CITY MANAGER SUPPORTING INFORMATION:

On May 3, 1993, City Council Resolution R-281902 authorized the design for over \$50 million of improvements to the digester system at the Point Loma Wastewater Treatment Plant. These improvements are needed to replace rundown equipment and improve operations. To distribute the construction work, five bid packages were developed for construction originally over a five year period. Shifting funding and operational priorities required rescheduling the construction of these packages over a ten year period.

This rescheduling has required scope of work changes to existing construction contracts. Work that was originally planned for the next decade is needed now to insure effective operation of the new Digesters 7 and 8 and the master planned gravity overflow system scheduled for start-up in 1999. This request for additional contingency funding will be used to fund the scope of work changes related to the schedule changes and unanticipated conflicts in the Center Boiler and Gallery Upgrades project. Conflicts were encountered in the foundation work for the central boiler and the constricted space of the of the gallery. Additional funding is needed to pay the contractor for these changes.

CITY MANAGER SUPPORTING INFORMATION:

Sewer and Water Main Replacement Group 606 is part of the City's ongoing concrete sewer main replacement and cast iron main replacement program. This action involves the replacement of 7,661 linear feet of existing 6-inch and 8-inch concrete sewer mains and 5,629 linear feet of existing 6-inch and 16-inch cast iron water mains. The sewer and water mains to be replaced in the project were constructed as early as the 1920's and have reached the end of their useful service life. Replacement of these 78-year-old deteriorated and undersized, sewer and water mains will continue to provide the community with a safe and reliable sewer and water infrastructure well into the next century. This project is mostly located in the Mid-City area, and portions in the Greater Golden Hill Community. The project in Mid-City area is bounded by University Avenue to the north, Castle Drive to the south, and Euclid Avenue to the west, and

another portion is bounded by Polk Avenue to the north, University Avenue to the south, 43rd Street to the west, and Fairmount Avenue to the east. The portion of the Greater Golden Hill community area is along 28th Street between Date Street to the north and A Street to the south.

CITY MANAGER SUPPORTING INFORMATION:

Resolution R-290165, adopted on May 26, 1998, authorized the City Manager to execute a construction contract with the lowest responsible bidder for the construction of the Point Loma - Headworks, Odor Control and Grit Processing Facilities Interim Improvements. Construction is scheduled to begin in January 1999. The lowest responsible bidder, CDM Engineers Constructors Inc., submitted the bid of \$8,214,100 which was higher than the engineer's construction cost estimate. With the higher construction cost, the estimate for contingency and project related costs is also higher. Authorization is requested to increase expenditures for contingency and project related costs by \$270,210. The project will provide comprehensive upgrades to the existing screenings and odor control facilities at the headworks of the Point Loma Wastewater Treatment Plant. The primary function of which is to remove floating and suspended solids and grit from the influent wastewater. The existing screens are deteriorating requiring more frequent maintenance. The project will replace these screens and adjoining odor control facilities to improve those processes. In addition, state of the art equipment will be installed to improve the grit removal process. The equipment will be tested before procuring additional installations in the next decade.

CITY MANAGER SUPPORTING INFORMATION

On February 25, 1997, June 30, 1997, January 12, 1998, and June 29, 1998, the alignment study, Phase 1 design, and Phase 1 construction monies were approved for this project, Documents RR-288361, RR-288874, RR-289640, and RR-290391, respectively. The first construction contract for Phase 1 has already been issued. This request is for the design and construction funding for Phase 2. Phase 2 is the remainder of the project and will commence upon approval of the first amendment. TMP Homes, Inc., a California corporation, is the developer designing and constructing the South San Diego Pipeline No. 2 project and is a partner in the ownership of the Remington Hills development project located in the Otay Mesa area of the City of San Diego. A second water pipeline is needed to provide the South San Diego/Otay Mesa area with a redundant supply of potable water. Currently, the South San Diego/Otay Mesa area is serviced primarily by only one major water pipeline.

This project, the South San Diego Pipeline No. 2, will construct a new water pipeline of approximately 11.5 miles in length ranging in size from 42-inch, 48-inch, and 54-inch diameters. In addition a new water pump station will be constructed to serve the 680 hydraulic grade line zone. This participation agreement will provide funding for the design and construction of the needed water improvements. It is anticipated that the remainder of the project will be phased-funded. The above public water system improvements are necessary and are for the benefit of the City as a whole. The final payment will be made upon the City's acceptance of the completed project and the submission of the original mylar as-built drawings.

ITEM-330: CCDC Area 1 - Phase 1, K Street to Imperial Avenue (6th Avenue to 12th Avenue) Underground Utility District.

(Centre City Community Area. Districts-2 and 8.)

CITY MANAGER'S RECOMMENDATION

Adopt the following resolution:

(R-99-537 Corrected) ADOPTED AS RESOLUTION R-291201

Establishing the CCDC Area 1 - Phase 1, "K" Street to Imperial Avenue (6th Avenue to 12th Avenue) Underground Utility District.

CITY MANAGER SUPPORTING INFORMATION:

The proposed district is identified in CIP-37-028.0, "Annual Allocation - Undergrounding of City Utilities", and will underground the overhead utility facilities on CCDC Area 1 - Phase 1, K Street to Imperial Avenue (6th Avenue to 12th Avenue). The formation of this district will require the affected property owners to underground the utilities which provide service to their property prior to removal of the overhead utilities in the street. Council Policy 800-2 provides for the use of San Diego Gas and Electric Company's Annual Allocation Funds (Case 8209) to make reimbursement payments to affected property owners for a portion of the cost of their required undergrounding. Property owners are reimbursed based upon the length of their electrical service trench for electrical and conduit up to a maximum of \$1,800 per electric service lateral. In most cases, the reimbursement is sufficient to cover the entire cost for the trenching. Reimbursement does not include the cost of modifications to the electrical service box. This cost typically ranges from \$300 - \$1,500.

Due to the fact that this is a large redevelopment area and reconfiguration of existing streets does not provide a feasible relocation of the overhead facilities, an exception to the Municipal Code is being requested to allow for the removal of the 69KV lines in the Ballpark Redevelopment District. It is anticipated that this project will revitalize the area and be a showcase to the world when hosting major events (i.e., World Series/All Star games.)

A future request for a resolution will establish the date for removal of overhead electrical services to all customers and will be submitted as the undergrounding work approaches completion.

ITEM-331: Support for Tax-Exempt Financing for Performance Plastics, Inc.

(Otay Mesa Community Area. District-8.)

CITY MANAGER'S RECOMMENDATION:

Hold the required public hearing and adopt the following resolution:

(R-99-766) ADOPTED AS RESOLUTION R-291190

Approving the issuance of up to \$9 million of tax exempt bonds, notes or other evidence of indebtedness by the California Statewide Communities Development Authority on behalf of Performance Plastics, Inc.

CITY MANAGER SUPPORTING INFORMATION:

The City Council is required to hold a public hearing supporting issuance of tax exempt private activity conduit revenue bonds by the California Statewide Communities Development Authority Joint Powers Agency (CSCDA) of up to \$9 million as part of an economic incentive package for Performance Plastics, Inc. to expand its operations in the San Ysidro/Otay Mesa Enterprise Zone. Bond proceeds will finance land acquisition and construction of a new 100,000 square foot manufacturing facility on a 7.19 acre lot located at the southwest corner of Otay Mesa Road and Alisa Court in the Brown Field Business Park in Otay Mesa. This project will retain 140 jobs and total employment is expected to escalate to nearly 300 positions over the next five years, approximately 90 of which will be created within the next two years. CSCDA, which will be the issuer, has previously issued bonds through the City for various San Diego manufacturers.

As with previous issues, the City's name will not appear on the bonds and there will be no further City involvement in the financing. By authorizing this financing by CSCDA, the Council will be facilitating the expansion of an important employer in a City Enterprise Zone by assisting the company in obtaining the most cost-effective financing available for its capital expansion project.

Subitem-A: (R-99-606) ADOPTED AS RESOLUTION R-291202

Subitem-B: (O-99-75) INTRODUCED, TO BE ADOPTED FEBRUARY 1, 1999

Introduction of an Ordinance of the Council of the City of San Diego amending Chapter X, Article 3, Division 2 by amending Sections 103.0204 and 103.0205, relating to the Old Town Planned District Ordinance.

SUPPORTING INFORMATION

Amendments to the provisions of the Old Town San Diego Planned District Ordinance and amendments to the Midway/Pacific Highway Corridor Community Plan:

1. Amendments to the Old Town San Diego Planned District Ordinance related to permitted uses, building height, and the maximum floor area ratio in the Rosecrans zone.

2. Amendments to the Midway-Pacific Highway Corridor Community Plan to reflect modifications approved by the California Coastal Commission. These modifications relate to the need for additional environmental studies and Local Coastal Program Land Use Plan amendments prior to construction of the Bay-to-Bay canal.

CITY MANAGER'S SUPPORTING INFORMATION

On May 4, 1998, the City Council approved the North Bay Revitalization Program, including the formation of a redevelopment project area, amendments to various community plans, and zoning changes. Portions of the affected area are within the coastal zone, and therefore require certification by the California Coastal Commission to become effective. The documents were submitted to the Coastal Commission and considered at a public hearing on September 11, 1998. The Commission approved the rezonings, and approved the community plan amendments with modifications. The modifications involve adding language to the Midway/Pacific Highway Corridor Community Plan regarding the need for further environmental documentation and Local Coastal Program amendments before Council consideration of the Bay-to-Bay Canal project can occur.

An amendment to the Old Town Planned District Ordinance is also proposed to correct the list of permitted uses in the Hortensia Zone which was inadvertently changed at the May 4 hearing; and to remove the floor area ratio bonus for parking structures in the Rosecrans Zone, pursuant to the request of the Old Town Design Review Board. This area is not within the Coastal Zone.

LEGAL DESCRIPTION:

The project site encompasses approximately 1,360 acres and is more particularly described as within seven community planning areas including Clairemont Mesa, Linda Vista, Old Town, Uptown, Midway/Pacific Highway Corridor, Mission Valley, and Peninsula Communities.

NOTE: The City of San Diego, as Lead Agency under CEQA, has prepared and completed Environmental Impact Report No. 97091022 and Mitigation Monitoring and Reporting Program covering this activity. Adopted on May 4, 1998 by Resolution No. R-290046.

FEBRUARY 1, 1999

Introduction of an Ordinance for rezoning to MV-CV zone within the Mission Valley Community Planning Area.

CITY MANAGER SUPPORTING INFORMATION

The applicant proposes to construct a 166 unit hotel on a 5.09-acre parcel in Mission Valley. Although the driveway portion of the proposed project is located within the area planned for the Los Cumbres/I-8 interchange, the hotel has been designed to be functional with or without the interchange. The site is undeveloped, although a Planned Commercial Development (PCD) and Tentative Parcel Map for a hotel project on this site were approved by Planning Commission in 1989. The subject property is adjacent to but outside of the Multiple Habitat Planning Area (MHPA) boundary and is designed to avoid impacts to sensitive habitat within the MHPA. The proposed Rezone and Mission Valley Planned District/Resource Protection Ordinance Permit are consistent with the General Plan and the Mission Valley Community Plan and the project meets all the requirements of the Mission Valley Planned District Ordinance and the Resource Protection Ordinance.

On March 4, 1998, the Mission Valley Community Planning Group recommended approval of

the project by a vote of 23 in favor, 0 against and 1 abstention.

The rezone from MV-M/SP to MV-CV would not have an impact on housing and affordability.

The City and the District entered into a Retirement Agreement "Agreement" on February 11, 1964, to provide retirement benefits to the District's employees through participation as general members in the San Diego City Employees' Retirement System ("SDCERS"). On May 26, 1992, the City and the District entered into a first amendment to the Agreement allowing designated

District employees to participate in SDCERS as safety members.

The City and the District entered into a second amendment to the Agreement on March 17, 1997, to provide benefits different from some of the benefits provided under the Manager's Proposal to District employees participating in SDCERS. (The Agreement, and the first and second amendments thereto, are on file in the office of the San Diego City Clerk as Document Nos. 667149, RR-279991 and RR-288414.)
