(Continued)

Under the Final Environmental Impact Report for the San Diego Downtown Community Plan, Centre City Planned District Ordinance, and Tenth Amendment to the Redevelopment Plan for the Centre City Redevelopment Project (EIR), an Environmental Secondary Study is prepared for all developments in the Centre City area in order to evaluate the project's compliance with the Community Plan and PDO and, therefore, the findings and conclusions of the EIR. Unless the project is found to be out of compliance with those planning documents, no further environmental review is required. An Agency resolution has been prepared stating for the record that the Agency has previously reviewed and considered information contained in the EIR and it is determined that no substantial changes or new information of substantial importance within the meaning of the California Environmental Quality Act warrant additional environmental review in connection with the approval of the design and Centre City Development Permit No. 2006-01 for the development of affordable housing at 16<sup>th</sup> and Market streets.
