

**COUNCILMEMBER CHRIS CATE  
CITY OF SAN DIEGO  
SIXTH DISTRICT**

**M E M O R A N D U M**

**DATE:** June 11, 2015

**TO:** Councilmember Myrtle Cole, Chair, Economic Development and Intergovernmental Relations Committee

**FROM:** Councilmember Chris Cate 

**SUBJECT:** Amendments to Home-Based Business Regulations

The City of San Diego (City) is at the forefront of innovation and entrepreneurship. With a close proximity to international markets, strategic connection to the largest land border crossing in the world, a strong military presence, established high tech and life science clusters, and an idyllic climate, San Diego is positioned to produce a vibrant environment of prosperity and opportunity. Ranking third in global patent intensity, San Diego is home to a new generation of entrepreneurs and innovators from across the world. Like many successful companies before them, these individuals are creating new products, designs, and concepts that are impacting San Diego's local economy, often from the confines of their living rooms and garages. According to the U.S. Small Business Administration, 50 percent of all businesses in the United States are based out of someone's home. Impactful companies like Apple, Hershey's, Mary Kay Cosmetics, and Ford have all started as a home-based business.

San Diego is home to approximately 35,000 home-based businesses. These small businesses represent a wide range of industries including: engineering, technical services, business and information, finance and insurance, and health services. However, the City's current regulatory environment is a critical barrier to the expansion of these enterprises. Existing regulations prohibit the hiring of employees and the conducting of business transactions on-site unless an initial deposit of \$5,000 is submitted to the Development Services Department to process a Neighborhood Use Permit (NUP). In today's competitive business world, finding the necessary funds to support this municipal process can be a burden on small businesses and an obstruction to growth and expansion. To promote job creation and strengthen San Diego's local economy, I request Development Services staff consider amendments within the 10<sup>th</sup> Update to the Land Development Code.

Section 141.03080 should be amended to allow for:

- One (1) employee or partner on the premises between the hours of 7:00 a.m. and 7:00 p.m.;
- Home-based businesses should be allowed up to six (6) customers on the premises by appointment between the hours of 7:00 a.m. and 7:00 p.m.;
- Applicants may deviate from these amendments by obtaining the necessary discretionary approval.

In addition, Development Services staff should explore all options to reduce the initial NUP deposit.

In Attachment "A", I have included a strikeout version of my recommendations for your consideration. Please see Attachment "B" for a complete list of citywide home-based businesses categorized by one (1) employee or less across a variety of industry sectors.

I request that this item be docketed for discussion at the next available Economic Development and Intergovernmental Relations Committee meeting.
