CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-94-242) ADOPTED AS RESOLUTION R-282755

Granting the petition for the construction of a section
of the Bermuda Avenue Seawall, under the provisions of
the Improvement Act of 1911;

Directing the City Manager to prepare plans, drawings,
typical cross-sections, profiles and specifications for
the Bermuda Avenue Seawall, together with estimates of
the costs and expenses and a description to be included
in the assessment for the work and improvements.

CITY MANAGER SUPPORTING INFORMATION:

On June 15, 1992, Council adopted a resolution authorizing the
City Manager to proceed with a City initiated project and call
for bids to construct the Bermuda Avenue Seawall. The City
received only two bids. Both of these bids were substantially
higher than the original engineer's cost estimate for the project
and the contract was not awarded. Subsequent to this process the
City has received a petition from persons who own property
adjacent to the proposed seawall project. These property owners
have requested that an additional section of the Bermuda Avenue
Seawall be constructed along their frontage and financed through
the formation of an assessment district under the provisions of
the Improvement Act of 1911. This Act provides owners a means to
receive certain public improvements with the cost assessed to the
benefitting properties. The proposed public improvements to be
provided through 1911 Act proceedings consist of the construction
of a section of seawall and landscaping along the frontage of

property to be included in the proposed district. The petition for this improvement was signed by the owners of 74.7 percent of the property area involved. Council Policy 800-3, entitled "Assessment Procedures," requires that the owners of a minimum of 67 percent of the parcel area sign the petition in order for it to be accepted. This additional section of seawall will be designed and included with the City portion of the wall for bidding purposes, however, the two projects will be bid as separate items. It is recommended that the petition be accepted.

(R-94-475) ADOPTED AS RESOLUTION R-282756

Calling a public hearing to determine whether the public health, safety or general welfare requires the formation of the La Jolla Shores Drive (Calle Frescota to Ruelle Monte Carlo) Underground Utility District.

CITY MANAGER SUPPORTING INFORMATION:

The proposed district will underground the overhead utility facilities on La Jolla Shores Drive between Calle Frescota and Ruelle Monte Carlo. This is a scheduled project in the calendar year 1992 Capital Improvements Program. The formation of this district will require the affected property owners to underground the portion of their utilities on their parcel prior to removal of the overhead utilities.

Council Policy 800-2 provides for the use of San Diego Gas & Electric Company's Annual Allocation Funds (Case 8209) to make reimbursement payments to affected property owners based on the length of their electrical service trench. A future resolution will establish the date for removal of overhead utilities as the undergrounding work approaches completion.

CITY MANAGER SUPPORTING INFORMATION:

The existing trunk sewer was constructed in 1929. It extends
approximately 27,300 feet from Imperial Avenue at the Lemon Grove
City limits to Interstate 5 and Beta Street in San Diego. Due to
the deterioration of the existing pipe and the inadequate size of
the pipe to carry current and future flows, that portion of the
Encanto Trunk Sewer, approximately 16,500 feet, that flows from
the Euclid Trolley Station in a generally southwest direction
under Interstates 805 and 5 to the intersection of Main Street
and Siva Street has been tentatively agreed upon for replacement
under a federal consent decree order. Deadline for construction
completion is December 31, 1994.

Base bid construction cost is \$6,390,000. This project qualified for federal grant funding under the special coastal cities appropriation. The Water Utilities Department applied for

Coastal City Program grant funding for 55 percent of the construction or \$3,514,499. On August 31, the City received official notification from the Environmental Protection Agency that the grant is awarded to the project.

Authorizing the City Manager or his authorized representative to conduct a public hearing regarding the issuance of the Series 1993. Certificates in accordance with the requirements of Section 147(f) of the Internal Revenue Code.

CITY MANAGER'S SUPPORTING INFORMATION:

In August, 1993, the City Council authorized the issuance of Certificates of Participation (COPs) in an amount not to exceed \$30 million to fund the Balboa Park/Mission Bay Park Capital Improvements Program, Phase IB. Certain improvements financed with the issuance of these COPs will provide private benefits to the non-profit, 501(c)3 organizations that occupy facilities in Balboa Park. Under these circumstances, IRS Code Section 147(f) requires that a public hearing be held prior to the issuance of this indebtedness. On October 26, 1993, City staff will receive competitive bids from bond underwriters for these bonds and will recommend to the City Council award of the bonds to the lowest true interest cost bid at the 10/26/93 meeting.

ITEM-116: TRAILED TO TUESDAY, OCTOBER 12, 1993

SUBJECT: Amendment to Lease Agreement - Catamaran Pier.

(District-2.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-94-468)

Authorizing the execution of an amendment to the lease with Braemar Partnership, to allow the leaseholder's interest in the Catamaran Pier in Mission Bay Park to be used as security for a loan.

CITY MANAGER SUPPORTING INFORMATION:

In December of 1992, Council approved a 10-year lease with Braemar Partnership, Anne L. Evans, general partner, for the Catamaran Pier which is located in the northwest corner of Mission Bay. The lease provides for beach rentals, boat storage and mooring for Catamaran Hotel guests and the public. Braemar Partnership, at the request of its lender, proposes to encumber the pier lease to provide additional security for a loan it obtained on the Catamaran Hotel. The pier lease needs to be amended to allow for the encumbrance. The Bahia Hotel was encumbered in July, also in conjunction with the loan on the Catamaran Hotel. (The Bahia Hotel is leased to Bahia Hotel Associates, Anne L. Evans, general partner, by the City.) As consideration for approval of the loan, the lessee agreed to pay the City an additional percentage rent of approximately \$50,000 for each year that the Bahia is encumbered.

SUBJECT: First Amendment to the Lease Agreement with Margaret Dell Barr for City-owned property at 945-51 Twelfth Avenue.

(Centre City Community Area. District-2.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-94-458) ADOPTED AS RESOLUTION R-282766

Authorizing the execution of a first amendment to the Lease Agreement with Margaret Dell Barr (Popular Market), waiving a Consumer Price Index rent adjustment to reflect market conditions, and updating all other lease provisions to current City lease standards.

CITY MANAGER SUPPORTING INFORMATION:

City property at the southeast corner of 12th and Broadway has been leased to the Barr family since December 1977 to operate a grocery market. The lease is for 20 years and expires in December 1997. Barr subleases the market to Jesse Gonzalez. The market provides a vital service to disadvantaged residents in the area. The agreement required a rental adjustment based on Consumer Price Index increases in December, 1992, raising the monthly rent from \$3,511 to \$4,003. The lessee petitioned the City to rescind the increase, stating that it would force closure of the business.

A staff appraisal was done and it confirms that the fair market rent should be \$3,500 per month. The proposed amendment would set the rent at \$3,500 per month, retroactive to December 1992, with the next Consumer Price Index rental adjustment due in December 1995. It will also update other lease provisions pertaining to insurance, non-discrimination and equal opportunity employment requirements to reflect the current City lease standards. The rent paid by Barr in excess of \$3,500 per month will be credited against future rent payments.

CITY MANAGER SUPPORTING INFORMATION:

On October 12, 1990, the City Council awarded a construction contract for \$582,234.40 to Sim J. Harris Company for the improvement of Skyline Drive from Valencia Parkway to Deerock Place, identified as CIP-52-377.0. This project did not include improvements of Woodman Street south of Skyline Drive because a private developer was obligated to do this work pursuant to a subdivision agreement. This private developer was found to be in default of his commitment to do the work, and the majority of the work was left uncompleted. A portion of Woodman Street improvement has since been completed under Change Order No. 3, leaving approximately 800 linear feet of improvement to fully complete this project. Change Order No. 5 will complete the improvement of Woodman Street south of Skyline Drive. The cost for Change Order No. 5 is \$251,984.80. Staff has been working with the San Diego Housing Commission and a Cost Recovery District will be processed to recover \$430,921 of the costs from them as they are in the process of purchasing and developing the adjacent site.

SUBJECT: Declaring a Continued State of Local Emergency.

(San Ysidro and Tijuana River Valley Community Areas.
District-8.)

MAYOR GOLDING'S RECOMMENDATION:

Adopt the following resolution:

(R-94-491) ADOPTED AS RESOLUTION R-282777

Declaring a continued state of emergency due to the escalated discharge of raw sewage from Tijuana, Mexico, and that the measures previously taken by the Council

in Resolution R-282544 shall continue to have full force and effect.

CITY MANAGER SUPPORTING INFORMATION:

For over 50 years, renegade raw sewage flows from Tijuana Mexico have flowed across the international border in the Tijuana River into the United States. These flows have impacted the health and safety of San Diego residents. The permanent solution to this border situation is the construction of the proposed International Treatment Plant by the federal government. This plant is expected to be operational by 1998 and will treat raw sewage from Mexico. In the interim, until the international plant is constructed, the City in 1991, agreed to accept and treat 13 million gallons per day of Tijuana sewage in the Metropolitan Sewerage System. The amount of flow that the City can accept is limited due to the capacity of the emergency connection. Due to the increased water availability and usage in Tijuana, raw sewage flows in the Tijuana River have increased. These flows are beyond the capacity that can be handled by the Mexican treatment system and the emergency connection. These increased flows threaten the health, safety and welfare of the citizens of San Diego.

The declaration of emergency enacted on September 7, 1993 will enable the City to assist the state and federal agencies in expediting the treatment of this international sewage. The government code requires the local governing body to review a State of Emergency every fourteen days until the local emergency is declared terminated. This action requests the continuation of the State of Emergency declared by City Council on September 7, 1993.

SUBJECT: San Diego Data Processing Corporation Management Audit.

(Continued from the meetings of June 1, 1993, Item 201, July 26, 1993, Item 203 and September 27, 1993, Item 202; last continued at the City Manager's request, for further review.)

CITY MANAGER'S RECOMMENDATION:

OTHER RECOMMENDATIONS:

CITY MANAGER'S RECOMMENDATIONS (CMR-93-156):

NOTE: The following recommendations (Nos. 1,2,3, and 4) were continued from June 1, 1993:

1. Accept the City Manager's recommendations (as contained in City Manager Report CMR-93-73) to implement changes in response to the management audit.
2. Retain the San Diego Data Processing Corporation as a non-profit corporation and evaluate services provided to determine if they can be better provided within the City's organization or through outplacement.
3. Adopt, in concept, the hybrid organizational structure outlined in City Manager Report CMR-93-156 which would bring some services back to the City of San Diego, solicit proposals for mainframe and network operations from the private sector, and retain software development in the San Diego Data Processing Corporation.
4. Direct the City Manager to report back to the City Council on a semi-annual basis regarding the implementation of the audit recommendations.

NOTE: The following recommendations (Nos. 5 and 6) were adopted by Council on 6/1/93:

5. Eliminate the current exclusivity clause within San Diego Data Processing Corporation's operating agreements.

6. Direct the City Manager to work with the San Diego Data Processing Corporation to develop an implementation plan for a \$1.0 million reduction in the San Diego Data Processing Corporation's budget. This reduction should have minimal operational impact on City of San Diego Departments.

(District-8.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-94-525) ADOPTED AS RESOLUTION R-282780

Authorizing the City Manager to apply for, accept, and expend a grant from the State Earthquake Safety and Public Buildings Rehabilitation Act of 1990 for the purpose of the reconstruction of Fire Station 11;

Certifying the City's ability to provide the required 25 percent funding and supplemental sums in the amount of \$1,318,753 to complete the project in a timely manner.

CITY MANAGER SUPPORTING INFORMATION:

The State Earthquake Safety and Public Buildings Rehabilitation Bond Act of 1990 provides funding for the rehabilitation of unreinforced masonry buildings. Fire Station 11 has been identified as a building of this type. Because the original structure was built in 1913, reconstruction has been determined to be more effective than retrofitting as a solution. Reconstruction costs are estimated at \$1,890,000. The Seismic Programs Section of the Office of the State Architect has determined the San Diego Fire Department's project to be eligible for grant funding of 75 percent of the cost of retrofitting, estimated at \$750,000, under the State Earthquake Safety and Public Buildings Rehabilitation Act. Grant funds may be applied to the reconstruction costs. To secure these funds, the City must certify by resolution the application for funding, the acceptance of funds and the availability of supplemental funding for the completion of the project.
