* ITEM-50:

SUBJECT: Amendment to the Municipal Code Vesting Requirements of Legislative Officers' Retirement Plan to Reflect the Changes to City Council Terms for 1993 and 1995 Elections.

CITY MANAGER'S RECOMMENDATION:

Introduce the following ordinance:

(O-96-38) INTRODUCED, TO BE ADOPTED ON OCTOBER 30, 1995

Introduction of an Ordinance amending Chapter II, Article 4, Division 5-C, of the San Diego Municipal Code by amending Section 24.0545, relating to Legislative Officer Age and Service Requirements for Retirement.

CITY MANAGER SUPPORTING INFORMATION:

The Legislative Officers' Retirement Plan requires that a legislative member be employed with the City for a minimum of four years to qualify for retirement benefits. With the passage of Proposition E in the November 3, 1992 election, Councilmembers elected in 1993 and 1995 will serve three year terms so that Council district elections will synchronize with California State elections by the year 1998. It is recommended that the vesting requirements for legislative members be amended by adopting the proposed ordinance so that Councilmembers elected in 1993 and 1995 who serve three year terms are eligible for retirement

benefits as described in the proposed ordinance. The Retirement System's actuary has reviewed the impact of reducing the vesting requirement for this period and advised that the result would be a de minimus increase in legislative benefits.

CONSENT MOTION BY KEHOE TO INTRODUCE THE ORDINANCE. Second by Warden. Passed by the following vote: Mathis-yea, Harvey-yea, Kehoe-yea, Stevens-yea, Warden-yea, Stallings-yea, McCarty-yea, Vargas-yea, Mayor Golding-yea.

* ITEM-51:

SUBJECT: Incorporation of the Annual Limit on Compensation for Contribution and Benefit Purposes Required by the Internal Revenue Code.

RETIREMENT BOARD'S RECOMMENDATION:

Introduce the following ordinance:

(O-96-45) INTRODUCED, TO BE ADOPTED ON OCTOBER 30, 1995

Introduction of an Ordinance amending Chapter II, Article 4, Division 10, of the San Diego Municipal Code by amending Section 24.1010, relating to compliance with Internal Revenue Code Provisions.

SUPPORTING INFORMATION:

IRC Section 401(a) (17) provides an annual limit on the compensation which may be considered by a tax qualified plan for pension plan purposes. The City Employees' Retirement System (SDCERS), the Supplemental Pension Savings Plans (SPSP) and 401(k) are qualified plans which are subject to changes in federal tax law pursuant to the Omnibus Budget Reconciliation Act of 1993 (OBRA 93). OBRA '93 amended Internal Revenue Code (IRC) Section 401(a) (17) to reduce the amount of annual compensation which may be considered for pension plan purposes from \$200,000 as indexed (\$235,840 in 1993) to \$150,000 in 1994, with limited future indexing. Qualified plans must expressly limit the amount

of compensation that they take into account for purposes of calculating allocations or accruals, even if there are no participants whose compensation presently exceeds the limits mandated by IRC Section 401(a)(17). Public and private sector plans which do not contain the limitations mandated by IRC Section 401(a)(17) are required to amend their plans accordingly. OBRA '93 also permits public sector plans to grandfather the use of compensation limits specified in the plan as of July 1, 1993 for employees hired before the plan year beginning in 1996. For the SPSP and 401(k) plans, the limit specified in those plans as of July 1, 1993 was \$235,840. For SDCERS, no limit was specified. As such, there is no limit for grandfathered employees in this plan. In order to take advantage of the grandfather provision, SDCERS, the SPSP and 401(k) plans must be amended before the plan year beginning in 1996 to incorporate the limits mandated by IRC Section 401(a)(17) as amended by OBRA '93. The amendments for the 401(k) and SPSP plans are set forth in a separate resolution. The grandfather does not apply unless these plans are amended to add the new \$150,000 limit for employees who become members of these plans after 1995. Failure to adopt this amendment will result in all participants being subject to the new lower limits effective with plan years beginning in 1996. The proposed amendment is not subject to a vote of the active members pursuant to Charter Section 143.1 because the required reduction in the annual compensation limit mandated by IRC Section 401(a)(17) does not affect the benefits of any current employee under the Retirement system, but rather those future employees who become members of the Retirement System on or after January 1, 1996. The City Manager, The Retirement Board and the City Attorney recommend approval of this amendment.

* ITEM-100:

SUBJECT: Amending the SPSP, SPSP-M, SPSP-H, and 401(K) Plans to

Incorporate the Annual Limit on Compensation for Contribution and Benefit Purposes.

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-96-314) ADOPTED AS RESOLUTION R-286397

Amending the SPSP, SPSP-M, SPSP-H and 401(k) plans to incorporate the annual limit on compensation for contribution and benefit purposes required by Section 401(a)(17) of the Internal Revenue Code as amended by the Omnibus Budget Reconciliation Act of 1993, including the grandfather provision for current members.

CITY MANAGER SUPPORTING INFORMATION: IRC Section 401(a)(17) provides an annual limit on the compensation which may be considered by a tax qualified plan for pension plan purposes. The City Employees' Retirement System (SDCERS), the Supplemental Pension Savings Plans (SPSP) and 401(k) are qualified plans which are subject to changes in federal tax law pursuant to the Omnibus Budget Reconciliation Act of 1993 (OBRA '93). OBRA '93 amended Internal Revenue Code (IRC) Section 401(a)(17) to reduce the amount of annual compensation which may be considered for pension plan purposes from \$200,000 as indexed (\$235,840 in 1993) to \$150,000 in 1994, with limited future indexing. The proposed amendment for SDCERS is set forth in a separate ordinance. The grandfather does not apply unless these plans are amended to add the new \$150,000 limit for employees who become members of these plans after 1995. Failure

to adopt this amendment will result in all participants being subject to the new lower limits effective with plan years beginning in 1996. The proposed amendment is not subject to a vote of the plan participants because it implements changes to bring the plans into conformance with federal tax law. The City Manager and the City Attorney recommend approval of this plan amendment.

CITY MANAGER SUPPORTING INFORMATION:

On December 7, 1993 by Resolution R-283174, the City Council approved Tentative Map TM-92-0586, a mixed-use development on the south side of Friars Road and the west side of Stadium Way. Conditions of approval of the Map required the developer, Calmat Company, a Delaware Corporation, to install water improvements necessary to serve the development. The Water Utilities Department determined that the public interest would be better served by the construction of a larger water line to serve other properties in the vicinity of the development. The City has asked Calmat to install 3,224 lineal feet of 16-inch water main instead of a 12-inch water main. Calmat has agreed, provided that the City pay the differential costs and the connection fee. The City finds that the public interest is served by the construction of these water facilities. After the City's acceptance of the facility, the City will reimburse the developer except that reimbursement shall not exceed \$60,672, the average of the differential cost between the 12 and 16-inch mains and the connection fee.
