for the
acquisition of this parcel, which is immediately adjacent to the
Genstar tradeland. This request is for \$411,000 to purchase
this parcel at fair market value plus funds to cover title,
escrow, and other miscellaneous costs.

(Southeast San Diego Community Area. District-4.)

CITY MANAGER REPORT: Valencia Canyon is priority number 56,
in Category C, on the Council's adopted Open Space Retention
List. This 1.06 acre parcel is at the northeast corner of 58th
and Churchward Streets. On November 21, 1983, Council adopted
Resolution R-259663, approving an acquisition plan which
included allotting up to \$5 million for Council District 4

parcels. The specific acquisition plan on this parcel, along with funds to have it appraised for purposes of acquisition for open space, was approved by the City Council on May 18, 1987. This request is for \$40,000 to purchase this parcel at fair market value, plus funds to cover title, escrow and other miscellaneous costs.

Authorizing the City Manager to accept the donation of a duplex building by Associated House Movers and Wrecking Company; authorizing the City Auditor and Comptroller to transfer an amount not to exceed \$18,000 from Water Revenue Fund (41502) Unallocated Reserve (70697) to the Dams and Reservoir Program (703222); authorizing the City Manager to contract with Associated House Movers and Wrecking Company to move the donated building onto the site adjacent to 5540 Kiowa Drive, and to waive the requirements for competitive bidding since no competitive advantage can be gained in view of the favorable costs to the City; authorizing the expenditure of an amount not to exceed \$18,000 from the Dams and Reservoir Program (703222) for the purpose of providing funds for the above project.

(Lake Murray Community Area. District-7.)

CITY MANAGER REPORT: Associated House Movers and Wrecking Co., 6910 Mission Gorge Road, San Diego, has offered to donate a 1,500 square foot duplex to the City of San Diego Water Utilities Department. The duplex is in very good condition and could be converted to office space with very little modification of the interior layout. Associated House Movers, Inc. will move the duplex and set up the new foundation at our Alvarado Filtration Plant site adjacent to existing office buildings for the total sum of \$18,000. This compares favorably with the recent cost of moving an 850 square foot City office building (including setting a new foundation) to a new site for the total sum of \$16,476. The building is required to provide needed office space for Water Production personnel and will permit cancellation of an office trailer lease at a savings of about \$5,000 annually.

Establishing a parking time limit of two hours between the hours of 8:00 a.m. and 6:00 p.m., Sundays and certain holidays excepted, on the east side of First Avenue between Fir Street and Grape Street; authorizing the installation of the necessary signs and markings; declaring that the hereinabove imposed regulations shall become effective upon the installation of such signs.

(Centre City Community Area. District-8.)

CITY MANAGER REPORT: The proposed parking time limit parking zone was petitioned by a property owner that represents 100

percent of the affected frontage. Recent parking studies determined the average parking occupancy to be over 100 percent and the average parking duration to be 5.9 hours. The location is in an area that receives a high level of parking enforcement. This meets the requirements of Council Policy 200-4. Therefore, this parking restriction is recommended for implementation.

Authorizing the execution of an amendment to the agreement with Alsip-Mason Incorporated, dba, PDS Engineering, to provide professional services to design the on-site steam generation system at the Community Concourse and Central Library; authorizing the expenditure of an amount not to exceed \$55,000 from Capital Outlay Fund 30245, CIP-37-002, Energy Conservation Improvements, for the purpose of providing funds for the above project.

(Centre City Community Area. District-8.)

CITY MANAGER REPORT: This action will amend the agreement with PDS Engineering to provide the additional professional services necessary to design an on-site steam generation system at the Community Concourse and Central Library. In addition, Consultant will study and report on the feasibility of installing a cogeneration system, and thermal energy storage in conjunction with the new steam system at the Community Concourse. The study will also include uses for the surplus emergency diesel generator which was salvaged from the former Police Headquarters' building. Council originally authorized the consultant to prepare a preliminary study of the two facilities to determine equipment requirements, alternate locations for boilers and ancillary equipment, economic evaluation of energy conservation applications, structural and architectural considerations and construction cost estimates. The study was prompted by San Diego Gas and Electric Company's decision to terminate steam utility service in the coming year. The present cost of purchased steam results in a payback for the new system in less than five years.

(Southeast San Diego Community Area. District-4.)

CITY MANAGER REPORT: The proposed agreement with Associated Professional Engineering Corporation, will provide the professional services required to prepare the General Development Plan for Encanto Neighborhood Park. This agreement will encompass only the schematic plan phase of the design. The plans and specifications needed for construction will be provided by a future amendment to this agreement, after construction financing has been identified. Concept planning will include drainage calculations, concrete walks, lighting, parking, tot lot, picnic facilities, landscaping, and irrigation. 19870914

Authorizing the execution of two agreements with community agencies for social service programs: 1) Agreement with the California Center on Victimology to provide counseling and support services to crime victims and their families, and 2) Agreement with the Community Shelter Program to provide shelter for the homeless; authorizing the City Auditor and Comptroller to transfer an amount not to exceed \$60,000 from the General Fund 100 to the Human Care Services Special Fund 19630 for the funding of the California Center on Victimology; authorizing the City Auditor and Comptroller to transfer an amount not to exceed \$30,000 from the Community Development Block Grant (CDBG) Fund 18523, Dept. 5634, Org. 3411 for the operation of the Community Shelter Program.

CITY MANAGER REPORT: On June 30, 1987 the Committee of the Whole recommended that the California Center on Victimology, and the Community Shelter Program (under the administrative umbrella of United Way of San Diego County) receive City funding in FY'88 to operate social service projects. On the same date the Committee of the Whole recommended that the San Diego Rescue Mission receive \$20,000 in funding to assist in the operation of their medical clinic. Contract negotiations for the Rescue Mission are still in progress. We anticipate returning to Council with the final contract in late September or early October.

The following is a brief description of each program for which

contracts have been prepared, its funding level, and the duration of the contract: 1) The California Center on Victimology provides counseling and support services to crime victims and their families so as to minimize the traumatic effect that crime has had on their lives. The period of performance for the Victim Assistance Center is September 1, 1987 to June 30, 1988 and the funding level is \$60,000; 2) The Community Shelter Program is designed to provide additional shelter for the homeless in the cold/winter months by encouraging churches, community groups, and faith centers to act as host agencies which provide shelter facilities for 12 to 14 individuals for a two-week period. Participation will be on a rotating basis, and ancillary services, such as showers, job search/screening, food, etc., will be offered. The period of performance will be September 1, 1987 to August 31, 1988 at a funding level of \$30,000.

Three actions relative to the participation agreement with MTDB for the design and construction of traffic signals and railroad crossing closures:
(Southeast San Diego Community Area. Districts-3 and 4.)

19870914

Subitem-A: (R-88-430) ADOPTED AS RESOLUTION R-269260

Authorizing the execution of an agreement with the Metropolitan Transit Development Board for the design and construction of traffic signals at the intersections of Imperial Avenue/60th Street and Imperial Avenue/62nd Street; authorizing the expenditure of an amount not to exceed \$8,000 from Capital Outlay Fund 30245, Annual Allocation Cooperative Signal Projects, CIP-68-001 for the purpose of providing funds for the above project.

Subitem-B: (R-88-431 Rev.1) ADOPTED AS RESOLUTION R-269261

Authorizing the closure of railroad grade crossings to vehicular traffic on 54th Street between Martin Luther King

Way and Naranja Avenue and on 66th Street between Imperial Avenue and Akins Avenue.

Subitem-C: (R-88-432) ADOPTED AS RESOLUTION R-269262

Certifying that the information contained in Environmental Negative Declaration END-87-0555, has been completed in compliance with the California Environmental Quality Act of 1970, as amended, and State guidelines thereto, has been reviewed and considered by the Council.

CITY MANAGER REPORT: Based on concerns expressed by the Public Utilities Commission over the number of grade crossings and potential operating difficulties along the proposed East Urban Line Trolley extension, staff reviewed plans for traffic control in the area. Staff determined that it would be desirable to close certain existing at-grade railroad crossings and improve others to provide an increased level of safety for both local residents and trolley passengers. The closure of existing grade crossings to vehicular traffic at 54th Street (between Martin Luther King Way and Naranja Street) and 66th Street (between Imperial Avenue and Akins Avenue) is proposed. Crossings would be maintained to serve pedestrians only, and would be protected with bells and flashers. Vehicle traffic now using these crossings could be accommodated at other nearby crossings with minimal impact. A negative declaration has been prepared for the proposed crossing closures. In July, the Southeast Development Committee voted in support of the recommended closures. The installation of new traffic signals at the intersections of 60th and 62nd Streets with Imperial Avenue is proposed. The traffic signals would be coordinated with railroad crossing gates to ensure clearance of vehicles from the railroad tracks whenever a trolley is approaching. The new signals would also assist pedestrians crossing Imperial Avenue to access the future trolley station near 62nd Street. It is recommended that the City pay for design of the two new traffic signals, not to exceed \$8,000, and accept subsequent ownership and maintenance responsibilities. The Metropolitan Transit Development Board would oversee design efforts and would construct the signals as part of their East Urban Trolley extension project.

(Mid-City Community Area. District-3.)

Subitem-A: (R-88-451) ADOPTED AS RESOLUTION R-269263

Authorizing the execution of an agreement with Normal Heights Community Development Corporation, a non-profit corporation, for specified economic development activities; authorizing the expenditure of an amount not to exceed \$68,000 from Fund 18523, Dept. 5635, Org. 3504, for the above purpose.

Subitem-B: (R-88-452) ADOPTED AS RESOLUTION R-269264

CITY MANAGER REPORT: The City Council, in the 1987 Community Development Block Grant (CDBG) appropriation cycle, approved a \$68,000 grant to the Normal Heights Community Development Corporation and a \$52,500 grant to the City Heights Community Development Corporation for neighborhood economic development activities. Major activities include maintaining meeting spaces for residents and business owners, promotion of special events, employment training for residents and development and implementation of revitalization and redevelopment of the communities. Authorizing the execution of an agreement with John Powell

and Associates, Inc. for engineering services for a feasibility study of emergency power sources to the City's sewage pump stations; authorizing the City Auditor and Comptroller to transfer an amount not to exceed \$25,000 within the Sewer Revenue Fund (41506) from Unallocated Reserve (70697) to Wastewater Engineering Program (70820); authorizing the expenditure of an amount not to exceed \$25,000 from the Sewer Revenue Fund (41506), Wastewater Engineering Program (70820), for the purpose of providing funds for the above project.

CITY MANAGER REPORT: This feasibility study will assess emergency standby power needs for the City's municipal sewer pump stations. For the most part these pump stations have been susceptible to shutdowns resulting from primary electrical power failures. The results of this study will be used to identify, recommend and prioritize improvements to the pump stations to provide emergency secondary power sources. Included in this study are those sewer pump stations around Mission Bay which are mandated by the Regional Water Quality Control Board under Cease and Desist Order No. 87-89 to have permanent on-site emergency standby power capabilities. The consultant will be directed to give Mission Bay pump stations first priority. It is expected that subsequent design of emergency power sources to the Pump Stations will be initiated as a result of this study.

Consultants for the subject project were selected from the As-needed Civil Engineer Short-list. Of the three firms on the short-list, two declined to interview. Consequently, two more firms were added to the list, of which one of those declined to interview. On May 21, 1987, the remaining two firms were interviewed by Water Utilities personnel in conformance with Council Policy 300-7. The firm of John Powell and Associates was selected as the most qualified.

CITY MANAGER REPORT: As part of its Flexible and Management Benefits Plans, the City is offering a fourth health plan to employees and their dependents. PruCare Plus offers a unique combination of coverages. It allows selection at the time of service of any provider through the traditional indemnity type plan (requiring a deductible and co-payment) or the use of a specific provider through the Health Maintenance Option (HMO) plan which provides 100 percent coverage. These features allow the company to offer substantially reduced premiums.

* ITEM-129: (R-88-413) ADOPTED AS RESOLUTION R-269267

Authorizing the execution of a lease agreement with the Salvation Army, to provide a public restroom facility in the area of Eighth Avenue and F Street; authorizing the expenditure of an amount not to exceed \$1,488 from Fund 10223 (Special Promotion Programs) for the purpose of providing funds for the above lease agreement; authorizing the City Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves.

(Centre City Community Area. District-8.)

CITY MANAGER REPORT: Since November, 1985, the City has had a temporary restroom program in the downtown area. The program--whose need has been documented by the Downtown Social Problems Task Force, the Downtown Coordinating Council, the Central City Association, the Gaslamp Quarter Council, the Convocation on San Diego's Homeless and the Regional Task Force on the Homeless--has proven effective in mitigating problems with public urination and defecation. Currently, there are two portable restrooms at each of the following three locations: 10th and E; 6th and Martin Luther King Way; and 11th and J Street. This agreement would add a seventh restroom on 8th and F Street, adjacent to the Salvation Army Facility.

* ITEM-130: (R-88-250) ADOPTED AS RESOLUTION R-269268

Authorizing the execution of the first amendment to the agreement with VTN Pacific, Inc. for design services, increasing the total compensation to \$1,022,985; authorizing the execution of the first amendment to the agreement with Kadie - Jensen and Johnson, for financial consulting services, increasing the total compensation to \$34,500; authorizing the City Auditor and Comptroller to accept an additional \$303,125 in advance funds from property owners for the purpose of funding additional expenses.

(Mira Mesa Community Area. District-5.)

CITY MANAGER REPORT: In April 1986, Council accepted the property owner petition for the Calle Cristobal Assessment District and authorized the execution of agreements with the project consultant team. It is now necessary to amend two of those agreements. During the engineering design effort, a number of unknown conditions arose which were beyond the scope of the original design agreement. Among these were a change in street classification, which requires a redesign of the street and right-of-way, and the discovery of soil conditions in several locations which will require special engineering designs. Also, additional traffic and environmental studies are required by the change in street classification. The increase in design costs is \$182,985. It is recommended that the financial consultants agreement be amended to include responsibility for providing the property appraisal required for the assessment district bond sale. While it was originally contemplated that this would be provided directly by the City, recent experience has shown that the property appraisal is best provided under the direction of the financial consultant. The additional cost is \$10,000.

* ITEM-131: (R-88-421) ADOPTED AS RESOLUTION R-269269

Authorizing the execution of an agreement with the County of San Diego to declare a portion of Otay Mesa Road to be a County highway.

(Otay Mesa Community Area. District-8.)

CITY MANAGER REPORT: The State of California has built a prison facility on Otay Mesa and they are desirous of improving their access to this facility along Otay Mesa Road and Alto Road. Most of this stretch of road lies within County jurisdiction, but a small portion lies within the City of San Diego. San Diego County is the lead agency for this improvement project, and they have prepared the plans and specifications and plan to advertise for construction in the near future. They, however, need to obtain additional right-of-way within our City limits prior to start of construction. This cannot be accomplished in a timely manner unless that portion in question is declared a County highway. This agreement provides for the declaration of the City portion of Otay Mesa Road to be a County highway for the purpose of acquisition, construction, maintenance, improvement and repair. Upon completion of the improvements, the County will provide maintenance of this portion of roadway until such time as the City determines that it wants the road back under its jurisdiction.

* ITEM-132: (R-88-443) ADOPTED AS RESOLUTION R-269270

Approving Change Order No. 2, dated June 25, 1987, issued in connection with the contract with Cal Southwest Construction, Inc., for the Pacific Beach Trunk Sewer Manhole Replacement Project, Phase II, amounting to a net increase in the contract price of \$2,664.

(La Jolla Community Area. Districts-1 and 6.)

CITY MANAGER REPORT: The Pacific Beach Trunk Sewer Manhole Replacement Project was intended to replace badly deteriorated manholes that were collapsing under normal traffic. The collapsed manholes were causing backups in the trunk sewer line and spills into Mission Bay. This project was designated and built as an urgent measure. After construction began it was determined that the actual numbers of risers and bases requiring

spray-on protective coating and the length of 8-inch and 10-inch sewer main to be installed was different than specified in the Special Provisions. This resulted in a net increase of \$2,664.

ITEM-200: (O-88-41) INTRODUCED, TO BE ADOPTED SEPTEMBER 28, 1987

Introduction of an Ordinance amending Chapter V, Article 9, Division 1, of the San Diego Municipal Code by amending Sections 59.0102 and 59.0104, relating to the San Diego Jack Murphy Stadium Parking Facility, regulating access to the Stadium parking lot during overflow capacity events.

(Mission Valley Community Area. District-5.)

CITY MANAGER REPORT: The playing of Super Bowl XXII at San Diego Jack Murphy Stadium on January 31, 1988 could present security and crowd-control problems. The attendance at the game (estimated at 73,000+) will be approximately 14,000 more than any sporting event held at the stadium. This will require moving great numbers of people into and out of the parking lot; control of the crowd flow from the parking lot to the Stadium and Hospitality Village; and the related problems in providing for the safety and convenience of these persons. The above security tasks can be made more difficult with the addition of more people at the Stadium who do not have tickets. Super Bowl games tend to attract large numbers of onlookers. This was exhibited at last year's game where a crowd of approximately 5,000 people (without tickets) gathered at the gate to the Rose Bowl. This situation presented problems for the orderly flow of people into the Rose Bowl and jeopardized public safety. Therefore, to avoid potential problems, it is recommended that access to the Stadium parking lot be limited only to employees and individuals with a valid ticket or pass. The proposed ordinance would limit access for any event where the attendance is greater than 65,000 and a notice of prohibition is posted at least 24 hours prior to the event. This ordinance will provide an enforcement mechanism to control excessive crowds at the Stadium. At the August 6, 1987 San

Diego Stadium Authority Board of Governors meeting, the Board recommended approval of the ordinance.

ITEM-202: (R-88-264) ADOPTED AS RESOLUTION R-269271

Authorizing the execution of a second amendment to the Cooperative Agreement with Metropolitan Transit Development Board for employment of City of San Diego Professional Planning Services.

CITY MANAGER REPORT: On December 8, 1986 City Council authorized the City Manager to enter into a Cooperative Agreement with Metropolitan Transit Development Board for employment of City of San Diego Professional Traffic Engineering Services. Use of a professional City Engineer by MTDB has significantly improved coordination between the agencies on engineering matters. MTDB has requested that the Cooperative Agreement be amended to provide for employment of City of San Diego Professional Planning Services. A Senior Planner would be assigned to MTDB for land use and community planning services related to bus and light rail transit planning and design activities. The City of San Diego will be compensated for the actual salary and fringe benefit costs of the professional services provided. This amendment was approved by MTDB on June 25, 1987.
