ITEM-332: Hillside Drive Residence.
(Continued from the meeting of September 21, 2004, Item 333, at Councilmember Frye's request, due to lack of time).

As a property owner, tenant or interested citizen, that the Council of the City of San Diego, California will conduct a public hearing, as part of a scheduled City Council meeting, to either approve or deny, the balance of the project of a previously acted upon permit (CDP/HRP 96-7549), Hillside Drive Residence, Coastal Development Permit and Hillside Review Permit (Old Code). The Owner/Permittee of the property located at 7674 Hillside Drive (Lot 4, La Jolla Hillside, Map No. 8782) filed an application with the City of San Diego for a Coastal Development Permit/Hillside Review Permit (CDP/HRP) to construct a three story, 9,840 square foot, single-family home referred to as the Hillside Residence. The property was zoned R1-40,000 and Hillside Review Overlay Zone at the time of application (current zone RS-1-8), and lies within the La Jolla Community Planning Area. On April 8, 1999, the Planning Commission of the City of San Diego considered CDP/HRP Permit No. 96-7549, and pursuant to Resolution No. 2777-PC voted to approve the project. The decision of the

Planning Commission was appealed to the City Council. On June 29, 1999, the City Council conducted a public hearing, and the appeal was continued in part, and denied in part as follows (1) CDP/HRP No. 96-7549 was approved for the construction of an interim access road/driveway to allow further geotechnical testing under the terms and conditions of the permit; and (2) the action of the appeal was continued as it relates to the balance of the project until staff returns with a full geotechnical analysis and recommendation. The applicant has completed the requested information, and is returning to the City Council for their review and decision on this matter.

(See City Manager Report CMR-04-205. Coastal Development Permit No. 125782 and Hillside Review Permit No. 125783 /PTS No. 37375. La Jolla Community Plan Area. District-1.)

NOTE: Hearing open. No public testimony taken on 9/21/2004.

CITY MANAGER'S RECOMMENDATION:

Adopt the resolution in Subitem A to deny the appeal and to grant the permits and adopt the resolution in Subitem B:

Subitem-A: (R-2005-) DENIED THE APPEAL, GRANTED PERMITS,
ADOPTED AS RESOLUTION R-299734

Adoption of a Resolution granting or denying the appeal and granting or denying the Coastal Development Permit No. 125782 and Hillside Review Permit No. 125783, with appropriate findings to support the Council action.

That the City Clerk is directed to file a Notice of Determination (NOD) with the Clerk of the Board of Supervisor for the County of San Diego regarding the above project.

OTHER RECOMMENDATIONS:

On April 8, 1999, the Planning Commission denied an appeal and approved the subject project by a vote of 6 to 0, with one additional condition. A condition requiring the applicant to enter into a Hold Harmless Agreement with the City was added to permit due to potential geologic hazards of the site.

Ayes: Anderson, Butler, Skorepa, Stryker, Watson, White.
Not present: Steele

The La Jolla Community Planning Association voted 10-0-0 to recommend approval of the proposed project at their meeting of July 10, 1997. The project site is located at 7674 Hillside Drive in the R1-40,000 for the main portion of the lot and R1-8,000 for the narrow access portion, and Hillside Review Overlay Zone, within the La Jolla Community Plan area. The project side is legally described as Lot 4, La Jolla Hillside, Map No. 8782.

This project proposes a three-story, 9,840 square foot single family residence with an attached garage and patio/pool all designed to comply with the R1-40,000 Zone development regulations. The proposed structure utilizes an embedded design, which fits the structure into the natural topography and minimizes the amount of grading outside the building footprint consistent with the recommend design methods from the Hillside Review Design Guidelines. The constraints of the property were analyzed through a slope analysis along with information regarding the geologic hazards, fire hazards, and sensitive biological resources were plotted on the project site. The proposed location of the residence was determined to be the most developable portion of the property, based on all the analyzed constraints. Access to the site will be provided by a 16 foot wide shared driveway, in conformance with the previously approved HRP No. 126. The proposed driveway has been approved by the City's Fire and Engineering Sections of Development Services, subject to the permit conditions.

On February 17, 1999, the Hearing Officer approved the proposed project at a public hearing, with conditions and findings to support the project.

FISCAL IMPACT:

All costs associated with the processing of this project are paid from a deposit account maintained by the applicant.
