

THE CITY OF SAN DIEGO

MEMORANDUM

DATE: May 25, 2010

TO: Honorable Councilmember Tony Young, Budget Review Committee Chair
and Budget Review Committee Members

FROM: Julio Canizal, Financial Manager

SUBJECT: Fiscal Year 2011 Budget Review Committee Referral Response

This memorandum is in response to questions asked at the Budget Review Committee Meeting held on May 5, 2010. The responses are grouped by department in the order that they were reviewed by the Committee.

Fire-Rescue

COUNCIL DISTRICT 6

QUESTION: Please provide the reasoning for the approximate \$2.2 million projected revenue decline within Fire-Rescue's Non-General Fund Emergency Medical Services (EMS) Division.

RESPONSE: The approximate \$2.2 million revenue reduction to the Fire/Emergency Medical Services Transport Program Fund is directly related to the new EMS contract. Prior to the new contract, all costs incurred in this fund were either reimbursed through the San Diego Medical Services Enterprise (SDMSE), the Administration Department's Emergency Medical Services Program, or the Fire-Rescue Department. Under the new contract agreement, SDMSE assumes greater responsibility for these costs and the impact to revenue reflects these changes.

Fire-Rescue/Fleet

COUNCIL DISTRICT 5

QUESTION: Please provide a spreadsheet that displays the following detailed information on all fire department vehicles by type, including lifeguard vehicles: 1. Number of vehicles by type; 2. Age of vehicles by type; and 3. Mileage of vehicles by type.

Honorable Councilmember Tony Young, Budget Review Committee Chair
And Budget Review Committee Members
May 25, 2010

RESPONSE: Please refer to **Attachment 1** for detailed information on Fire-Rescue Department vehicles by type.

CPCI

COUNCIL DISTRICT 4

QUESTION: Please discuss the potential for the Centre City Development Corporation (CCDC) to provide funding in support of community plan updates in Southeastern Economic Development Corporation (SEDC) districts. Is it permissible to use CCDC funding in this way?

RESPONSE:

The Centre City Development Corporation, Inc. (CCDC) manages and implements the Centre City and Horton Plaza Redevelopment Project Areas on behalf of the Redevelopment Agency of the City of San Diego (Agency) pursuant to an Operating Agreement entered into by and between CCDC and the Agency.

The Agency is a public body, corporate and politic, that exercises governmental functions and has the powers prescribed to it in the California Community Redevelopment Law [Community Redevelopment Law]¹. The legal justification for use of the extraordinary public powers authorized by the Community Redevelopment Law is the elimination of blight². Since CCDC's purpose is to provide redevelopment services on behalf of the Agency pursuant to the Operating Agreement, CCDC is required to follow Community Redevelopment Law in carrying out its activities and powers.

The primary funding source relied on by the Agency to fund its activities, including activities initiated by CCDC, under the Community Redevelopment Law is tax increment revenue used "to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed, or otherwise) incurred by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project"³.

Tax increment revenue must be spent on activity that constitutes redevelopment as prescribed in sections 33020 and 33021 of the Cal. Health and Safety Code and primarily benefits the project area⁴.

Redevelopment is defined, in part, as the planning, development, replanning, redesign, clearance, reconstruction, or rehabilitation, or any combination of these, of all or part of a survey area, and the provision of those residential, commercial, industrial, public, or other structures or spaces as

¹ Cal. Health and Safety Code sections 33100, 33122. The Community Redevelopment Law is set forth at California Health and Safety Code sections 33000 et seq.

² *Berman v. Parker*, 348 U.S. 26 (1954).

³ Cal. Health and Safety Code section 33670(b)

⁴ Cal. Health and Safety Code section 33678(a) and (b)

may be appropriate or necessary in the interest of the general welfare, including recreational and other facilities incidental or appurtenant to them⁵.

Additionally, redevelopment is defined to include: (a) the alteration, improvement, modernization, reconstruction, or rehabilitation, or any combination of these, of existing structures in a project area; (b) the provision for open-space types of use, such as streets and other public grounds and space around buildings, and public or private buildings, structures and improvements, and improvements of public or private recreation areas and other public grounds; and (c) the replanning or redesign or original development of undeveloped areas that are stagnant or improperly utilized or that require replanning and land assembly for reclamation or development in the interest of the general welfare⁶.

In light of the above, the Agency has the authority under the Community Redevelopment Law to fund, using non-housing funds, the costs of studies or planning documents, such as community plan updates, provided that the studies or planning documents further redevelopment as defined in Cal. Health and Safety Code sections 33020 and 33021, and will primarily benefit the project area in which the funds are generated.

The requirement that the use of tax increment funds shall primarily benefit the contributing project area, serves to preclude a redevelopment agency from spending tax increment funds for many community facilities that solely provide a general community benefit and do not primarily benefit the project area.

Tax increment funds from the North Bay, San Ysidro and North Park Redevelopment Project Areas are providing a portion of the funding necessary for their correlating community plan update as the expenditure of funds will primarily benefit the project area in which the funds have been generated. Factors considered in determining the appropriate and justifiable use of redevelopment funds from a specific project area may include, but not limited to, how much of the project area from which the funds are generated is within the community plan area, the issues to be addressed in the community plan update, the degree to which these issues stem from the project area from which the funds are generated, the degree to which blight may be eliminated in the project area from which the funds are generated and the expenditure will primarily benefit the project area from which the funds are generated.

The Gateway Center West, Southcrest and Mount Hope Redevelopment Project Areas are within the boundaries of the Southeastern San Diego Community Plan area. The Central Imperial Redevelopment Project Area is within the Encanto Neighborhoods Community Plan area. The correlating redevelopment project areas could be considered for proportional funding of their correlating CPU based upon the factors discussed above.

⁵ Cal. Health and Safety Code section 33020

⁶ Cal. Health and Safety Code section 33021

None of the Agency's other thirteen (13) project areas are located within either the Southeastern San Diego or Encanto Neighborhoods community planning areas. Factors such as those discussed above would need to be considered to justify the expenditure of tax increment funds generated by a redevelopment project area outside these community planning areas.

While the Centre City Redevelopment Project area is adjacent to a portion of Southeastern San Diego and linked by transit to portions of the project area, it is only a portion, and much of the community plan area is unrelated to the Centre City Redevelopment Project Area. The I-5 Freeway also provides a barrier between the community plan area and the Centre City Redevelopment Project area. Therefore, any consideration of using Centre City tax increment funds for a Southeastern Community Plan update would have to meet the factors described above, and, even if those findings can be made by the Redevelopment Agency, after a recommendation from the Centre City Development Corporation Board, it could only apply to a rationale proportion of the costs that is consistent with the findings.

The City Planning & Community Investment Department (CPCI) recommends revisiting this question when it is determined this fall if the City's \$1 million application for the Sustainable Communities Planning Grant from the State of California is approved. If approved, CPCI will have an adequate foundation of funding that can then leverage other sources.

In the meantime, CPCI is proceeding with the two specific planning projects for Euclid and Market, and Commercial and Imperial corridors using SANDAG's Smart Growth Implementation Plan. This work, though separate from a community plan update, will provide important data and policies that CPCI anticipates will be incorporated in the community plan update.

CPCI

COUNCIL DISTRICT 4

QUESTION: Please provide the amount of General Plan Maintenance Fee revenue collected and unspent in a fund.

RESPONSE: The General Plan Maintenance Fee revenue is deposited into a CPCI General Fund revenue account. The fee is charged for development projects with plans and documents to be reviewed for compliance with the General Plan or land development code provisions. The Fiscal Year 2010 budget is \$675,000. Currently, \$497,000 has been collected (as of 5/7/10) and \$597,000 is projected to be collected at year-end. This revenue offsets expenditures for staff and non-personnel expenses that are budgeted in the Planning division. These expenditures are much greater than the budgeted or actual General Plan Maintenance Fee revenue.

General Services - Fleet

COUNCIL DISTRICT 5

QUESTION: Please provide, in Excel format, a list of all vehicles currently in the fleet; including make, age, and miles on the vehicle.

RESPONSE: Please refer to **Attachment 2** for a list of all vehicles currently in the fleet, including make, age, and miles of each vehicle.

General Services - Fleet

COUNCIL DISTRICT 7

QUESTION: Please provide a breakdown of parts used in the City's fleet vehicles: original manufacturer parts versus secondary market parts.

RESPONSE: In Fiscal Year 2010, 47% of fleet parts expenses are original equipment manufacturer (OEM) and 53% are non-OEM.

Storm Water

COUNCIL DISTRICT 6

QUESTION: Why is Convention Center dewatering being paid by the Storm Water department? How much is being paid?

RESPONSE: Storm Water assumed de-watering responsibility from Streets Division following its establishment as an independent department in July 2008. The City agreed to assume the Port District's responsibility for the National Pollutant Discharge Elimination System (NPDES) permit for effluent discharge from the underground parking garage at the Convention Center pursuant to a 1998 Memorandum of Understanding and the 1998 Convention Center Management Agreement by and Between the San Diego Unified Port District and the City of San Diego (Section 6 Paragraph 7). The Agreement was recognized by City Council via Resolution R-289349. The Fiscal Year 2010 budget for these expenses is \$928,400.

Storm Water

COUNCIL DISTRICT 7

QUESTION: How much flexibility is there regarding the street sweeping portion of the budget?

Honorable Councilmember Tony Young, Budget Review Committee Chair
 And Budget Review Committee Members
 May 25, 2010

RESPONSE: The San Diego Municipal storm water permit issued by the San Diego Regional Water Quality Control Board requires the City to implement high, moderate and low levels of street sweeping services depending on the volumes of trash and/or debris generated in various areas. Based on this criteria, the City determined that commercial, posted routes would generate the highest volumes of trash and/or debris and are swept weekly. Residential, posted routes generate moderate volumes of trash/debris and are swept monthly. Non-posted, residential routes generate the lowest levels of trash/debris and are required to be swept at least once per year. For years, City staff has been sweeping non-posted residential routes every other month, or six times per year. If the Department swept "low frequency" routes annually instead of on alternating months, six Motor Sweeper Operators and one Motor Sweeper Supervisor and the equipment used by these employees could be eliminated from the budget, resulting in an initial cost savings of approximately \$1.1 million. However, if this practice were implemented, it would be considered a service level reduction and would result in higher levels of pollutants entering the storm drain system. Increased pollutant loading would degrade the water quality of receiving water bodies, i.e. creeks, rivers, San Diego Bay, Mission Bay and ocean beaches within the City's jurisdiction. The following potential cost savings could be realized by adopting once per year sweeping services for non-posted residential routes:

Motor Sweeper Operator (MSO)

Salary*	\$48,506
Fringe**	\$32,849
Total***	\$81,355
\$81,355 x 6 MSO = \$488,130 Total Salary	

Equipment (Sweepers)

Yearly Rate (Equip Type 718):	\$61,617 Assignment per vehicle
	\$26,928 Usage per vehicle
Usage & Assignment Total =	\$88,545
\$88,545 x 6 (sweepers) =	\$531,269

Motor Sweeper Supervisor

Salary*	\$55,786
Fringe**	\$37,767
Total***	\$93,533

Equipment (Pick-up)

Yearly Rate (1/2 ton P/U) :	
Assignment	\$4,573
Usage	\$2,951
Usage & Assignment Total	\$7,524

Total FY 2011 Savings = \$1,120,457

Honorable Councilmember Tony Young, Budget Review Committee Chair
And Budget Review Committee Members
May 25, 2010

**All positions calculated at the proposed highest rate for each classification*

***Fringe based on proposed fringe amount for Storm Water in the FY 2011 Proposed Budget*

**** Meet and confer issues would have to be addressed before reducing personnel*

Additionally, the Storm Water Department will conduct a review of a 4/10 street sweeping schedule, however, it will take some time to complete the study.

City Clerk

COUNCIL DISTRICT 8

QUESTION: What did it cost last year to hold offsite City Council meetings?

RESPONSE: In calendar year 2009, there was one off-site City Council Meeting held on October 26, 2009 at Kearny High School. The cost associated with this meeting is outlined below:

City TV:	Contract Engineering & City staff overtime	\$ 924
Communications:	Overtime for 2 Technicians & an Apprentice	1,414
SDDPC:	Technical Support	170
City Clerk:	Food & Van Rental	460
Total		<u>\$ 2,968</u>

Please note, however, that with any off-site meeting there may be additional expenses incurred as follows:

1. Venue Rental Charge:

The goal is to get room fees waived or greatly reduced, but some venues charge for the use of the facility. Past fees have ranged from \$25 - \$1,000.

2. ADA Mitigation

Some facilities are not up to the current Americans with Disability Act (ADA) requirements. The department works with the City's Disability Services Coordinator to vet locations ahead of time, but there are instances where a particular location is desired and mitigation must be performed. Past mitigation measures have run from \$100 - \$1,500.

3. Transportation

The goal is always to find a location on a public transportation line but there have been instances in the past where the department has had to pay to extend service for transportation to and/or from a selected location. This can add up to \$500 to the cost of a meeting.

4. Equipment Rental

Most locations have projection screens and the ability to support multi-media presentations, but there have been instances in the past where the large projection screens are not available and these must be rented to support presentations. This can cost up to \$200.

5. “Other” Requirements (Security, Catering)

There may be special requirements related to a particular location – additional security needs, or the requirement that the City use an on-site caterer to furnish meals. This can raise the cost that is associated with the line-item for the City Clerk by up to \$150.

It should also be noted that the Mayor’s State of the City Address is conducted as a Council Meeting, and was held off-site on January 14, 2009 at the Balboa Theatre. The City Clerk’s Office does not have cost information associated with this event, as it is coordinated by the Mayor’s Office.

City Clerk

COUNCIL DISTRICT 7

QUESTION: How much is the department spending this year in processing Statements of Economic Interest (SEI)?

RESPONSE: It is difficult to answer this question precisely for a number of reasons:

1. The number of individuals filing Statements of Economic Interests each year varies.
2. Those individuals who miss the filing deadline and/or who require follow-up varies, and it is this hands-on follow-up and tracking that can generate the largest number of labor hours, and therefore, cost.
3. The way the department tracks the type of labor hours spent on a particular task has changed with the advent of OneSD.
4. There are five individuals in the Elections & Information Services Section who all have a significant role in the process of handling Statements of Economic Interests, and it is routine for any one of the five to step in and answer a question or make a copy or attend to a customer at the front desk – sometimes in such small time increments, that it is difficult to capture all of the time spent by every employee accurately.
5. Both the City Clerk and the Elections & Information Services Deputy Director spend time related to SEIs answering questions, handling sensitive issues, making presentations in the community and/or drafting and signing documents, which is never captured or reflected in the labor hours.

The costs captured relating to Statements of Economic Interests are as follows:

Fiscal Year 2009	\$37,228*
Fiscal Year 2010**	\$40,734***

- * \$37,228 only contains the salary information for two employees. The other three employees were charging their time to a general correspondence job order number since their time related to SEIs was spent in drafting, proofing, printing, filing and mailing follow-up correspondence related to a number of elements, including: Statements of Economic Interests, Campaign Finance Disclosure and Lobbyist Registration.
- ** Fiscal Year 2010 only captures data through April 2010.
- *** \$40,734 reflects the salary of two employees through December 2009 and all five employees who worked with SEIs from January through April 2010.

It is also important to note that these dollar amounts do not reflect supplies such as paper, copier ink and/or maintenance, and any postage that is associated with the SEI process.

Financial Management

COUNCIL DISTRICT 5

QUESTION: Please estimate how much the 2010 Redistricting Commission will cost the City. Will this be included in the May Revision?

RESPONSE: \$500,000 in one-time expenditures for anticipated costs associated with redistricting have been included in the May Revision. The costs for this effort will be closely monitored and staff will return to Council later in the fiscal year should an additional appropriation be required.

Personnel

COUNCIL DISTRICT 5

QUESTION: How much do Civil Service Commission hearings cost the City each year?

RESPONSE: The approximate cost of Civil Service disciplinary appeal hearings for Fiscal Year 2009 was \$108,000. These disciplinary appeal hearings are conducted by the Civil Service Commission pursuant to, and as required by, Charter Section 129.

Park and Recreation

COUNCIL DISTRICT 6

QUESTION: Please provide a list of bathroom closures in Mission Bay Park. Please also provide a list of impacts to Mission Bay Park maintenance, the status of the fire pits, and revisions to recreation center hours.

RESPONSE: As a result of the approved mid-year Fiscal Year 2010 budget reductions, eleven of twenty-eight restrooms were closed from February 6, 2010 through March 30, 2010. The restroom closures included Bahia Point, East Bonita, El Carmel, Middle Ski Beach, North Cove, North Ski Beach, North Tecelote, Playa Three, South Crown, West Vacation and Youth Camp. In addition, 2 of the 10 unisex restrooms will be closed at Rose Marie Starns South Shores Park and at Fanuel Park. For Fiscal Year 2011, closures will take place November 1, 2010 through March 30, 2011. Reductions to Mission Bay were approved as part of the mid-year reductions in December 2009. There are no new reductions to Mission Bay Park maintenance. There were no revisions to recreation center hours. The Fire Ring Program will be reinstated in the Fiscal Year 2011 Annual Budget due to donations received to support the cost of the fire pits.

Park and Recreation

COUNCIL DISTRICT 1

QUESTION: What would be the required amount to restore the Trails Manager position?

RESPONSE: The Trails Manager position (classified as a Project Officer II) was not eliminated in the budget but was “bumped” as a result of the City-wide reduction-in-force process. The former staff person was transferred to another position. The cost to add an additional POII position to restore the “bumped” person back to trails management would be \$151,335 including salary and fringe costs.

Park and Recreation

COUNCIL DISTRICT 1

QUESTION: What is the reasoning for the projected revenue decline in the Environmental Growth Fund (EGF)?

RESPONSE: Revenue detail provided by SDG&E indicates that dramatic decreases in gas cost and usage in calendar year 2009 were the cause of the revenue reduction. From calendar year 2008 to 2009, SDG&E average gas rates declined 18.7 percent and volume sold declined 18 percent. While franchise fee revenues attributed to electric sales experienced steady growth of 6.8 percent, franchise fee revenue from gas declined by 37.7% resulting in Fiscal Year 2010 projected SDG&E franchise fee revenue of \$49.8 million (EGF = \$12.4 million), which is a deficit of 9.9 percent or \$5.4 million (EGF = \$1.36 million) from the Fiscal Year 2010 budget.

Park and Recreation

COUNCIL DISTRICT 1

QUESTION: Can Transient Occupancy Tax (TOT) revenue be used for special promotional events at Torrey Pines Golf Course?

RESPONSE: The Junior World Golf Championship and other non-City of San Diego organizations are eligible to receive TOT funding, but must be approved through an application process that is dependent on meeting specific qualifications. Applications for TOT funding available to local organizations and companies are found at the following web addresses:

- Citywide Economic Development (<http://www.sandiego.gov/economic-development/>)
- Arts, Culture, Community Festivals (<http://www.sandiego.gov/arts-culture/programs.shtml>)

Council and Mayoral discretionary funding is also an option for these organizations.

Park and Recreation

COUNCIL DISTRICT 3

QUESTION: Please indicate if there would be additional savings from the Business Process Reengineering (BPR) for park maintenance once it is completed. (Savings beyond the savings recognized in the restructure.)

RESPONSE: The Department is currently in “meet and confer” for the park maintenance restructure. Once this process has concluded, a review of the restructure savings in comparison to projected BPR savings will need to be completed to determine if there are any actual savings. Minimal savings, if any, are expected.
