NOTES: The information above reflects those projects applied for by 1/22/04. Between the last table's date (10/23/03) and this information, there were an additional 33 projects applied for, with a total of 350 units. The projects do not include the conversion of existing units under construction, only the conversion of units that have previously been occupied as rental units. On 12/10/03, it was discovered that one project in Otay Mesa-Nestor was actually counted twice (188 units). The above numbers have been modified to reflect the correction of that mistake.
