Rancho La Cresta is a Hillside Review project, City Council is

being asked to authorize the City Engineer to issue an advanced grading permit. All requirements of the grading ordinance as well as the subdivision map will be fulfilled prior to the issuance of the advanced grading permit if authorized by the City Council.

CITY MANAGER SUPPORTING INFORMATION:

The 192-acre South Miramar Landfill was operated by the City  
under a lease from the United States of America, Department of  
the Navy, from 1959 to 1973. Approximately 2.2 million tons of  
municipal solid wastes were buried at this site. Due to natural  
decomposition of the buried wastes, landfill (methane) gas has  
been generated on site. The gas has been entering into the  
atmosphere in measurable amounts, and the Air Pollution Control  
District (APCD), under APCD Rule 59, is requiring the City of San  
Diego to construct a landfill gas collection system. This  
project provides for the construction of a landfill gas  
monitoring, emissions, and migration control system. The gas  
will be withdrawn from the landfill by a series of extraction  
wells, collected in pipes, and flared (incinerated at high

temperature) to the atmosphere.
