ITEM-201: Extension of the San Diego Regional Fire Rescue Helicopter Program.

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2004-1167) ADOPTED AS RESOLUTION R-299209

Authorizing the City Manager to execute a Memorandum of Understanding with the Service Authority for Freeway Emergencies (SAFE) to continue the fire and rescue helicopter program, to be operated, managed, and administered by the San Diego Fire-Rescue Department, contingent on the receipt of funding from SAFE, the County of San Diego, donors, and others;

Authorizing the City Manager to accept and expend funds from SAFE for the fire and rescue helicopter program for Fiscal Year 2004;

Authorizing the City Manager to renew the existing agreement with Kachina Aviation for helicopter services for the fire and rescue helicopter program for an additional six-month term, with monthly renewals thereafter as required by the City, in a total amount not to exceed \$1,285,206 in Fiscal Year 2005, contingent on Council's adoption of the Fiscal Year 2005 budget;

Authorizing the expenditure of an amount not to exceed \$1,285,206 from Fund No. 100, Dept 120, Organization 2200, Object Account 4222, to provide funds for helicopter services under the renewal agreement with Kachina Aviation.

CITY MANAGER SUPPORTING INFORMATION:

On June 17, 2004, the Mayor and City Council adopted Resolution R-298093 which authorized execution of agreements with SAFE (Service Authority for Freeway Emergencies) and the County of San Diego to implement the Regional Helicopter Program (Helicopter Program); and authorized execution of the contract with Kachina Aviation to provide helicopter services for the Helicopter Program. Under the contract, Kachina Aviation provides a Bell 212HP twin turbine helicopter, equipped with a 375 gallon water dropping tank, rescue hoist and searchlight, pilots, maintenance engineers, maintenance, fuel, fuel servicing vehicle, fuel servicing vehicle driver, required equipment and insurance. Funding for the Helicopter Program was provided by the SAFE, private donors, corporate sponsors and the City and County of San Diego.

The contract with Kachina Aviation started on June 25, 2004, operated for one hundred and twenty days and officially expired at midnight on October 22, 2004. Due to existing wildfires in Southern California and forecasted weather conditions at that time, the California Department of Forestry (CDF) entered into a "call when needed" emergency contract with Kachina Aviation and put Copter 1 into service under CDF's jurisdiction. On October 27, CDF released Copter 1 and it returned to San Diego to help fight the Paradise and Cedar Fires and coordinate air resources within the City.

On December 8, 2004, Mayor and Council approved the City Manager's request to extend the Kachina Aviation contract until a permanent, countywide fire and rescue helicopter program is established and funded in San Diego County. The existing contract is for a minimum of 120-days beginning on June 25, 2004 through June 24, 2004 with an option to renew the contract an additional four (4) one (1) year periods.

FISCAL IMPACT

The estimated cost of the Helicopter Program in FY 2005 is \$2,760,000. This estimate is based on a 6-month contract with Kachina Aviation for a 12-hour day, 7-day a week operation and a permanent Helicopter Program in place by January, 2005. There is currently a formal study

underway by helicopter consultants Conklin and deDecker to recommend an effective regional Helicopter Program for San Diego County. The results of the study should be completed by June, 2004. Along side this study, the City of San Diego in conjunction with the San Diego County Fire Chief's Association, is currently working on several options to acquire a permanent helicopter for the region. The estimated revenue from donations, grants and sponsorships to help fund the Helicopter Program operations in FY 2005 is \$800,000.

SAFE has been a long-term financial supporter of the Helicopter Program. In FY 2004, SAFE provided \$230,000 to fund the first 90-day pilot Helicopter Program. In FY 2004, SAFE provided \$400,000 to fund the 120-day Seasonal Helicopter Program. On February 12, 2004, the SAFE Board of Directors voted to contribute additional funds to help continue the Helicopter Program in FY 2004 through monthly contributions of \$34,642 for a four and one-half month period. Executing the Memorandum of Understanding between the City of San Diego and SAFE will authorize the City Manager to accept and expend these additional funds in support of the Helicopter Program. It is anticipated that SAFE will provide additional funding in FY 2005 to continue the Helicopter Program in San Diego County.

The proposed 30-acre project site is located in the northeast corner of Nobel Drive and Shoreline Drive, in the community of University City. The proposed improvements include a 15,000 square foot library, 10,000 square foot recreation center, site grading, storm water drainage systems, utilities, multi-use sports fields, parking lots, children's play areas, picnic areas, dog off-leash area, pre-engineered comfort station, security and ball field lighting, pedestrian walkways, ADA ramps, fencing monument signs, landscaping, irrigation systems, public art, and other amenities desired by the community of University City Planning Area.

In Spring 2004, Council also approved a consultant agreement with Platt/Whitelaw Architects, Inc. to produce bridging documents for a design build process.

The GDP plans and concept drawings have been approved by majority vote of the University City Focus Group and the University City Planning Group. In addition, in March of 2004, the University City Planning Group recommended approval of the project budget as presented and to add additional budgeted costs into the University City Public Financing Plan and Facilities Benefit Assessment by a vote of 15 in favor with two opposed.

In accordance with Article 2, Division 33 of the Municipal Code, Wylie construction was selected as the successful Design Build Team (DBT). The proposed agreement with DBT is a two phase contract with a Phase I providing the professional services required to prepare construction drawings, and Phase II providing for the construction of the Nobel Athletic and North University Community Branch Library. Phase II cannot be awarded until all environmental documentation mitigation, and permitting are complete.

FISCAL IMPACT:

The total project costs is estimated at \$20,873,792 of which \$971,260 is for Phase I of Design-Build contract and \$16,135,894 is for Phase II of the Design-Build Contract and \$3,766,638 is for engineering and related costs. Funds for this action are available in CIP-29-718.0, North Athletic Area and CIP-35-098.0, North University Branch Library Project. This project will be phased funded.

ITEM-331: Nobel Athletic Area and Library.

Nobel Athletic Area & Library - To consider override of City Manager’s determination of noncompliance with the land use recommendations of the adopted NAS Miramar Comprehensive Land Use Plan (CLUP), in accordance with Land Development Code Section 132.0310. The proposed project is located within an area identified as being subject to the 65-70 db Community Noise Equivalent Level by the NAS Miramar CLUP, at a site northwest of Nobel Drive, east of Toscana Drive and southwest of Judicial Drive in the Airport Environs Overlay Zone, within the University Community Planning Area.

(See City Manager Report CMR-04-087. PTS No. 5825. University Community Plan Area. District-1.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2004-1137) ADOPTED AS RESOLUTION R-299214

Adopting the following findings with respect to said override:

1. The proposed development will not be detrimental to the public health, safety, and welfare.
2. The proposed development will minimize the public’s exposure to excessive noise and safety hazards to the extent feasible.
3. The proposed development will meet the purpose and intent of the California Public Utilities Code section 21670.

The above findings are supported by the minutes, maps and exhibits, all of which are herein incorporated by reference;

That the City Council overrides the decision of the City Manager and determines that the proposed use meets the intent of the CLUP.

NOTE: 6 votes required.

OTHER RECOMMENDATIONS:

A recommendation from the Planning Commission is not part of this process per Land Development Code Section 132.0310.

The University Community Planning Group met on February 12, 2002, and voted to recommend approval of the Nobel Athletic Area and Library by a vote of 7-5-0.

The Marine Corps opposes the library and playground components of the project based on noncompliance with the adopted NAS Miramar CLUP. In addition, the San Diego Regional Airport Authority, acting as the Airport Land Use Commission, met on January 5, 2004, and voted 7-1 that the library and playground components of the project are not compatible uses according to the adopted NAS Miramar CLUP.

CITY MANAGER SUPPORTING INFORMATION:

Background

The proposed project is located within the University Community Planning Area and is designated for development of the Nobel Sports Complex. The project proposes to develop athletic fields, a recreation center, a library, and playground area on an undeveloped 30.2 acre site. The site is currently zoned residential and is subject to the Airport Environs Overlay Zone. The project is currently being reviewed for a Site Development Permit for Environmentally Sensitive Lands. Further processing and a hearing on the project is pending this override action by City Council.

During the review of the proposed Site Development Permit, it was determined that the library and playground portions of the Nobel Athletic Area & Library project were not in compliance with the NAS Miramar CLUP. The Community Noise Equivalent Level (CNEL) contour map illustrated in the NAS Miramar CLUP, and replicated in the University Community Plan, identifies the location of the proposed library and playground as being between the 65-70 dB noise contours. The Airport Noise/Land Use Compatibility Matrix identifies libraries and playgrounds as noncompliant uses when the annual day/night average sound levels exceed 65 dB.

Additionally, Marine Corps Air Station (MCAS) Miramar and the San Diego Regional Airport Authority have also determined that the library and playground uses are not in compliance if subject to noise levels in excess of 65 dB. The MCAS Miramar and San Diego Regional Airport Authority determinations are advisory in nature.

In accordance with Land Development Code Section 132.0310, Engineering and Capital Projects Department has filed a petition requesting the City Council to override the City Manager's determination of noncompliance with the recommendations of the NAS Miramar CLUP. The determination of noncompliance affects only the library and playground portions of the project, the athletic fields comply with the CLUP.

FISCAL IMPACT:

None.

OTHER RECOMMENDATIONS:

Planning Commission on March 11, 2004, voted 6–1 to recommend approval; was opposition.

Ayes: Brown, Steele, Lettieri, Schultz, Garcia, Ontai
Nays: Chase

The Del Mar Mesa Community Planning Board on November 13, 2003, voted 11:0:1 to recommend approval of the project, with conditions.

CITY MANAGER SUPPORTING INFORMATION:

The Shaw Lorenz project proposes to subdivide the 277.96 acres to allow for the development of 139 single family structures as allowed by the Specific Plan; the construction of nearly all of Carmel Mountain Road; public cul-de-sac streets; private drives with gated access; wildlife under-crossings; urban amenity trail and a trail resting station; homeowner association lots for slope maintenance and other improvements. A density transfer is proposed from two other sites. The Clews site is 80.00 acres and the Deer Canyon site is 60.00 acres. These properties will be preserved and no residential unit will be allowed to develop on these sites. A boundary dispute between the adjacent property owner is recognized on the tentative map as noted and described as Lot “Y.” The area of dispute would be resolved prior to recording the final map for this unit.

The project is classified as a priority project as defined by the City Storm Water Standards. The project is required to comply with the State Water Resources Control Board Order No. 92-08-DWQ (NPDES General Permit No. CAS0000002).

The proposed project provides 139 market-rate housing units at the maximum density allowed by the Del Mar Mesa Specific Plan. The North City Future Urbanizing Area Framework Plan and the Del Mar Mesa Specific Plan require new development provide housing to accommodate the needs of low income households, as certified by the San Diego Housing Authority. The applicant has chosen the option of paying an in-lieu fee to the Housing Authority to meet their

affordable housing requirement as allowed by the Specific Plan rather than provide dwelling units.

The Shaw Lorenz project is estimated to generate approximately 1,390 average daily trips. The project is subject to the Del Mar Mesa/Subarea V Transportation Phasing Plan. The project would not result in any significant traffic impacts on the surrounding roadway network with the completion of the required transportation improvements.

The Del Mar Mesa Community Planning Board (Board) voted, on November 13, 2003, 11:0:1 to recommend approval of the project, with conditions. Please see Planning Commission report No. PC-04-054 for a full discussion.

The Planning Commission voted 6:1:0, on March 12, 2004, to recommend approval of the staff's recommendation.

City staff recommends the City Council STATE for the record that the information contained in the Project No. 2873/LDR File No. 400669 has been completed in compliance with the California Environmental Quality Act and State CEQA Guidelines, and CERTIFY the Findings to Master Environmental Impact Report MEIR No. 95-0353 reflects the independent judgment of the City of San Diego as Lead Agency; and ADOPT the Mitigation Monitoring and Reporting Program; and City Council APPROVE Easement Vacation No. 25673, Vesting Tentative Map No. 25674, Planned Development Permit No. 25675/Site Development Permit No. 25676/Coastal Development Permit No. 25677/Neighborhood Use Permit No. 76234.

FISCAL IMPACT: None with this action.

On 06/04/03, LU&H voted 4-0 to direct the City Manager to move expeditiously to bring the issue of rescinding or amending the Transit Area Overlay Zone and Residential Tandem Parking Overlay boundaries to City Council, as previously approved by the Land Use and Housing Committee on September 4, 2002. This is a matter of City-wide effect. The following community group(s) have taken a position on the item:

On January 22, 2002, and again on July 23, 2002, the Community Planners Committee voted recommended the rescission of the January 2001 amendments to the Transit Area Overlay Zone and the Residential Tandem Parking Overlay Zone.

Clairemont-Mesa Planning Committee
Encanto Neighborhoods Community Planning Group

SUPPORTING INFORMATION:

In January 2001, the City Council approved amendments to the Transit Overlay Zone (TAOZ) and Residential Tandem Parking Overlay Zone (RTPOZ) as part of the Second Update to the Land Development Code. In January 2002, the Community Planners Committee (CPC) adopted a resolution addressing their belief that these overlay zones were illegally adopted and that inappropriate standards were used, and requested that the Land Use and Housing Committee (LU&H) take several actions related to these amendments.

SUPPORTING INFORMATION: (Continued)

On June 12, 2002, LU&H continued the item and asked staff to return on September 4, 2002, with further analysis on the consistency of the overlay zones with the community plans and where these overlay zones should be applied. LU&H also directed staff to take the issue back to CPC prior to their September 2002 meeting. On July 23, 2002, CPC heard the item and reiterated their previous concerns. They also requested that the overlay zone amendments be

rescinded and that a new process be established to revise these zones. Staff returned to LU&H on September 4, 2002, with an information report detailing the application of the TAOZ/RTPOZ and its relation to the community plans and the draft Strategic Framework analysis and recommendations.

On June 4, 2003, LU&H recommended that the amendment or repeal of the overlay zones be added to the Land Development Code Update Fiscal Year 2003 Work Program. Due to staff constraints during Fiscal Year 2003 this issue was carried over into this fiscal year's work program.

Most recently, the Planning Commission reviewed the proposed project, on October 16, 2003, and recommended that the City Council deny the request and direct staff to include review of these overlay zones as part of the Mobility Element. The Planning Commission also directed staff to bring this item to the Manager's Parking Task Force for their input and stipulated that during review of these issues under the Mobility Element, staff should consider transit locations, the relationship between transit and land use, keeping affected community groups involved and that regional implications and implementation be a consideration.

This proposal was presented to the Manager's Parking Task Force on November 17, 2003, as an information item.

FISCAL IMPACT:

Staff was directed to work on this item as part of the Land Development Code Implementation work program for Fiscal Year 2004 by the Land Use and Housing Committee as its meeting on July 23, 2004 (CMR No. 03-168). The staffing costs and fiscal impact to prepare the proposed regulations are part of the Land Development Code Implementation work program.
