

THE CITY OF SAN DIEGO

Report to the City Council

DATE ISSUED: January 31, 2017 REPORT NO. 17-008

ATTENTION: Honorable Council President Myrtle Cole and Members of the City Council

SUBJECT: City of San Diego Crime Briefing
January – December 2016 Index Crimes

REFERENCE: None

REQUESTED ACTION: Information only item.

STAFF RECOMMENDATION: N/A

EXECUTIVE SUMMARY OF ITEM BACKGROUND:

This report summarizes the January through December 2016 index crimes, as well as domestic violence cases, gang statistics, hate crimes, juvenile crimes and response times. Index crimes include murder, rape, robbery, aggravated assault, burglary, larceny and motor vehicle theft. The Department of Justice Uniform Crime Reporting program collects information on these crime types from law enforcement agencies throughout the United States and uses the data to measure crime nationwide.

Beginning in 2015, reported rapes are compiled using the FBI's updated definition, which now includes additional sex crimes such as sodomy and oral copulation, and male victims of sex crimes. As a result, rape statistics, including the number of reported rapes, rape rates per one thousand residents and rape clearance rates prior to 2015 are not comparable to current statistics. The violent crime subtotal and total index figures prior to 2015 are also not comparable due to the change in the rape definition. This report focuses on a comparison of 2015 and 2016 statistics which were both compiled using the current definition of rape.

In addition to the statistics covered in this report, it is important to highlight the outstanding partnerships between our police officers, professional civilian staff, volunteers and the community we so proudly serve. These partnerships, as outlined in the Department's Quarterly Community Policing Reports, are essential to address crime, quality of life and traffic issues critical to San Diego maintaining its reputation as one of the safest big cities in the United States.

DISCUSSION

The table below shows a decrease of 2.3% for overall crime in 2016 compared to 2015. With the exception of rape, a result of the new definition, the number of crimes in each of the categories in 2016 continues to be similar to the number of reported crimes from decades ago.

2016	3.8	20.6	24.4

Violent Crimes

Violent crimes decreased 4.5% in 2016, when compared to 2015. Murders increased from 37 cases in 2015 to 49 cases in 2016. Rape increased slightly, from 566 cases in 2015 to 572 cases in 2016. Total robberies remained relatively constant. Just over two-thirds of robberies were street robberies, which increased 1.3%. Total aggravated assaults decreased 7.7% overall. Assaults involving guns increased 15.3%, assaults involving other weapons decreased by 4.5%, and aggravated assaults without a weapon decreased 25.6%. Nearly a quarter of aggravated assaults were related to domestic violence.

Excluding 2012 and 2015, the violent crime rate per 1,000 residents decreased each year since 2006.

A closer review of homicides reveals nearly two-thirds of the 49 homicides in 2016 occurred in three commands. Southeastern Division accounted for 29% of homicides, followed by Central and Mid-City, with 17% and 16% respectively.

Homicides in 2016 by Division

In 2016, more than half (25 of 49) of homicides involved a firearm, and nearly one-half (44%) of the homicides with a firearm occurred in Southeastern Division. Eastern, Mid-City and Southern each accounted for 12% of homicides involving a firearm.

Firearm Homicides in 2016 by Division

Overall violent crime decreased in 2016, due to the decrease in aggravated assaults. Central, Southeastern and Central accounted for more than half (58%) of the aggravated assaults in 2016. Twenty three percent of aggravated assaults occurred in Central division, 19% in Southeastern and 16% in Mid-City.

Aggravated Assaults in 2016 by Division

Aggravated assaults involving a firearm increased in 2016, while aggravated assaults involving all other weapon types decreased. Over one-third (37%) of firearm assaults occurred in Southeastern Division. Central and Mid-City Divisions each accounted for 15% of aggravated assaults involving a firearm.

Firearm Assaults in 2016 by Division

Firearms recovered during traffic and pedestrian stops show a similar distribution by command as firearm assaults. Nearly half of recovered firearms from stops were from Southeastern Division, followed by Mid-City and Central Divisions, with 20% and 12%, respectively.

Firearms Recovered During Stops in 2016 by Division

Property Crimes

Overall property crime decreased 1.8% in 2016, when compared to 2015. Burglary decreased 7.5% due to decreases in both residential and commercial burglary. Theft decreased 4.7%, primarily due to a drop in shoplifting and bicycle thefts. Vehicle theft increased 14.6%, however, the number of vehicles reported stolen is similar to the mid-1970s.

Excluding 2011, 2012 and 2015, the property crime rate per 1,000 residents decreased each year since 2006.

Over one-third of burglaries in 2016 occurred in Northern and Mid-City divisions, each accounted for 18% of all burglary cases.

Burglaries in 2016 by Division

Auto theft was the only property crime in 2016 that increased when compared to 2015. Auto thefts were distributed throughout the City, with Northwestern, Northeastern and Eastern accounting for the fewest auto thefts.

Auto Thefts in 2016 by Division

Crime Clearances

Clearance rates for each of the categories were lower in 2016 than clearance rates in 2015, with the exception of vehicle theft.

Domestic Violence

The total number of domestic violence cases decreased 7.8% in 2016 when compared to 2015. Incidents involving firearms increased, while incidents involving other weapons decreased. The majority of domestic violence cases do not involve any type of weapon.

Response Times

San Diego Police Department dispatches incoming calls according to a hierarchy of call types as defined below.

- Priority E: Imminent threat to life, dispatch immediately.
- Priority 1: Threat to life, serious crime in progress, dispatch immediately.
- Priority 2: Threat to life has passed or does not exist, minor crime in progress/serious crime where suspect has left scene, dispatch as quickly as possible.
- Priority 3: Non-urgent requests for service such as noise only loud parties, report only calls, and crime scene follow-up, dispatch as soon as possible after higher priority calls.
- Priority 4: Minor requests for service such as found property, most parking violations, etc., dispatch when there are no higher priority calls awaiting assignment in the beat.

Response times to all priority calls increased in 2016 when compared to 2015, except for Priority E calls which remained the same.

Average Response Times by Priority January to December
