ITEM-330:

Two actions relative to establishing the Catalina Boulevard (Varona Street to Catalina Place) Underground Utility District:
(Peninsula Community Area. District-2.)

Subitem-A: (R-89-1495) ADOPTED AS RESOLUTION R-273154
Establishing an Underground Utility District to be known and denominated as the Catalina Boulevard (Varona Street to Catalina Place) Underground Utility District.

Subitem-B: (R-89-1496) ADOPTED AS RESOLUTION R-273155
Authorizing the expenditure of an amount not to exceed \$2,500 from CIP-37-028, Gas Tax Fund 32191 for the purpose of administering the Catalina Boulevard (Varona Street to Catalina Place) Underground Utility District, minor City Force work and other related work.

CITY MANAGER SUPPORTING INFORMATION: The proposed district will underground the overhead utility facilities on Catalina Boulevard between Varona Street and Catalina Place. This is a scheduled project in the Calendar Year 1990 Capital Improvements Program. The formation of this district will require the affected property owners to underground the portion of their utilities on their parcel prior to removal of the overhead utilities. The total number of affected properties in this district is 46, of which all are single-family residential properties. A typical cost range for a licensed contractor to perform this conversion work on residential private property is \$1,000 to \$1,500. Council Policy 800-2 provides for the use of San Diego Gas and Electric Company's Annual Allocation Funds (Case 8209) to make reimbursement payments to affected property owners based on the length of their electrical service trench. A future resolution will establish the date for removal of overhead utilities as the undergrounding work approaches

completion.
