MOTION BY STEVENS TO ADOPT.   Second by Behr.   Passed by the following vote:   Wolfsheimer-yea, Roberts-yea, Hartley-yea, Stevens-yea, Behr-yea, Stallings-yea, McCarty-yea, Filner-yea, Mayor O'Connor-not present.

ITEM-109:       (R-93-623)     CONTINUED TO NOVEMBER 2, 1992

Authorizing the execution of a third amendment to the agreement of January 12, 1987 with Boyle Engineering Corporation, for services in connection with the Morena Boulevard Interceptor; authorizing the expenditure of an amount not to exceed \$82,732 from Sewer Revenue Fund 41506, CIP-43-123.0, Morena Boulevard Interceptor, to provide funds for the amendment; authorizing the City Manager to finance or refinance the project with tax exempt securities, if circumstances so warrant.

(Clairemont Mesa and Mission Bay Community Areas.  
District-6.)

CITY MANAGER SUPPORTING INFORMATION:   On January 12, 1987, the City entered into an agreement with Boyle Engineering Corporation for engineering services for the Morena Boulevard Interceptor, Document No. RR-267456. On March 14, 1988, and August 6, 1990, the original agreement was amended, Document Nos. RR-270531 and RR-276358 respectively, to design an interim peak period sewage storage facility in Mission Bay and to provide required additional design services for completion of the Morena Boulevard Interceptor Sewer project. Contract Amendment No. 3 encompasses additional work not included in the previous authorization. The original proposal and contract for the present level of services was negotiated in 1987. During the life of the project since, unanticipated revisions of the project concept have greatly increased the level of services required to provide adequate construction support to the City. Amendment No. 3 includes increased shop drawing reviews, response to contractor questions,

review of change order requests, and increased general observations of the construction to assist the City in controlling the construction costs. Compared to the total construction cost for this project (counting all three contracts), the consultant's total level of compensation has been less than 5 percent. This is well below industry standards, and even with the additional newly-required construction support, this contract represents an outstanding engineering value for the City. There is no work to be performed by subconsultants in this amendment.
