(RA-2006-106)

Subitem 1. Approve the Resolution stating for the record that the Agency has Previously reviewed and considered information contained in the Environmental Impact Report for the development of a park along Date Street and Tenth Avenue.

Subitem 2. Make certain findings that the proposed improvements benefit the Centre City Redevelopment Project Area or the immediate neighborhood in which the Project is located; that no other reasonable means of financing the improvements are available, to the community, that the payment of funds for such improvements will assist in the elimination of blighting conditions inside the Project Area, and that the proposed improvements are consistent with the Implementation Plan adopted for the Project Area pursuant to Health and Safety Code 33490.

Under the 2006 Final Environmental Impact Report for the San Diego Downtown Community Plan, Centre City Planned District Ordinance, and Tenth Amendment to the Redevelopment Plan for the Centre City Redevelopment Project (EIR), an Environmental Secondary Study is prepared for all developments in the Centre City area in order to evaluate the project's compliance with the Community Plan and PDO and, therefore, the findings and conclusions of the EIR. Unless the project is found to be out of compliance with those planning documents, no further environmental review is required. An Agency resolution has been prepared stating for the record that the Agency has previously reviewed and considered information contained in the EIR and it is determined that no substantial changes or new information of substantial importance within the meaning of the California Environmental Quality Act warrant additional environmental review in connection with the approval of Cortez Hill/Tweet Street Park along Date Street and Tenth Avenue in the Cortez Redevelopment District.
