(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)

§126.0404 Findings for Neighborhood Development Permit Approval

A Neighborhood Development Permit may be approved or conditionally approved only if the decision maker makes all of the *findings* in Section 126.0404(a) and the supplemental *findings* in Section 126.0404(b) through (e) that are applicable to the proposed *development* as specified in this section.

(a) Findings for all Neighborhood Development Permits

- (1) The proposed *development* will not adversely affect the applicable *land use plan*;
- (2) The proposed *development* will not be detrimental to the public health, safety, and welfare; and
- (3) The proposed *development* will comply with the applicable regulations of the Land Development Code including any allowable deviations pursuant to the Land Development Code.

(b) Supplemental Findings--Environmentally Sensitive Lands

A Neighborhood Development Permit required in accordance with Section 143.0110 because of potential impacts to *environmentally sensitive lands* may be approved or conditionally approved only if the decision maker makes the following supplemental *findings* in addition to the *findings* in Section 126.0404(a):

- (1) The site is physically suitable for the design and siting of the proposed *development* and the *development* will result in minimum disturbance to *environmentally sensitive lands*;
- (2) The proposed *development* will minimize the alteration of natural land forms and will not result in undue risk from geologic and erosional forces, *flood hazards*, or fire hazards;

- (3) The proposed *development* will be sited and designed to prevent adverse impacts on any adjacent *environmentally sensitive lands*; and
 - (4) The proposed *development* will be consistent with the City of San Diego's Multiple Species Conservation Program (MSCP) Subarea Plan.
- (c) Supplemental Findings--Environmentally Sensitive Lands Deviation
- A Neighborhood Development Permit required in accordance with Section 143.0110 because of potential impacts to *environmentally sensitive lands* where a deviation is requested in accordance with Section 143.0150 may be approved or conditionally approved only if the decision maker makes the following supplemental *findings* in addition to the *findings* in Section 126.0404(a) and the supplemental *findings* in Section 126.0404(b):
- (1) There are no feasible measures that can further minimize the potential adverse effects on *environmentally sensitive lands*; and
 - (2) The deviation requested is the minimum necessary to afford relief from special circumstances or conditions applicable to the land and not of the *applicant's* making.
- (d) Supplemental Findings-- Important Archaeological Sites and Traditional Cultural Properties
- A Neighborhood Development Permit required in accordance with Section 143.0210 because of potential impacts to an *important archaeological site* or a *traditional cultural property* may be approved or conditionally approved only if the decision maker makes the following supplemental *findings* in addition to the *findings* in Section 126.0404(a):

 - (2) All feasible measures to protect and preserve the special character or the special historical, archaeological, or cultural value of the resource have been provided by the *applicant*.

- (e) Supplemental Findings – Additional Intensity for Non-residential Development in the Brown Field or Montgomery Field Airport Influence Areas. The *applicant* shall demonstrate that the building has been designed to minimize risk and increase the safety of the occupants beyond the minimum requirements of the California Building Code through evaluation of the following:
 - (1) The proposed building provides increased fire resistant rated construction to prevent or delay fire-induced structural damage;
 - (2) The proposed building provides increased fire protection systems to allow occupants more time to exit the building and to delay the spread of fire to adjacent buildings;
 - (3) The building provides enhanced means for building egress; and
 - (4) The design of the building's structural systems addresses light aircraft impact loads to reduce the potential for structural damage.
