ITEM-52: (O-90-33 Rev.1) ADOPTED AS ORDINANCE O-17349 (New Series)

Amending the San Diego Municipal Code by adding a new Article 1, Division 1 to Chapter VII, relating to Transportation Demand Management. This Division implements the first program component of the City's Comprehensive Program for Transportation Demand Management. This first component specifies employer, building owner, and developer requirements for vehicle trip reductions and contributions to support Federal and State-mandated clean air standards through Transportation Demand Management. This Program component will reduce traffic congestion and improve air quality by reducing the number of employees who drive alone in motor vehicles to work sites during peak periods.

ITEM-330: RETURNED TO THE PLANNING DEPARTMENT

(Returned to the Planning Department from the meeting of June 27, 1989, Item 336; Continued from the meetings of June 15, 1989, Item 335; May 23, 1989, Item 335; and May 9, 1989, Item 330.)

The following project (Crosstown/B Club Suites) is subject to City Council review according to the provisions of the Centre City Emergency Ordinance and Overlay Zones.

The project is a proposed 15 story apartment tower containing 153 units with five levels of parking (one below grade) and 5,285 square feet of retail located on the west side of Eleventh Avenue between B and C Streets. The project requires a variance from the permitted FAR (Floor Area Ratio) of 10.0 to 10.37. The subject property is more particularly described as Lots J, K and L, Block 23, Horton's Addition, in the Centre City Overlay Zone.
(Case-89-0156. District-8.)

Subitem-A: (R-89-1943)

Adoption of a Resolution certifying that the information contained in Environmental Negative Declaration END-89-0156 has been completed in compliance with the California Environmental Quality Act of 1970 and State guidelines, and that said declaration has been reviewed and considered by the Council.

Subitem-B: (R-89-1942)

Adoption of a Resolution approving the project.

PLANNING DEPARTMENT SUPPORTING INFORMATION: The proposed project is a 15 story apartment tower, containing 153 units (88 studios and 64 one bedroom) with five levels of parking, one below grade and 5,285 square feet of commercial at street level. The project is in the core area of Centre City, and according to the Emergency Ordinance has an FAR of 10.0 and height governed by the Airport Approach Overlay Zone. The project has an FAR of 10.37 and is 158 feet in height.

The project has been reviewed according to the Centre City Overlay Zone.

Vehicular Access - Maximum linear feet of curb cut is indicated at 42 feet where 30 is permitted. A maximum curb cut for one-way traffic is 12 feet.

Parking - Parking facilities with three or more levels of above-grade parking shall be contained within the structure and architecturally enclosed. The openings for garage ventilation are recessed and covered with grill work.

Street Level Development - Both the B and Eleventh Street frontages surpass the 40 percent requirement for ground floor activity. Fifty-nine percent of B Street is devoted to commercial use and see-through glass windows while close to 75

percent of Eleventh Street is in commercial space use or lobby area for the residential tower.

FAR - The amount of FAR (.37) that exceeds the permitted 10.0 is approximately 5,500 square feet. In terms of the desired overall goal of developing residential in Centre City, this square footage appears to be very minimal. The proposed improvement will fulfill an individual and or community need and will not adversely affect the conditions that have been applied, will not be detrimental to the health, safety and general welfare of persons residing or working in the area; and will meet the purpose and intent of this ordinance.

Signage - A comprehensive sign plan will be required.

Rooftops - All mechanical equipment shall be screened.

Public Right-of-Way - The project cost will exceed \$250,000; therefore, certain ROW improvements are required, including decorative lights, street trees and upgraded sidewalks.

The Planning Department recommends approval subject to installment of public right-of-way improvements, submittal of sign plan and review by the City Engineer.
